#### PURER SUPPLY IS BEING SOUGHT

Civic Improvement Committee Reports that Work of Cleaning City Is Being Pushed Rapidly

George Randall, one of the heaviest property owners in Oregon City, started something at the weekly luncheon of the Live Wires Tuesday when he declared the city water was not responsible for the recent epidemic of typhoid fever. Within a feew feet of him were C. Schuebel and R. L. Shepherd, both of whom nearly lost their lives during the epidemic and neither has made a complete recovery. Mr. Schnebel was on his feet in a twinkling and roasted the city water supply to a brown turn

"The water furnished the people of Oregon City is vile," declared Mr. "It is not nit to drink and I do not believe it can be flitered into purity. Its source is a great sewer, carrying the refuse from one of the largest vaileys in the country. There was a time, 25 years ago, before the Williamette Valley was so thickly pop ulated, that it was safe to drink this water in its unfiltered state, as the none of the towns above Oregon City had sower systems, but now almost every city along the banks of the stream has its sewers running into the river and what was a beautiful mountain stream is now a mass of

"The water is dangerous to health. I had samples taken from my own faucets and analyzed, and I am of opinion that some of the water sent away from here for analysis was boiled before it left Oregon City.

"The time to act is now, so that we may have pure water and take no chances on another epidemic next Fall.

F. J. Toose, chairman of the pure water committee of the city, and B. T. McDain, chairman of the Lives Wire committee on pure water, explained that the engineer empore by the city has been working for some time, seeking new sources of supply and that be will have a report ready in a short time. Mr. McPain stated that the committee was looking forward to obtaining a permanent water supply that would be sufficient for the city's needs.

The civic improvement committee presented the following report

Friday evening, March & a joint meeting of the police and health committee of the council and the effic improvement committee of the Live Wires was held in the council chamher. It was decided that Oregon City could and should be cleaned by and that all legitimate means would be used in securing this result Pub-lic sentiment is already being aroused to the fact that epidemic iffness sure that no individual owner will long persist in refusing to remeda a menace to community health. The committee will hold joint meetings of each month. Mr. John Albright on the Wednesday following the 15th was elected to serve as chairman and Mr. F. A. Olmsted to serve as secre-
