LOCAL BRIEFS

Miss Alice Downer, of Clairmont, was visiting Oregon City friends Monday.

Two Maclaren, of Wilhoit, was in the county seat visiting friends Sunday.

G. E. Graves, of Mulino, was in Oregon City the early part of the week.

G. E. Hault and wife, of Greenham, were visiting friends in this city Saturday.

W. S. Baily, of Molalla, made a business trip to the county seat Saturday.

C. W. Austen, of Molalla, made a business trip to the county seat Saturday.

Wm. Bjorklund, of Molalla, was a visitor in the county seat Wednesday.

Miss Mayfield, of Beaver Creek, made a trip to the county seat Wednesday.

W. M. Stone will deliver the main address at the 4th of July celebration at Sandy.

Miss Marie Ekel, of Woodburn, was in the county seat the latter part of the week.

Clarence Hescuit, of Mt. Pleasant, was in the county seat on business Tuesday.

James Walton, of Beaver Creek, was in the county seat on business Wednesday.

Miss Ethel Percival, of Monitor, is in Oregon City, taking teachers' examinations.

Miss Ada Hulbert is spending several days with Miss Lillie Miller of Toledo, Ore.

Special sale of fine millinery, commences Saturday, June 28. Johnston & Lindquist, Oregon City.

J. D. Renner and family started Thursday for an extended trip in the Eastern states.

L. E. Boffila, cashier of the Estacada State Bank, was a county seat visitor Saturday.

Frank Lischke, a prominent rancher of Milwaukie, was in Oregon City Monday morning.

Leonard Williams, of Gladstone, was in Oregon City visiting friends over the weekend.

Mrs. N. A. Bowers and daughter have returned from Clackamas after a two weeks' visit.

Wm. Jones, a prominent merchant of Beaver Creek, was in the county seat on business Tuesday.

Miss Agnes Harris, teacher in the Eastham school, will attend the state normal school at Monmouth this fall.

A. C. Beaulieu, who was hurt over a week ago in his blacksmith shop, was taken to his home Saturday afternoon from the hospital.

A party consisting of Mr. and Mrs. C. D. Latourette, Mrs. Driggs and Mrs. Lena (Charman) and daughter, will depart soon for Alaska.

Dr. H. M. Thomas, formerly a veter-

inary surgeon of this city, has removed to Joseph, Willamette county, where he has a large farm.

Miss Lamers, who has been teaching in Boring, is visiting relatives and friends in this city and is attending the institute at Gladstone.

P. F. Gore, of Texas, is in the city making this his headquarters while looking for a ranch upon which to make his home. Mr. Gore has settled Melvin Glass, the 12-year old son of Lyle Glass, of Parklake, fell from a cherry tree Friday and broke his left arm. Dr. Guy Mount was called to set the injured limb.

Clarence Palmer, a prominent prune grower of Vancouver, Wash., was in Oregon City Saturday visiting Attorney H. M. Brownell. They were classmates at Pacific University 15 years ago.

Howard Conover, an employee of the Willamette Paper & Pulp company, sustained fractures of the arms and ribs, and severe wounds on the head Saturday afternoon. He was removed to the Oregon City hospital.

MARRIAGE LICENSES

County Clerk Mulvey has issued marriage licenses to the following: Anna Thiel and Edward Harnock, of Aurora; Julia Harris and Grover G. Faulkner, of Oregon City; Florence Tamm and Charles Steele, of Portland; Martha L. Birkemais and Chester C. McLoughlin, of Milwaukie.

JUNE STOCK JOURNAL IS VALUABLE NUMBER

Of particular merit is the June number of the Western Stock Journal. Not only is the magazine filled with interesting articles relating to stock raising and the perfecting of special lines of farm and market animals, but there are as well a number of special articles of more than usual timeliness. One of these deals with the children's school fair—a new departure in state activity. Many illustrations add to the attractiveness of the publication, while between its covers will be found a mass of practical information which will be well worth study by all stock-raisers.

WILSONS CELEBRATE WEDDING ANNIVERSARY

WASHINGTON, D. C., June 24.—The President and Mrs. Wilson today celebrated their twenty-eighth wedding anniversary, with several relatives and intimate friends as their guests. They were married in Savannah, Ga., June 25, 1885. Before her marriage Mrs. Wilson was Miss Ellen Louise Axson. Her home was in Rome, Ga. The year of the Wilson-Axson union synchronized with Mr. Wilson's acceptance of a professorship at the Bryn Mawr college where, as ship at the wife's young educator. Mrs. Wilson attracted much attention by reason of her ready wit and agreeable manners.

SECOND TEST WELL IS DOWN 76 FEET

Drilling on the Englebrecht tract northeast of the city limits, under direction of the special water committee, has reached a depth of about 76 feet. For this distance the second test well has been sunk and encased with eight-inch pipe. No available supply of water has been reached as yet, but Chairman Toose, of the committee, declares that the outlook is promising.

The drill first bored its way through eight feet of earth. Sixteen feet of sand was then struck, after which the diamond-point cut its way through 26 feet of water-bearing gravel. The water in this stratum was of considerable volume, and forced its way to within 12 feet of the surface. Drilling then encountered hard blue clay, and the shaft has at present gone through 26 feet of this. It is believed that under this clay water will be found.

While the drilling is going on the committee in charge of the search for a pure water supply is also working on the franchise sought by the Lee interests, of Canby.

IT WILL BE QUICK WORK,

but thoroughly and honestly done though, when your vehicle is repaired in our shop. We're experts in that line. If your carriage or wagon is out of order and need repairing we'll overhaul it and put it in first class shape, on short notice, and lowest cost. We do all branches of the business, and can guarantee perfect satisfaction.

Guard Your Children Against Bowel Trouble

Many children at an early age become constipated, and frequently serious consequences result. Not being able to realize his own condition, a child's bowels should be constantly watched, and a gentle laxative given when necessary. Dr. Miles' Laxative Tablets are especially well adapted to women and children. The Sisters of Christian Charity, 531 Charles St., Luzerne, Pa., who attend many cases of sickness say of them:

"Some time ago we began using Dr. Miles' Laxative Tablets and find that we like them very much. Their action is excellent and we are grateful for having been made acquainted with them. We have had good results in every case and the Sisters are very much pleased."

The form and flavor of any medicine is very important, no matter who is to take it. The taste and appearance are especially important when children are concerned. All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection.

The rich chocolate flavor and absence of other taste, make Dr. Miles' Laxative Tablets the ideal remedy for children.

If the first box fails to benefit, the price is returned. Ask your druggist. A box of 25 doses costs only 25 cents. Never sold in bulk.

All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection.

COOK'S RECORDS ARE NOT FOUND

FAIRBANKS, Alaska, June 20.—The ascent of the highest peak of Mount McKinley was accomplished successfully for the first time June 7, when the party led by Archdeacon Hudson Stuck, Episcopal Missionary for Alaska, accompanied by Robert G. Tatum, Harry P. Karstens and Walter Harper, reached the top of the south peak of the mountain, the highest on the continent.

News of the success of the expedition was received today by a messenger sent by Dr. Stuck, who is resting at the Base Camp.

No mention of finding the brass box Dr. Cook said he left on the peak was made.

YALE DEFEATED BY OLD ENEMY

NEW LONDON, Conn., June 20.—For the sixth time in six consecutive years Harvard's eight-oared varsity crew triumphed over the Yale oarsmen in the four-mile race that closed the annual inter-university regatta here this afternoon. Preceded by the two Crimson victories of the forenoon and the two won on Thursday, it completed a Harvard sweep that has been equaled only once or twice in the long history of Yale-Harvard rowing.

The final defeat administered to Yale was so crushing that the English stroke and rowing methods imported from Oxford are being ridiculed tonight in a manner which many veteran oarsmen think unjust.

OREGON SOLONS SPLIT ON TARIFF

WASHINGTON, June 25.—Oregon's senators divided in caucus this afternoon when the vote was taken on wool and sugar schedules. Senator Lane voting to sustain President Wilson in his advocacy of free wool and free sugar while Senator Chamberlain voted for a duty on wool as well as for a duty on sugar. Prior to registering his vote, Senator Lane addressed the caucus briefly, urging democrats to show no favoritism to any industry and urging them to make the greatest reductions on the products of manufacturers or producers who have been watering their stock, who have been employing foreigners to force down the price of labor and who have fixed arbitrary and exorbitant prices for consumers.

TEST WELL WATER PROBED FOR GERMS

Bacteriological tests will be made of water struck at the 50-foot level in the test well drilled on the Englebrecht place, northeast of the city at the orders of the special water committee of the council. At this level a flow of from 150 to 250 gallons a minute was struck, according to Chairman Toose, of the committee; and the water gives every indication of being good.

The well has been sunk to a total depth of 143 feet, but below the 50 foot level nothing but blue clay and brown shale was struck. Further drilling has been stopped. The water, which rises of its own accord to within 12 feet of the top of the well, springs from a vein of water-bearing gravel that underlies two layers of coarse and fine sand, which in turn are covered by eight feet of earth.

Mr. Toose says the committee is also working steadily upon the Lee franchise for obtaining water from the Canby wells, and will report to the council on this matter in the near future.

CHICHESTER'S PILLS

DIAMOND BRAND

Beware of Counterfeits. Refuse all Substitutes.

LADIES! Ask your Druggist for CHICHESTER'S PILLS. They are the only pills that are so gentle and so effective. They are the only pills that are so easy to take and so sure to cure. They are the only pills that are so well known and so highly recommended. They are the only pills that are so cheap and so reliable. They are the only pills that are so good and so true.

TEACHERS ENJOYING SUMMER CLASSES

Teachers at the county summer school, now being held at Gladstone park, declare that they would not go back to the former system of "institutes" for the world. Many of them have gone to County Superintendent T. J. Gary and assured him that not only are they able to get a great deal more good from the classwork at the summer school, but that the intermingling of recreation and study is making it possible for them to assimilate a great deal more useful training.

The first of the big features in the sex hygiene course will be held Saturday afternoon, when Dr. Williamson of Reed College, will deliver the first of the series of lectures on this subject. The county school authorities extend a cordial invitation to the general public to be present at these lectures, as they are for the benefit of all interested, as well as for the teachers.

About 60 of the county instructors have now settled down to regular camp life at the summer school, and are having a great time. It is believed that about 49 more will join the group next week, attendance at the state examinations having kept many away at the start. The open-air tent life has been greatly enjoyed by all, and the service in the co-operative restaurant—which is a part of the practical domestic science training—has been declared all that could be desired.

For recreation the teachers have divided themselves into two groups, and nightly these groups alternate in entertaining each other. When the weather has been rainy the school-ma'ams have met in the W. C. T. U. auditorium for extemporaneous programs. Friday afternoon there was a baseball game between teams from the different districts. The game was a "co-ed" affair, and many of the women teachers showed a surprising ability in the contest. As soon as the weather clears up, it is planned to start a tennis tournament.

ADDITION NEEDED AT BARCLAY SCHOOL

Within a few days a call for a special meeting of the taxpayers of the Oregon City school district will be made for the purpose of authorizing a special tax levy to cover the cost of the construction of a 2-room addition to the Barclay school building. The meeting will probably be held Monday evening, July 7, at the courthouse.

Increase in the number of pupils of the Oregon City public schools makes it advisable, if not altogether necessary, to construct an addition to the Barclay building, and the board of education will ask the people of the district to authorize a special tax levy for the purpose of covering the cost of construction. The expense is roughly estimated at \$3,000, which would include a heating system to care for the addition as the present heating system at the Barclay building is no more than adequate to heat the main structure.

For many years the overflow of grade pupils from the Barclay and Eastham buildings has been placed in a make-shift room in the gymnasium on the Barclay grounds, but the gymnasium is out of repair and considerable expense would have to be incurred in placing the old structure in anything like first class condition, and then, at best, it would be no more than a temporary affair, never having been designed nor intended for use as a school building.

About five years ago a 4-room addition was added to the Eastham building, and it was thought this would care for the grades for many years, but the increase has exceeded the expectations of the directors who are now right up against the problem of providing adequate and suitable quarters for the grade pupils. If the authorities would attempt to send pupils from the down town sections to the Eastham building, located near the head of the Seventh street hill, there would probably be a righteous howl of indignation.

The members of the board of education spent nearly four hours Sunday morning in the driving rain making an inspection of the three school buildings to determine what repairs will have to be made during the summer vacation. They found most of the repairs needed to be of a minor character, entailing little expense, except the new toilets that are to be installed at both the Eastham and Barclay buildings.

The board of directors Tuesday night elected Mrs. Florence R. Brewer, of Vancouver, Wash., a teacher in the primary grades. Her election completes the corps of grade teachers, leaving vacant only the position of instructor in languages at the high school.

Your Money Back If Not Satisfied

DRASTIC CHANGE PLANNED AT UNIVERSITY, COLLEGE

Drastic and far-reaching changes in the courses and arrangement of study at the University of Oregon and the Oregon Agricultural college are planned by the board of higher curricula, of which J. E. Hedges, of this city is secretary, and a meeting of the board at which this matter will be taken up has been called for Monday, August 25, to be held in Portland Academy building, Portland, at one in the afternoon.

Notice of this meeting was sent out today by the secretary, and provides for consideration of the following proposition:

1.—To eliminate from the University of Oregon and to assign to the Oregon Agricultural college the department of Electric Engineering, Chemical Engineering and Civil Engineering, conditioned on the Oregon Agricultural College's requiring a full four year's high school course, or its equivalent, as a preparation for entrance for degrees in all engineering courses.

To eliminate from Oregon Agricultural College and assign to the University of Oregon the departments of:

(a) Fine arts, including architecture and music.

(b) Economics.

(c) Commerce, higher.

(d) Education.

(e) The graduate school.

Determination to consider these changes was reached at a meeting of the board held in Portland June 18, at which there were present J. R. Wilcox, chairman, J. E. Hedges, secretary, J. C. Smith and A. G. Beale. It was the feeling of the members that since the board had been organized to do away with duplication of studies

at the two institutions, and to make as far as possible, each school complete in its special sphere, that it would be better to segregate the different studies not only so that there should be no duplication, but also that there might be at each institution only students working along the same general lines.

At present there is a civil engineering course maintained at each school. Not only is this unnecessary duplication, but it is felt that the several lines of engineering ought to be brought to one institution, so that better laboratory facilities might be had, and so that the expense of the different courses might be shared wherever work common to two or more of them is to be taken up. There is much equipment in the engineering courses, of instance, that can be utilized in civil, electrical and chemical study.

The plan of segregation, it is believed, will not only make the two schools more distinctive in the line of work that they will be doing, but will probably be the means of saving the state university from abolishment by the vote of people who apparently do not understand the necessity for the two institutions. The board of higher curricula is not a unit in favor of the change, it is said; but it is believed that after discussion of the plan it had the change will be adopted. If it is adopted it will be made say at the end of three years, so that students in the courses at the two institutions now will not have to be changed. No new students will be accepted at either institution, however. In the courses which it may be determined to transfer to the other school.

RUNAWAY CAUSES JOY FOR KIDDIES

Seventh street was made a regular strawberry patch Friday morning when a team belonging to B. A. Anderson, of Maple Lane, hauling a load of the luscious fruit to market, became frightened at a passing automobile and started down the steep hill on the upper part of the thoroughfare at breakneck speed. The light wagon behind them swayed from side to side, and at each lurch it spilled strawberries to right and left.

Near the base of the hill the team was stopped. When Mr. Anderson viewed the nice surfacing of strawberries on the street behind him, he concluded to try to pick the fruit up, and continued on into town with the balance of unspilled supplies. Small boys and young misses of the neighborhood soon gathered at the scene, however, and enjoyed themselves thoroughly in the wake of the runaway.
