Whole Family Benefited By Wonderful Remedy

There are many little things to annoy us, under present conditions of life. The hurry, hard work, noise and strain all tell on us and tend to provoke nervousness and irritability. We are frequently so worn out we can neither eat, sleep nor work with any comfort. We are out of line with ourselves and others as well. A good thing to do under such circumstances is to take something like

Dr. Miles' Anti-Pain Pills to relieve the strain on the nerves. Mrs. J. B. Hartsfield, 33 Corput St., Atlanta Ga., writes:

"I have on several occasions been vastly relieved by the use of your medicine, especially the Anti-Pain Pills, which I keep constantly on hand for the use of myself, husband and two sons. Nothing in the world equals them as a headache remedy. Often I am enabled by the use of one or two of the Pills to continue my household work when otherwise I would be in bed. My husband joins me in my praise of the Anti-Pain Pills and Nerve."

Dr. Miles' Anti-Pain Pills are relied upon to relieve pain, nervousness and irritability in thousands of households. Of proven merit after twenty years' use, you can have no reason for being longer without them.

POOL HALL OWNER HAS BEEN ARRESTED

The second arrest in the past week for keeping open on Sunday was made when F. D. Cox was arrested Wednesday upon complaint of O. A. Stoltz for keeping his billiard room open Sunday.

The case is a test on the Sunday closing law. Stoltz is the owner of a skating rink on the west side of the river and was recently arrested by Constable Frost, charged with running an amusement on Sunday. His case came up before Judge Selvers and he was fined \$10.

It was upon his complaint that the arrest was made. As the case is a test case, it will probably be carried into the supreme court.

First Baby is Born in the New City of West Linn, Or.

West Linn has its first baby. Clackamas county's youngest town is the birthplace of a young American. He was born at the home of Mr. and Mrs. August Moehke in the southern section of the city and is a fine, big, ten-pound boy.

Although, by the time this paper is printed, the child will not yet be one day old, there is some talk floating the rounds of the citizens of the new city, that the baby be honored in some way. They consider the fact that only one child can be the first born in the new town, as not casting enough luster on the baby. It has not yet been decided just what the nature of the honor will be.

This new plan would furnish books for all the rural districts in a way that would rival the city libraries. It is said. The measure is to be voted upon at the coming election this winter.

BARDE & LEVITT SHOWS PROFIT

RECEIVER DECLARES DIVIDEND FOR A LARGE CROWD OF HUNGRY CREDITORS

ADMINISTRATION COST IS HEAVY

Estimated Legal Steps Taken Will Run Bill Up to More Than \$10,000 Before Estate Has Been Closed

Barde & Levitt has declared a 25 percent dividend for the creditors and another one is in sight that will soon be divided among those to whom the company owes money.

B. N. Hicks, referee in bankruptcy, Monday authorized the declaration of the dividends for the benefit of the 173 creditors of the concern. He also signed a permit authorizing the sale of \$20,000 worth of stock in the concern of Barde & Son, of Portland, to raise cash for the satisfaction of the creditors of the concern.

It is estimated that the costs of administration of the bankrupt estate will be fully \$10,000. The management of the four stores has entailed the appointment of receivers at each place and a keeper of the stock at a high salary. This has added to the cost and the total will run close to \$10,000, it is now estimated.

It is believed that another dividend will be declared later by the purchaser and authorized by the receiver but how much this will be is still uncertain.

DISCOVER MAN WHO FILES WATER PROTEST

H. W. Hagemann is the man behind the guns in the protest that has been filed with the interior department against the Portland Railway, Light & Power company.

For some time, the committee that has charge of the investigation as to the south fork of the Clackamas supply has been at loss to know who filed this objection to the company with the department. A wire answered the question. It has been discovered that H. W. Hagemann, of Logan, has objected to the "cutting of an intake" of Oregon City. The city does not yet have an intake in the reserve as the matter is merely proposed and no action has been taken though the company has indicated its willingness to help all that it can.

SLUGGISH TONE OF MARKETS IS NOTED

Receipts for the week at Portland stock yards have been: Cattle 1788, calves 57, hogs 5347, sheep 2558.

Reaction in the cattle market set in Wednesday after an auspicious opening Monday. Receipts have been abnormally large and killed are temporarily well supplied. Prime steers dropped to \$7.50, cows \$6.50 and trade was slow the last half.

Market is sharply lower this week; outlet narrowed at mid-week and swine values were shaded from \$8.75 to \$8.50. By Friday the trade was very sticky, buyers indifferent and \$8.25 was the limit of bids; a liberal quotation was \$8.00 at \$8.25.

There was slow and uninteresting sheep trade sales for the most part being in the lamb section, owing to very quality these did not bring more than \$3.10.

Generally the mutton and lamb markets are steady to firm.

EGGS ARE FIRMER THAN EVER BEFORE

The egg market is firmer and values are advanced at least a cent a dozen. Sales are reported at the highest price ever known for this season.

While some dealers report that eggs are scarce, others are telling of a slight increase in offerings. According to these interests, they are now able to take care of the trade while heretofore they were able to handle only half of the trade.

Considering the scarcity, fresh ranch eggs should be quoted even higher than at this time. However, the market is being held down by the fact that, in outside towns, so much ice house stock is being offered. Practically all the cold storage interests along the coast are attempting to clean up their holdings of fresh eggs and this naturally has its effect on the local trade.

SLUGGISH PRICES REPORTED IN HOPS

Several low-priced sales of hops of several days ago but just made public, saw that there is but little snap to the trade. Purchases were shown several days at 21 and 23 cents a pound, and the latter for the best quality, but today the best bids are 22c and there is no keeness among the buyers to take hold, even at that figure.

There is almost total lack of inquiry from abroad; in fact the English trade is not even inclined to answer cables from this side.

EGGS HOLD FIRM ABOUT 40 CENTS

Fresh eggs are extremely light and the price is being held very firm. While most sales are reported at 43c a dozen for best select ranch eggs, some dealers report transactions at a cent above this.

The trade through the northwest is being taken care of by the ice house stock to a large extent. Fully 95 percent of the local business in the wholesale market is in the storage product.

BOY IS INJURED; FILES \$40,000 SUIT

Martin May, through his guardian John T. May, has filed suit in the circuit court of the county against the Hawley Pulp & Paper company for \$40,000 damages for injuries that he is alleged to have sustained in the mill.

The plaintiff claims that he was an employe in the mill and that he is but 17 years of age. He says that a set screw in a shaft of the machinery which he was operating became loose, caught his clothing, and so jerked him that his bones were broken and twisted and that he was permanently injured.

He also alleges that internal organs were damaged by the jolt that he received and that he cannot sleep. For his sufferings he asks \$40,000.

BOLTON MAN DIES AT HIS OLD HOME

He was born in New Jersey July 22, 1871, and came to the state of Washington several years ago. From that state he moved to Bolton where he has lived about six years.

'GET' RINK

Following out his threat to swear out a complaint against them if they operated the rink on Sunday, Constable Jack Frost
