COUNCIL ORDERS MORE DRILLING

TEST WELL MAY BE SUNK 100 FEET MORE IN HOPES OF STRIKING WATER

ELEVATOR MATTER YET LEFT OPEN

Further Bids to be Sought, and Inclined Railway Plan Also to be Considered—Fire Chief Sees Danger. A tangle over the public elevator question, and another tangle over the test well being bored at Mt. Pleasant...

Fireworks on the elevator matter started when a Mr. Beckwith, who said he represented a hoisting machinery and equipment concern, offered to submit plans and specifications for running up the face of the bluff from Eighth to Seventh street.

The idea seemed to strike some of the councilmen favorably, and it was suggested that Mr. Beckwith be given time to submit his plans and specifications. Representatives of the other bidders wanted to know if they had a right to compete with elevator bids against the inclined railway.

The water matter came up next. Superintendent Scott, of the well drilling outfit, rose to make a report on the progress, but Councilman Tooze volunteered to lay the matter before the council for him, and Mr. Scott subsided.

Mr. Tooze, and other members of the council, were hopeful that water would be struck within the next 100 feet. Indications of a gravel vein have already been found, but the well at present ends in body of fine sand.

Mr. Holman was the chief opponent in the council of further drilling, but did not vote against the appropriation. Mr. Long favored spending \$500 more for drilling if chance of striking good water remained.

Up until the evening before election day, it was thought that "the hatchet had been buried" in Estacada and a quiet election would be the result, but it seems that the old spirit of contention was only sleeping. One only ticket was put up, which was supposed to be satisfactory to all, but election day told a different story. It seems that some very quiet work had been done and at the last minute Fred Jorg's name was placed on the ticket for Mayor, and Wm. Straight for Councilman.
