DOMESTIC INFELICITY.

One Unhappy Cause of the Marital Estate Explained.

It is undoubtedly a fact that most married people say things to each other that they would not dare say to the cook, who would give notice and leave, and they would not dream of saying to a casual acquaintance.

Marriage is life with the polish rubbed off in a good many cases. It is the one relation in the world in which most men and women feel that they can dispense with all the amenities of civilization, and in which they have the courage of their rudeness.

Most human beings have no idea of the number of faults they possess nor how they look to others until they hear the litany of their shortcomings chanted with relentless candor by their husbands or wives.

Other people laugh long and lustily at your pet story. Your wife or your husband feels that it is good for you to know that they have heard it at least fifty times and that your power as a conversationalist doesn't amount to much.

Other people praise your vivacity. Your husband feels free to tell you not to make a fool of yourself by acting like a schoolgirl when you are closing on to forty; that dignity and sweetness and silence are what you should cultivate; that you talk too much, anyhow, and it is getting to be a bore. He thinks these things are good for you to know.

Too often husbands and wives use each other to flush out on each other all the ill temper and irritability in their systems—irritability and ill temper that they dare not show to their customers or their servants.

It is usually husbands and wives that tell each other things that the other is not particularly anxious to know—that they are trying to blind themselves to.

And there are people who speculate about the cause of the many cases of domestic infelicity.

Her Left Handedness Was Complete.

A little maiden, quick to notice peculiarities, asked a guest at her father's table if he were left handed.

"Partially so, my little miss," replied the visitor.

His answer puzzled her, but after due reflection she remarked:

"I'm left-handed left handed."—Kansas City Star.
