MACKSBURG.

The week preceding Easter will be remembered as one of unusual weather variability. Rain, hail and snow, alternating with brief intervals of sunshine, were accompanied by chilling winds not often felt in this region. Through all the storm, however, the evenings, without exception, brought a rift in the clouds, revealing the wonderful beautiful evening star, the planet Venus, in its dazzling splendor, will shine as evening star, till past the middle of May, when it will rise in the morning, and will be morning star the rest of the year. Easter morning broke fair and lovely but not so to continue. There were high winds with flurries of hail, rain and snow. The day was observed in Macksburg in the Lutheran churches and also in the church of the Mennonites of South Macksburg. After church time a number of social gatherings took place. One of these was at the home of Mr. and Mrs. Geo. Walsh, Mr. and Mrs. Harvey Hilton, Mr. and Mrs. John Heppler, Mr. and Mrs. Jess Heppler, Mr. and Mrs. Will Roth, the Messrs. Abe and Glade Heppler, Miss Daisy Gage and Mr. Chas. Schutz. A most enjoyable dinner was furnished, prominent in which were the traditional Easter eggs. These were provided in most generous abundance, and partaken of with hearty appreciation. As all of the parents present were accompanied by their children, the party was a large and merry one. On Monday, March 17, a very pleasant surprise was tendered Mr. and Mrs. Eby, Sr., it being the anniversary of their wedding. A number of their neighbors came to congratulate them, and to spend the afternoon with them. Everyone present seemed to enjoy the occasion, not excepting the small children, quite a number of whom were present. The guests were Mrs. Wesley Eby, Mrs. Geo. Walsh, Mrs. Roberts and Mrs. Zimmer, Mr. Harry Sherwood, of the Eby school, with his wife, were also present. Poultry Fencing One Or Two Generations Ago Most Farm Animals Roamed At Large But We Have Gradually Found That This Did Not Pay The barn yard fowls have been the last to feel the effects of business methods on the farm but at last they have to get in their place (in the poultry yard) and stay there. The farmer who reads the magazines knows that today many a chicken farm of a few acres pays a bigger profit than a big farm did a few years ago. Every farmer keeps chickens because it pays and it will pay lots better and the farm will look better if they are kept in the poultry yard. They are about the most profitable animals on the farm and it takes less space and less expense to keep them. Enough of our poultry fencing to keep your fowls properly will cost very little and will be the best investment you ever made on the farm. Ask for prices. FRANK BUSCH Furniture and Hardware
