

DON'T TRIFLE WITH COUGHS OR COLDS.

Many Have Filled Consumptive Graves Because They Neglected a Cough or Cold.

You never know how soon a cold will become a serious malady. It may be in the head to-day; in the lungs to-morrow and the next day you may be fighting deadly pneumonia for your life.

Columbia, Mo., "for I believe I would have consumed to-day, if I had not used this great remedy." "I take great pleasure in recommending your Dr. King's New Discovery for the benefit of suffering humanity. It's a thoroughly reliable remedy for all coughs, croup and lung troubles. We have used it in our family for fourteen years with the best results. It saved my mother when two doctors gave her up. She had a very severe case of pneumonia and was in bed seven weeks and part of the time 'out of her mind' so that she did not know me. I told father to get me two 50c bottles of Dr. King's New Discovery, which he did, and on taking it she soon began to improve, and four bottles cured her entirely. You may publish this if you wish and I will answer all inquiries, with postage enclosed for reply.

"I feel sure it's a Godsend to humanity," writes Mrs. Edie Morton,

"Yours respectfully, "Wm. Cogger."

How To Cook A Husband

A recipe for cooking husband "tender and good." A good many husbands are utterly spoiled by mismanagement. Some women go about it as if their husbands were bladders and blow them up. Others keep them constantly in hot water. Others let them freeze by their carelessness and indifference. Others roast them. Some keep them in pickle all their lives. It cannot be supposed that any good husband will be tender or good managed in this way, but they are really delicious when treated properly.

In selecting your husband you should not be guided by the silver appearance, as in mackerel, nor by the golden tint, as if you wanted salmon. Be sure and select him yourself, as tastes differ. Do not go to market for him, as the best are always brought to your door. It is far better to have none unless you will patiently learn how to cook him.

A preserving kettle of the finest porcelain is best, but if you have nothing but an earthenware pickin it will do with care. See that the linen in which you wrap him is nicely washed and mended with the required number of buttons and strings sewed on. Tie him in the kettle with a strong silk cord called comfort, as the one called duty is apt to be weak. They are apt to fly out of the kettle and be burned and crusty on the edges, since, like crabs and lobsters, you have to cook them alive. Make a clear, steady fire, out of love, neatness and cheerfulness. Set him as near this as seems to agree with him. If he sputters and fizzes, do not be anxious. (Some husbands do this until quite done.) Add a little sugar in the form of what the confectioners call kisses; but no vinegar or pepper on any account. A little spice improves them, but it must be used with judgment. Do not stick any sharp instruments into him to see if he is becoming tender. Stir him gently, watch the while lest he lie too flat and close to the kettle and so become useless. You cannot fail to know when he is done. If this treated you will find he is done digestible, agreeing nicely with you and the children, and he will keep as long as you want, unless you become careless and set him in too cold a place.

TWILIGHT

Twilight is very nearly "snow-bound" at this writing but we have hopes that the snow will soon melt and let us come out of the house. We have no use for Oregon snow, it has no good qualities. The Oregonians are scared in to their holes and do not come out until the snow has melted and the good old fashioned rain is falling. The damage done by the snow storm is quite noticeable here.

The Pacific States telephone line was out in several places and the Twilight line was down in numerous places. The linemen had the use of the road to themselves for several days. A large barn belonging to Lazelle & Son which was filled with straw was crushed by the snow and totaled a loss of several hundred dollars and another barn, belonging to Thomas Kelland was crushed by the weight of the snow. This barn was filled with hay and machinery and the aggregate loss amounted to \$500.

The meeting of the Community club next Saturday evening, promises to be the crowning event of the season. The program is in charge of Secretary Lazelle and he announces some important numbers on the program, among which will be a debate between George Lazelle, J. F. Spiger, and J. C. M. Dodds, A. H. Harvey, Fred J. Meindl, a prominent attorney of Portland will speak and also B. L. Sasto, county secretary of the Farmers society of Equity. Mr. A. Dodds will tell about profits in poultry while Miss Grace Spiger of dramatic fame from Spokane, Washington, will appear with her own company. Mr. Lewis Robinson, a baritone singer, formerly of Portland, will render several selections. The Twilight Community Club is a live one and the meetings are well attended.

George Lazelle spent last Sunday with Mr. and Mrs. John Burgoyne of New Era.

Mr. Page who has been in a critical condition at the Oregon City hospital, is reported to be somewhat improved.

Miss Alta Ramsay who has completed a very successful term of school, has been engaged to complete the year's work.

Dairy cows and leghorn hens are the money makers in Twilight at this time of the year. No doubt this is true all over the county.
