

The murder mystery of Miss Alice Crispell, the attractive eighteen-year old girl, whose body was found in Harvey's lake, near Wilkesbarre, Pa., aftet a Fourth of July outing with her lover, Herbert Johns, bid fair to be diffi cuit to soire. Johns was held, but dealed that he had caused the gir's death He had been courting her for two years, but she had had other admirers. They spent the entire day at the lake on the Fourth, and Johns claimed he left the girl about 11 p. m. to go home. He was afraid to accompany her to her house because he was not in the good graces of the girl's father. Evi dence showed that the girl was wayward and had given her father a lot of unity. The victim is here shown with Johns, and the beathouse near which the body was found is also shown

Begin Children's Education Early

By ABBOTT LAWRENCE LOWELL, President of Harvard University

BEGIN THE EDUCATION OF YOUR CHILDREN AT AN EARLY AGE. LET THEM ENTER COLLEGE AS SOON AS POSSIBLE. PERMIT THEM TO GATHER AS MUCH GENERAL KNOWLEDGE AS THEY CAN BETWEEN THE AGES OF THREE AND FIFTEEN, SO the recall election. THAT THEY MAY BEGIN THEIR VOCATIONAL EDUCATION BEFORE THEY ARE TOO OLD.

The history of the United States is a history of frontiers. In the frontier days every man had to be a jack of all trades, able to do all kinds of work. THERE WERE NO SPECIALISTS.

Now the United States is no longer a land of frontiers, and it becomes necessary that every man undergo a vocational education, a TRAINING FOR A LIFE WORK. Instead of a boy being educated to everything he must now be EDUCATED IN A SPECIALTY, be it JUSTICE SIEVERS RULES EXTRAmedicine, surgery, law, engineering or blacksmithing.

The fault of the parents of today is that they DO NOT SEND THEIR CHILDREN TO SCHOOL EARLY ENOUGH. To be a great specialist one must also have a general knowledge, but a general knowledge without a specialty will practically condemn a man to ob- GOVERNOR'S PET LAW DISREGARDED

Neglect of European Forests a Lesson For Us

By T. S. WOOLSEY, Representative of the United States Forestry Bureau at International Forestry Congress

N the French Alps there is a lesson in conservation for America. The government had to spend millions in repairing the damage from FLOODS AND LANDSLIDES CAUSED BY EXCESSIVE CUT-TING OF TIMBER. We shall avoid that in the west because we have established national forests in time, and the southern Appalachian commission is now at work selecting land for the purposes of forestration to avoid this very thing.

An example of exactly of the opposite kind is found, however, in the Landes, a district in the south of France, where for a hundred years millions of acres of WORTHLESS SAND COVERED LAND HAS BEEN STOCKED WITH SEA PINE AND CONVERTED INTO VALUABLE FORESTS.

Our Appalachian commission is taking up at a much earlier stage the same problem that cost France so dear in the Alps. Fortunately nothing like the same amount of damage has yet been done.

PARTS OF THE UNITED STATES ARE ALREADY RUINED THROUGH THE WASTING OF FOREST RESOURCES INSTEAD OF CONSERVING THEM, ESPECIALLY IN THE SOUTHERN MOUNTAINS. WHERE TIMBER DENUDATION HAS RESULTED IN FLOODS CAUS-ING EROSION AND DAMAGE TO WATER POWER AND FARM LANDS LYING BELOW THE FOREST REGION.

Many of our winter floods and summer droughts are also due to forest destruction. The forests absorb the water like sponges and give it out gradually without the erosion and the consequent spreading of sediment so ruinous to agricultural land.

REGISTRATION'S

THREE EXTRA DEPUTIES NOW BUSY ACCOMODATING VOTERS AT BOOKS

FRIDAY AFTERNOON IS LAST CHANCE

Majority of Citizens Make No Secret of Fact That They Are Opposed to Recall of Two County Off clais

So great has been the rush of registration in County Clerk Mulvey's office that a third extra deputy has been put on to handle the voters who desire to get their names upon the county books before Friday afternoon at five, when registration for the recall election will cease. A great ma-jority of those who have registered declare openly that they are going to vote for the retention of County Judgs R. B. Beatle and County Com-missioner-Illair, who are named in

the recall petitions.

Among those in te city Wednesday. to sign the rolls were J. W. Watts, of Logan, and Eugene Cummins, the owner of a sawmill at Clarks. Mr. Watts said that he had been some-what inclined to believe the charges preferred against the county court by the small political ring that is back-ing the recall, but that after a thorough investigation of the complaints he believed them groundless, and was desirous of registering so he could support the present county adminis-

fer owner, said that an appeal had been made to him to favor the recall because of the county cruise. As far as his property was concerned, he sald, the county craise had been most accurate, the descriptions had been good, and white a considerable increase in the valuation had been shown, he was more than ready to pay his share of the taxes assessed thereon. He added that he had no fault to find with the manner in which the county business was connow registering for the first time are also readily declaring their intention of supporting the present administra-

Public opinion can be pretty close guaged by the voters who register, wing to the fact that many of them sunderstand the question asked as to their "political preference," and thinking only of the recall election they answer that they are for or against the recall. The great majority who have thus answered off hand say they oppose the recall idea.

Thursday evening wil be the last evening for night registration. The county clerk's office will be open un-til eight for voters to sign the rolls, but Friday, the last gay for registration, the office will close at five

County Clerk Mulvey Wednesday received a written opinion from At-torney General Crawford, saying that voters who had registered for the November, 1912, election, need not register again to be able to vote in

PROFANITY NOT

ORDINARY LANGUAGE GOOD AT WILHOIT

Trial of Alvin Wyland Provides Com edy Relief to Seriousness of Court Sessions-Defendant is Freed

The use of profane language at Wilhoit Springs is not a misdemeanor, Such was the decision of Justice Sievers Wednesday in the case of the State of Oregon against Alvin Wyland accused of "using profane and bols-terous language at a public watering resort," as prohibited in a measure passed at the last session of the legislature. The trial was replete with many features that were quite as out-of-the-ordinary as the decision that ended it, and spectators enjoyed the session of the court as much as they would have enjoyed a vaudeville per

It appeared from the evidence that the complaining witness, a school-teacher, and a 16-year-old girl were at Withoit at the same time, and that the girl's relatives, one of whom was the defendant, desired her to accompany them home. The girl refused, and Wyland was said to have grasped her by the nape of the neck and forci-bly taken her to the carriage which was to carry her home, saying at the same time: "By God, you will go." For that the school teacher concerned in the case swore to the complaint.

George Brownell appeared for the defense, and Deputy District Attorney defense, and Deputy District Attorney Livy Stipp conducted the prosecution for the state. The witnesses called were somewhat in doubt as to wheth-er the defendant bad used the name of the Diety in vain, or whether he had just said "by gosh." They admit-ted, however, that profane language was not unusual at the resort. Bear-ing this in mind, the court ruled that the use of such language at Wilholt

ing this in mind, the court ruled that the use of such language at Wilhoit Springs was not a violation of the law, and dismissed the charge.

In arguing for the prosecution, Mr. Stipp told the court that the violation charged came under the law that Governor West and Representative Schuebel of this city had taken such provide in assuing and getting upon the pride in passing and getting upon the statute books, and said that aside from the duty of the court in the mat-ter, he felt sure that both the gover-nor and Mr. Schuebel would like to see a conviction under their particlar

statute.

Mr. Brownell pleading for the defense, admitted that such might be true, and added that he knew Mr. Schuebel was a nice man. "I don't believe he would use profane language," said Mr. Brownell. "I don't think I have ever heard him swear. I think he is very temperate in his language, but I can't say that I would always believe all he said. I think all the Schuebels are nice men, and I don't believe any of them are ever profane."

The case not being tried before a lighty, the court seemed to take Mr. Brownell's view of it, and gave the defendant his freedom.

He died with the tune in his ears, and his wife went mad with the shock of defendant his freedom.

FRUIT TRADE BUSY WITH PRICES HICH

Yellow peaches are arriving from Columbia river orchards, and are competing with local growth fruit, both of which varieties are selling at a dollar a box, wholesale. The local fruit has a shade the best of it in flavor. Indications are that valley peaches will soon fill the market, and that the price will drop considerably.

Imported apricots from out-state points are being offered at \$1.25 a crate, and sometimes les; but the fruit has not keeping quality. Later in the week it is expected that there will be offerings of apricots from the neighborhood about Canby, and this fruit is said to be ripening well and to give all indications of being well up to standpard. The Canby fruit is apt to be higher in price than the outside stuff.

The berry market is showing but little change. Blackberries, raspher-ries and some late logans are general-

Early Malaga grapes from the south are also being offered at \$2.50 per crate, but are not fully ripened yet.

The vegetable market is showing practically no change, save that of-ferings are slightly cheaper. Green peas are hardening, and late offerings are not up to standard.

Maximilian and "La Paloma." Whenever that baunting air, "La Pa lonis," is played the memory of the Emperor Maximilian, shot by the Mex icaus on June 19, 1867, should be preserved. Maximilian's final request wa that "La l'aloua" should be played while he stood up to meet his doom

Freiherr von Eiselsberg

Freiherr von Eiselsberg, who is generally regarded as the leading surgeon of Europe, was born at Steinhaus, Austria, July 31, 1860, and received his education at the universities of Zurich and Vienna. After fillis of Zurich and Vienna. After filling professorships at Utrecht and Koenigsberg he became, in 1961, a lecturer on surgery at the University of Vienna. He is the head of what is known as the Billroth Clinic, which was founded by Dr. Billroth, the "father of pathology." During Dr. Billroth's lifetime he was his first assistant, and when he died he succeeded him. Several years ago Dr. von Eiselsberg made a tour of America. ly being offered at between a dollar and \$1.25 per crats, depending on grade, and are moving steadily though not with speed.

Sistant, and when he died he succeeded him. Several years ago Dr. von Eiselsberg made a tour of America, visiting many hospitals and medical schools and lecturing before members of the medical profession.

> It was in Egypt in all probability that the condition we call civilization had its rise at a time when the very ides of writing was unknown to other nations. An attempt is now being made to show that the idea of the settled and more or less orderly and peaceful social state to which we give the name of civilization came from Chaldes or Babylonis, when that sort of thing existed long before it was brought to Egypt. But not as yet is the theory clearly proved, though its advocates are making some pretty atrong points in its favor. So far, however, the land of Egypt holds the title.

-New York American.

EGGS CONTINUING SCARCE LOCALLY

Persistence of poultrym n in selfing eggs direct to consumers is keep-ing the retail trade pretty well de. CITY GETS MOST FAVORABLE moralized, and while this particular TERMS FROM PORTLAND product is quoted at 30 cents selling and 28 cents buying, there are many local stores where no eggs are to be had. Portland is also reporting difficulty with its egg market, and practi-cally nothing but case eggs are being

Local peaches, fogether with fruit from other parts of Oregon, still Power Firm Agrees to All Terms Procontinues to glut the market, owing to their poor condition. Buyers who were at first tempted by the state fruit, and who found it rotting on their hands, are now refusing to touch the supply, and as a result the market is running all the way from \$1.20 down to two-bits a box.

In sharp contract to Oregon peaches are the Yakima apricots being offered, which are selling readily at a dola crate, and which keep well and have a fine flavor, "Peach plums" from California and Washington are also showing wall in the trade.

Butter beans have udded their tastiiess to the green vegetable offerings, and are selling at two pounds for 15 cents. They are perhaps the best of the present greenstuffs, not having been effected by sunburn, as have green peas and string beans.

GENERAL PRODUCE

cents. Poultrymen who have supplies are selling largely to consumers direct, and so making an extra two cents a dozen. Dealers are complaining of this, but there seems no way are to be placed by the company exto remedy matters.

Loganberries at a dollar a crate are plentiful again, and there is considerable trade in them for home canning. Raspberries of late crop are also on the power company, and must be re the market at the same price.

Apricots are leading peaches in sales, and are finding ready buyers at from \$1 per crate up to \$1.25. of the best stock comes from outside the state. Psaches confinue poor, so poor in fact that a shipment received at Portland Friday from The Dalles was condemned. Cantaloupes continue in good quan-

tity and quality, but there is but lit-

tle stirring with watermelons. Some grapes are in the market, but are not

selling well. Some grapes are being offered as low as 40 cents a crate, wholesale, but buyers are chary, as the fruit will not keep. Green vegetables are holding plentiful and are reasonable in prices. Cooler weather is improving the qual-

general sales of logans and raspber-ries. Crate prices are now from 75

Butter is now quoted locally at 40 cents a pound, retail, or 75 cents a roll. This advance on the smaller quantities was forecasted earlier in the week, and follows action by the creameries, who declare that they need cream to supply the leaders. demand.

price, offerings being for the most part bletted or spoiled from faculty

MARKET EASY; EGGS ALONE STAY HIGH

Eggs continue to hold their price in the retail markets, and are still quoted at 30 cents a dozen, with buying at 27 and 28 cents. The scarcity of the past week has subsided somewhat, and poultrymen, as a result, are hav-ing less of a field for direct selling to consumers. Forecast of a further advance in price is made in some quarters, it being said that receipts will grow less and less as summer vances.

Berries of all kinds are ranging from a dollar to \$1.25 per crate, but are not moving rapidly, with the ex-ception of blackberries, which are in good shape. Late raspberries show a tendency to be soft.

LONG WAR WON

TERMS FROM PORTLAND RAILWAY COMPANY

EIGHTH FRANCHISE IS ACCEPTED

posed by Community in Fight Which Has Lasted Over Two Years

The city of Gladstope won a two years' fight with the Portland Railway, Light & Fower company Thursday, when officin's of the big concern accepted the eighth franchise which has been proposed in a long drawn cut discussion between the community and the company, and the Gladston; council passed the measure to second reading. The franchise is considered most favorable to the city. and secures for Gladstone many privi ileges that even Portland has not ob-tained. The franchiss deals solely with the light and power branches of the service of the company.

Provisions of the franchise specify that all poles used by the company are to be set 12 inches inside the curb line, and that the city is to have the right to string two wires for municipal use upon al pole lines, company must accept a common provision, and permit and telephone or telegraph company to use its or telegraph company to use its poles; it being the object of the city to prevent the erection of more than one pole line on each street. A map of Gladstone, with the location of all poles marked thereon, is to be kept in the city recorder's office, and no poles cept upon the permission of the coun-

It is also provided that all po-must be of a uniform length of fest, must be painted dark green by painted by the company whenever dered by the Gladstone council. wires must be les than 20 fest above the street grade.

In regard to service the franchise provides that the company must make all extensions requiring but one addi-tional pole free of charge and service must be given to any consumer within 60 days from the date of application provided the consumer's premises are already wired for the service desired. Where more than one pole is needed for an extension of service to a confor an extension of service to a con-sumer, the company must stand half the cost, and the consumer must guar-antee the company half of the rev-enue for one year. It is specifically set forth in the franchise that the rates for service in Gadstone must never exceed the rates charged for similar service in Portland.
