

Pure and Pleasant Dr. King's New Discovery Drives Away Cough and Cold. Makes You Feel Fine.

You know how very embarrassing it is to constantly cough at parties, in church and other public places. Besides suffering the distress of coughing, you regret the annoyance to those with whom you are brought in contact, and decide not to go out again while your cold lasts, causing yourself much inconvenience.

"Every winter," writes Mrs. M. O. Cross, Granbury, Texas, "I suffered with severe coughs and colds, but since using Dr. King's New Discovery, I have not been bothered or annoyed with either for over two years,"

Ask your druggist for a bottle of Dr. King's New Discovery He will refund your money if not satisfied.

## One Or Two Generations Ago Most Farm Animals Roamed At Large But We Have Gradually Found That This Did Not Pay

The barn yard fowls have been the last to feel the effects of business methods on the farm but at last they have to get in their place (in the poultry yard) and stay there.
The farmer who reads the magazines knows that today many a

chicken farm of a few acres pays a bigger profit than a big farm did a few years ago. Every farmer keeps chickens because it pays and it will pay lots better and the farm will look better if they are kept in the poultry yard.

They are about the most profitable animals on the farm and it takes less space and less expense to keep them.

Enough of our poultry fencing to keep your fowls properly will cost very little and will be the best investment you ever made on the farm. Ask for prices.
