## The Land of Opportunity.

"America is good enough for me," says the new head of the larger branch of the house of Astor, which is also the parent branch. It is his answer to the query as to whether there is any truth in the report that the early history of the Southern Colo- bad. he is to become a British subject, as thes it was in the list of the native one of his kinsmon did about twenty eyars ago, and as his own mother is now. Nevertheless, at a time when to look into the methods of dry farmriches were gained here are saying that the United States lacks the proper social atmosphere for persons of lean genius for finding out the latent his culture and breeding, the response qualities of the materials that enter may be worth citing as an evidence into their vocations. of robust sanity in a youth who has just had a vast fortune thrust upon him.

By his acts the founder of the house of Astor also showed that America lican party is not large enough to carwas a good enough place to live and ry the country when split in the mid-Waldorf, the "Village in the Wood," than 1,000,000 which it has had in rewho amassed wealth here beyond the cent presidential elections does not rules, of which these should form a erling, high up in Socialism, wrote: dreams of avarice, made some be- avail when a bolting candidate takes quests to the place of his birth, but away two or three times as many he passed all his manhood years in the United States, and is buried here. ed the Republicans ever since the new All his desendants except one remain- party nominated Col. Roosevelt in the ed in America. That one, who is a national convention which took place British subject, and who is somewhat prominent in British social life, disliked America for two reasons chiefly --because he failed to get an office

her which he sought, and because he believed that Madison failed to appreciate the great work which his first American ancestor did in the Astoria colony at the mouth of the Columbia. It was noticed, however, that that ancestor declined to blame the people of the United States for the timidity and blindness of the president of the war period of 1812 who abandoned him to his enemies and the enemies of his country.

The custom among a certain element of persons, who, after winning a fortune or a competency here go abroad to spend it, was recognized by a congressional statute a year or two ago. The law refuses to recognize these expatiates as Americans unless they, at intervals not exceeding two years, make a statement to the nearest United States consulate that they still want to call America their home. This class, however, is always small. There has been an annual average of goes on in every continent.
