Principal Insists Upon Study of Agriculture and Parents Want Him to Continue History Course

T. J. Gary, superintendent of county schools, has rendered a decision regarding the course of study of High school pupils which may be far-reaching.

The course of study for High schools in this state shall embrace a period of four years. The course of study for the two years of optional work in all High schools shall be laid down by the county High school board.

The provision that all or part of the optional work be devoted to industrial training makes such training mandatory in effect whenever the board of directors makes the requirement that it shall be a part of the required course.

The ruling of the court in various states differ some what upon this point, but the preponderance of opinion seems to be in favor of the parent's authority.

VACCINATION URGED BY SCHOOL BOARD

HEALTH OFFICER NORRIS SAYS THERE ARE FOUR CASES OF SMALLPOX

CITY JAIL IS FUMIGATED BY CHIEF

Library Management Announces that Books will not be Allowed in Families that Have Disease

Whereas, It has come to the knowledge of the Board of Directors that many cases of smallpox exist in Oregon City and vicinity, and Whereas, the Board has come further to know that there have been many exposures to the disease, the exact persons exposed being unknown to the Board, and Whereas, there is now a possibility of an epidemic resulting from these exposures, now there fore be it

After a consultation with Dr. J. W. Norris, city health officer, the Board of Directors of the city schools Monday night, went on record as favoring the vaccination of every teacher and pupil in the public schools of Oregon City.

The city health officer stated that it is unlikely that contagion would result before eruption appears, but that it is not impossible. He also explained that there is no surety of a diagnosis before eruption appears.

Chief of Police Shaw had the city jail thoroughly fumigated Monday afternoon. Dr. Dugger, a jail warden, complained to the Chief Sunday afternoon that he suffered from a contagious disease, Dr. H. C. Messner and Dr. J. W. Norris, health officer, said the man was suffering from measles. There being no other place where the man could be quarantined, it was decided to place him in the city jail to await developments.

The management of the Oregon City Library announced Monday that books would not be issued or received from persons connected with families where smallpox exists.

GREAT MASS OF PROOF.

Each of some 6,000 newspapers of the United States is publishing from week to week names of people in its particular neighborhood who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders.

Mr. Noble is only one of many Oregon City people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Noble had—the remedy backed by home testimony, 50c all stores.

THE LAST OLD SOLDIER

Say, boys, you heard what the newspapers say? One and fifty old soldiers a day, Foot sore and weary dropped out at last

Every day—seven days, keep the number in mind, Another full regiment lagging behind We bid them good-bye with a tear and a song, And the column keeps steadily marching along.

Every three weeks another brigade Back in the quiet old church yard is laid; One look at the spot where they peacefully sleep, And each at his place in the column must keep.

Sixty days a division forever at rest, No picket thrown out, no foe will molest; And yet in the morning, at high noon or night, The column moves onward—is soon out of sight.

Every six months a full army; corps Goes into camp on the furthestmost shore, No break in the column—the evening is damp, But mind, boys, we'll soon be in camp.

An army each year, and weary, I Ween, Sleeps neath the sod with the grass growing green, An army complete, fifty thousand strong, And the column is still moving slowly along.

Soon there will be but an invalid corps Of an army that numbered two million or more,— A division, brigade, then a regiment small, Too feeble to note when a comrade shall fall.

At last but a company, then a platoon, A few stragglers left; then soon, oh, too soon, They will read this small item: "The news comes today That the last old soldier has just past away."
