

Woman's World

Pretty Girl Appointed Game Warden.

MISS NORMA FREDERIC GIBONEY.

"I have already made two arrests for game violations. I had no trouble with the prisoners. I carried a revolver and a shotgun, and the pothunters knew that I could use either of them."

Which announcement goes to show that Miss Norma Frederic Giboney didn't become game warden merely to wear a bright badge. Miss Giboney was appointed warden recently by Governor Emmet O'Neal of Alabama. She probably is the only woman in the United States with this sort of commission.

When the news of her appointment was made public the pothunters in their huts along the Mobile bay marshes thought it a good joke.

"She's one of these society women," they laughed. "She never would come out on a rainy day for fear of getting her feet wet. On with the killing."

They were fully convinced of their mistake when the handsome warden came upon two of their number slaughtering ducks and marched them in with one hand resting significantly on the back butt of the revolver at her hip.

Miss Giboney's home is Aloba. It stands among acres of forest and foliage. Mobile bay stretches away to the east, and at the back is the Dog river. She is a deadly shot with a rifle and can bring down the mallards from behind a blind with the best shots in Mobile. It was her love for animals and not the passion for hunting that led her to become one of the Alabama game police.

"It is the birds that I particularly want to protect," said Miss Giboney recently when speaking about her work. "We seldom realize how much good they do. If they didn't prey constantly on the insects we would be without vegetation before very long. I am familiar with every bird of Alabama. Ten years ago you could see flocks of beautiful blue cranes in the edge of the water out there. Now they are rarities."

"I have recently fitted out a log cabin in the midst of ten acres of forest that is just as nature made it. I intend to spend the rest of my life there."

Miss Giboney is well known over the entire south. She is a frequent visitor to New Orleans. She is a descendant of Zack Taylor, Patrick Henry and the Virginia Sultans. She is prominent in society. From now on she won't see much of receptions and pink teas.

Concerning Women.

Mrs. Elsie Clews Parsons of New York has written a book which she calls "The Old Fashioned Woman." Mayor Gaynor, who generally is credited with saying what he thinks, declared that it is a most interesting book, but suggests that the title might be changed to "Primitive Fancies About the Sex."

Mrs. Metcalf resides at the station at Sackett Harbor, on Lake Ontario, and looks after the buildings, which are old and worn, for \$1 a day. She is therefore the only woman "com-mandant" in the United States and was present when the monument to commemorate the victory in the war of 1812 was dedicated recently.

Mrs. Elizabeth C. Berdan in "Reminiscences of a Diplomat's Wife," by Mrs. Hugh Fraser, is described as a former friend of the grandchildren of Queen Victoria. Upon one occasion one of the princesses gave her a ring and excused the fact that it was not a more expensive one by the remark "But, you know, Granny Vic is so stingy."

Mrs. Snela Root Rhodes, librarian of the League of American Penwomen, is a member of the school board of Washington and has been chosen by the commissioners to represent the District of Columbia at the International congress of school hygiene to be held in Buffalo the last week in August. She is one of the editors of a cookbook now in the press.

VACATIONISTS RETURN

Mr. and Mrs. C. T. Toose and daughter, Miss Hazel, returned Saturday from a trip to Cloud Cap Inn. They also visited Mrs. John Cooper, formerly Miss Helen Toomey of this city, at Parkdale. The party had great fun snowballing and learning the art of walking on skis.

Good Advice.

Saengerfest at Dubuque.

DUBUQUE, Ia., Aug. 6.—German singing societies of the Mississippi valley assembled here in force today for the opening of their annual saengerfest. Among the cities represented are Des Moines, LaCrosse, Freeport, Rock Island, Cedar Rapids, Burlington, Chicago, Muscatine and Sioux City.

Coast Athletic Meet

VICTORIA, B. C., Aug. 6.—Never before has an athletic meet in this section brought together such classy athletes as those who rounded up at Oak Bay park today to compete in the International track and field championships of the Pacific coast. Included among the entrants were star performers from San Francisco, Los Angeles, Portland, Seattle, Spokane and the larger cities of British Columbia.

One Way to Have Lace.

Benjamin Franklin was a wit as well as a philosopher. His daughter once wrote him to send her from Paris some lace and feathers, which extravagance on her part, he says, "disgusted me as much as if you had put salt into my strawberries." And he adds: "As you say you should have great pride in wearing anything I send and showing it as your father's taste." I must avoid the opportunity of doing that with either lace or feathers. If you wear your cannie ruffles as I do and take care not to mend the holes, they will come in time to be lace; and feathers, my dear girl, may be had in America from every cock's tail."

KIDDIES PLEAD FOR NEW SCHOOL

YOUNGSTERS FROM HARMONY SHOWN AS "EVIDENCE" AT HEARING

OPONENTS SCENT REALTY PLOT

County District Board Has All-Day Session—Two New Divisions—Boundary Lines Are Changed

The old Roman fable of "Cornelia's jewels" was brought up-to-date Tuesday at a meeting of the county board of school district boundaries, when patrons of Harmony school district argued the pros and cons of dividing the district and creating a new one.

Those in favor of having a new district created marshaled together somewhat over a score of children from the section that desires to become a district all by itself and trooped before the three members of the county court and County School Superintendent T. J. Gary, who compose the membership of the board.

The board was invited to look the youngsters over, and then to refuse to create a special school district for them if it could find the heart. The youngsters seemed to enjoy being on display, and looked their prettiest and most appealing. The chances are that they might have won the day if the opposition to district division had not presented some arguments of a far less innocent nature. At it was the board took the matter under advisement.

Those opposed to the division of the district say that the only reason people at the northern end of the district want to be placed in a division by themselves is so that they can build a fine schoolhouse, and then use the schoolhouse as an incentive to city folk to come out and buy acre-tracts.

In discussing the petition one of those opposed to it said that a fine looking schoolhouse was a great incentive to the city man who had the "back-to-the-farm" idea in his head; but denied that it would be advisable for the county board to grant the petition so that the people in half of the district could sell out to city people.

Those favoring the division, and who exhibited the children as one of their arguments, denied vehemently that they had any idea of selling out of those lands, said Mr. Rameses last night. "In the first place, the property still is in litigation, as the railroad has appealed the case. So no locations can be made until the government finally gets title to the lands."

MEDICAL CONGRESS MEETS AT LONDON

LONDON, Aug. 6.—Seven thousand eminent physicians and surgeons, representing the allied professions of medicine and surgery in Europe, America and the parts of the world, were present today at the formal opening of the seventeenth meeting of the International Congress of Medicine.

The opening took place in Albert Hall, where the delegates assembled to listen to an address of greeting by the Duke of Connaught, Sir Thomas Barlow, president of the congress, occupied the chair. Among those grouped about the president on the platform were a number of noted physicians and educators of the United States and Canada.

The congress will continue its sessions six days. For purposes of discussion and clinical demonstrations it will be divided into numerous sections, each of which will take up a separate branch of medical science. The programme is remarkable in its range and comprehensiveness, and it deals with many matters that have a bearing as well as merely professional interest. Especial attention is to be given to diseases of children. Radiology also will be a leading subject of discussion.

Col. Gorgas and other American service doctors will be especially prominent in the section devoted to naval and military medicine. Col. Gorgas will preside on the congress on "Sanitary conditions in the Tropics" on which subject he is regarded as one of the foremost authorities in the world.

INDIANAPOLIS, Ind., Aug. 6.—The imperial council of the Ancient Egyptian Order of Nobles of the Mystic Shrine, the membership of which is made up of Negro Masons, began its fifteenth annual meeting in this city today. The Daughters of Isis, which is the women's branch of the order, is also in annual session here.

CAUSE OF COMMON GOOD IS TOPIC OF CONFERENCE

COLUMBIA, S. C., Aug. 6.—With delegates in attendance from all over South Carolina, there was begun in this city today a "conference for the common good," the conference being the first of its kind ever held in this section. The proceedings began this afternoon with a discussion of the subject of co-operation in rural development.

Other subjects to be taken up by the conference during its two days' sessions are the public health, compulsory education, women's club work, the home and the church, and the methods of fostering a community spirit. Bankers, merchants, educators, farmers and men and women of the various professions are included in the attendance at the conference. Heading the list of speakers from outside the state is Dr. P. B. Claxton, United States commissioner of education.

BLUE AND DISCOURAGED

Mrs. Hamilton Tells How She Finally Found Health in Lydia E. Pinkham's Vegetable Compound.

Warren, Ind.—"I was bothered terribly with female weakness. I had pains and was not regular. My head ached all the time, I had bearing down pains and my back hurt me the biggest part of the time. I was dizzy and had weak feelings when I would stoop over, it hurt me to walk any distance and I felt blue and discouraged."

"I began taking Lydia E. Pinkham's Vegetable Compound and am now in good health. If it had not been for that medicine I would have been in my grave a long time ago."—Mrs. ANNA HAMILTON, R. F. D. No. 6, Warren, Ind.

Another Case. Esmond, R. I.—"I write to tell you how much good your medicine has done me and to let other women know that there is help for them. I suffered with bearing down pains, headache, was irregular and felt blue and depressed all the time. I took Lydia E. Pinkham's Vegetable Compound and commenced to gain in a short time and I am a well woman today. I am on my feet from early morning until late at night running a boarding house and do all my own work. I hope that many suffering women will try your medicine. It makes happier wives and mothers."—Mrs. ANNA HANSEN, Esmond, Rhode Island.

LOCATORS FACE PROSECUTION

FEDERAL GOVERNMENT WILL TAKE ACTION IN OREGON & CALIFORNIA GRANT

LOCAL "HOMESTEADS" EFFECTED

Promoters Who Have Contracted to Place Settlers on Railroad Land to Feel Power of Uncle Sam's Anger

Prosecutions of persons engaged in the illegal practice of "locating" settlers on Oregon & California land grant claims will be started at once by Clarence L. Reames, United States District Attorney in Portland.

"There is no legitimate reason for anyone selling locations on any of these lands," said Mr. Reames last night. "In the first place, the property still is in litigation, as the railroad has appealed the case. So no locations can be made until the government finally gets title to the lands."

"Congress may prescribe any one of a number of methods for opening the property. It may resort to the lottery system. It is probable that much of the property will be turned over to the forestry bureau, as many acres are forested."

Much of the disputed land lies in Clackamas county.

PHILADELPHIA, Pa., Aug. 5.—The forty-third annual national convention of the Catholic Total Abstinence Union of America began today, when 1,000 delegates, many of whom have been in the city several days, engaged in committee work in connection with the convention, assembled in the Catholic Boys' High school for the formal opening exercises. The delegates are headed by the Very Rev. Peter J. O'Callaghan of Chicago as president, while leading lights of the Roman Catholic church throughout the country are included in the list of those who are to participate in the deliberations.

Ohio's "Blue Sky" Law

COLUMBUS, Ohio, Aug. 1.—The Greenwald liquor license law signed by Gov. Cox to become effective today controls the sale of liquor in this state. Besides providing strict regulations of the liquor business, the law by reason of its constitutional requirements, limiting saloons to one for each 5,000 population, puts at least 2,000 saloons in the state out of business.

Maine Town Celebrates

MACHIAS, Me., Aug. 5.—A three days' celebration of the 150th anniversary of the founding of Machias was ushered in this afternoon with a marvelous outdoor pageant illustrating notable events in the history of the town and its vicinity. Among the events depicted were the visit of the French Governor La Tour in 1633 to the Indian trading post, Taylor's visit to Machias, and the first naval battle of the Revolutionary war, when the American ship Unity captured the British brig Margaretta.

KNIGHTS OF COLUMBUS OPEN NATIONAL MEET

BOSTON, Mass., Aug. 5.—Preceded by a pontifical high mass celebrated in the Cathedral of the Holy Cross, the annual national convention of the Knights of Columbus was opened here today. Hundreds of delegates and visitors from all parts of the United States and Canada were in attendance. The convention entered upon its business session this afternoon.

One of the most interesting matters to be taken up by the convention is the question of making a thorough investigation into conflicting claims about the proposed resting place of the remains of Christopher Columbus. The proposal is to be introduced by delegates from Washington, D. C., acting on the suggestion of Senator Russell, of Louisiana, who is of the belief that the remains of Columbus never were removed to Spain, as is the common supposition, but that they still rest in the cathedral at Santo Domingo.

ATTEMPT MADE TO FREE RIOTER

SHERIFF'S OFFICE HEARS OF SCHEME TO GET ILES OUT OF PRISON

MASS TELEGRAPHS WARRANT AHEAD

Success of State's Case May Depend Largely Upon Return of Prisoner Here—Fourteen Others Indicted

Word was received at the sheriff's office Monday that efforts were being made in Dallas, Tex., to get "Blackie" Iles, the alleged ringleader of the riot in the course of the telephone strike at Oswego, released from custody on habeas corpus proceedings. Iles was picked up by the Texas authorities, and is being held there for the arrival of Sheriff E. T. Mass, of this county, who started Sunday morning with extradition papers to bring him back.

It is said that Iles started the fight at Oswego, on May 19, as a result of which Fred Ream, of Willamette, was shot and crippled for life by J. C. Ainaberry, the parole breaker and escaped convict employed by the Home Telephone company as a strike-breaker during its trouble with the linemen's union. Iles was arrested with the 15 men now under indictment by the grand jury, but jumped back after arraignment and left the Pacific slope.

News of the attempt to free Iles was telegraphed to Sheriff Mass en route, and the Clackamas county official stopped off on his trip long enough to wire ahead to Dallas a telegraphic warrant, and to send word to the Texas authorities that he was on his way. It is understood that the effort to free Iles is being made by attorneys engaged by the electrical workers' union. Unless Iles is brought back and placed on trial, the state may be unable to prove its case in the riot charges against his co-defendants, as they may claim that Iles was the only one of the party who committed any overt acts.

Every effort will be made by the state to prevent Iles being released, as even his own friends testified, at their preliminary hearing, that he had used violence in the course of the Oswego trouble. In fact their testimony was so general upon this point that it was made to appear that Iles not only was the occasion of this wonderful riot in the face, precipitating the fight, but he was also blamed for the throwing of peaves, crowbars and other missiles that enlivened the encounter between the striking linemen and the men who were working with Ainaberry, the ex-convict.

The Home Telephone company, it is said, has employed detectives to keep tabs on Iles and if the Texas courts should free him before the arrival of Sheriff Mass, it is declared that he will be shadowed and re-arrested.

YOSEMITE RESERVE IS OPEN TO AUTOS

SAN FRANCISCO, Aug. 1.—The Yosemite National park was opened to automobilists today and the throwing open of the gates of this wonderful land was the occasion of a big celebration. The fight to have the barriers against the automobile raised was a long one and motorists met reversal after reversal in treating with the department of the interior at Washington.

While the Coulterville road will be the first one that will be opened to motor traffic, it is most likely that if no serious mishaps occur the Big Oak Flat and Wawona roads will be opened also in a season or two.

The opening of the Yosemite valley to motor traffic will mean much to California, for thousands of motorists will now pour to the Golden state for the pleasure of driving into this national wonderland instead of taking vacations in other lands. The fame of the Yosemite is worldwide, and the fact that a person can now comfortably make the trip into the valley in motor car instead of being crammed in a jerky horse-drawn stage is sure to increase the year's list of visitors who, while in the state, will also tour to other scenic districts.

BIGGEST VESSEL CUTS-UP AT SEA

NEW YORK, Aug. 6.—The steering gear of the giant imperator which docked here today, broke Saturday shortly before midnight, and the great ship, utterly helpless, made circles half a mile in diameter several times before she could be stopped.

There were late diners in the Ritz Carlton restaurant last night of the first cable passengers were in bed when the steering gear suddenly snapped. The rudder shifted to port and the ship took a sudden list to starboard. Drinks and food were thrown into the laps of the diners. They rushed on deck in terror to find the ship beyond control running at 22 knots in a great circle.

It was found after the vessel was stopped that a glycerine pipe connected with the gear had broken suddenly. That threw the gear out and made it "unmanageable." The same thing had happened once before.

SUFFRAGISTS HIT SENATE EN MASSE

WASHINGTON, D. C., July 31.—The second big demonstration that the advocates of woman suffrage have held in the national capital this year took place today and was carried out far more successfully than the similar demonstration and parade held last March on the eve of the inauguration of President Wilson. The chief object of the demonstration today was to present petitions to the senate asking that body to pass immediately a constitutional amendment enfranchising women all over the country.

The demonstration was participated in by delegations of suffragists from many states. The delegations rendezvoused during the forenoon at Hyattsville, Md., where they were officially greeted by the Washington suffragists and escorted into this city in automobiles. At Hyattsville there was a programme of speech-making in the public park and the raising of a suffrage flag.

Upon arrival in the capital the parade of automobiles proceeded south on 14th street to Pennsylvania avenue, and then on to the capitol. The presentation of the petitions to the senate was accompanied by brief addresses delivered by several of the national leaders of the equal suffrage movement.

Senator Chamberlain, of Oregon, welcomed the women to the senate chamber.

PEPPER LATEST STRIKE WEAPON

CALUMET, Mich., July 31.—Incidental to the copper miners' strike, hot water, red pepper and various household utensils were used as an supplement to revolvers and bayonets in a fight today between deputy sheriffs and men and women inmates of a Hungarian boarding house at the Wolverine mine. The battle ended with the arrest of three after troops had rescued the chief officers from a threatening mob.

The arrests were part of a series which the sheriff's office has instituted within the last 24 hours in an effort to imprison ringleaders of the disorders.

The Western Federation of Miners headquarters has let it be known that every possible effort will be made to provide successful defense for the arrested men.

LONDON'S CLOTHES WONDERFUL INDEED

LONDON, July 31.—The silly season is on in full swing in London. One of the most unmistakable evidences of it is given in men's fashions, which would seem to be in a state of transition. The gaudy sock, the lace, white or colored, the broad shoe lace, are as though they never were. They are tabooed.

The latest craze is the rest suit, to be worn on a quiet evening after dinner, or for bachelor tea parties. Here is a full description of one, worn, it is said by a well known peer. It is of dark green watered silk, with revers of old gold, the coat being edged with olive green silk braid. The suit is loosely cut with wide trousers and is worn with a colored silk shirt, soft turn down collar and bow tie, socks of silk and gorgeous Oriental slippers.

SMITH, BORAX KING, FACING BANKRUPTCY

SAN FRANCISCO, Cal., Aug. 1.—Rated only a year or two ago among the great multi-millionaires of America, Francis M. Smith, widely known as the "Borax King," appeared before Judge Morrow in the United States district court today to show cause why he should not be adjudged a bankrupt on debts amounting approximately to \$150,000.

The petition filed by Smith's creditors declares that prior to May 3, when a committee was appointed to act as trustees in managing his affairs, he conveyed without any consideration properties valued at \$1,000,000 to the Merchant Tailor company, to E. F. Edwards and to his wife at a time when he was insolvent. These transfers it is alleged in the complaint constitute acts of bankruptcy.

Smith's career is one of romance. A modern American financier, born in the town of Richmond, Wis., about sixty-five years ago, he spent his boyhood and youth on his father's farm. At the age of twenty-one he came West and in 1872 he discovered the great borax deposits in Nevada. After years of labor he secured a monopoly of the product and from that time his financial success was one of the wonders of the West. Eventually he became the head of a two-hundred-million-dollar empire of corporations. His personal fortune has been estimated at many millions.

F under of Osteopathy 85. KIRKSVILLE, Mo., Aug. 6.—Many messages of greeting were received here today to remind Dr. Andrew T. Still, famous as the founder of osteopathy, that this was his eighty-fifth birthday anniversary. Dr. Still was born in Lees county, Virginia, Aug. 6, 1828. He served in the civil war as surgeon of a Kansas cavalry regiment and after the war became post surgeon at the Shawnee reservation. It was here that the study of the human bone structure, especially of the spine, was forced upon him by the death of his two little daughters, of spinal meningitis. It was in 1874, when living at Leavenworth, Kan., that he abandoned traditional medical routine and began to practice osteopathy as it is understood today.

STUDENTS WED GREENCASTLE, Ind., Aug. 1.—Two pretty romances which had their beginning at DePauw University culminated today, when Miss Inesene McLean and Charles O'Dell, and Miss Hazel Ayres and Arthur C. Woodward were married at a double ceremony. All four of the contracting parties were students at DePauw.
