SMITH COMES OUT FOR COMMISSIONER

MEMBER OF COURT REVERSES ANNOUNCEMENT MADE MONTH AGO

TWO REPUBLICANS OPPOSE HIM

Petitions Will Probably be Ready Wednesday and His Declaration Filed Within the Coming Week

Reversing his announcement of a month ago, Commissioner J. W. Smith declared Wednesday that he would enter the race for the Democratic nomination for commissioner.

Mr. Smith gave his reason at the time of his first announcement that he preferred the quiet life on his farm to the many details and worries connected with the commission.

It is thought by those who are in close touch with the local political situation that Smith will make a close race for reelection.

His petitions will probably be ready Wednesday morning for circulation and his declaration filed with the county clerk within a week. It is thought probable that no Democrat will oppose his race for the nomination so that in the election he will probably be opposed by the Republican candidates only.

ROAD IMPROVEMENTS UP IN COUNTY COURT

Specifications and plans for the improvement of the river road for a distance of about two and a half miles south of Island station and for the Lazelle road which is south of Oregon City were prepared at the session of the county court Wednesday. Each road will be macadamized. Advertisements for bids will be made within a few days. The river road is a part of the highway between Oregon City and Portland and one of the heaviest traveled roads in the county.

The court will probably order Road Engineer Hobson to confer with the engineer of Marion county this session over the construction of a joint bridge across Butte Creek, connecting the two counties. The commissioners of both Clackamas and Marion met at a joint meeting Tuesday and viewed the bridge site. It is probable that another bridge will be repaired across the same creek.

NEITHER HUSBAND NOR WIFE GETS DIVORCE

JUDGE CAMPBELL THROWS SUIT OUT OF CIRCUIT COURT AT HEARING MONDAY

The complaint filed by Frank James against Rose James and the charges made by Rose James against Frank James were both thrown out of court today by Judge J. U. Campbell. Each alleged the other deserted.

The alleged separation occurred at San Francisco at the time of the earthquake, by accident. After wandering about the deserted city and through the many refuge camps for many hours the wife was furnished free transportation and taken to her former home in Utah and did not see her husband for some time. James came to Oregon and settled on a farm in the Stafford district.

The complaint was filed in October, 1913, by the husband. When the wife heard of the action of her husband, she left her home in Sal Lake City, Utah, and came to Oregon City. Here she entered charges against her husband, alleging desertion, the same charge he held against her.

MEMBERS OF "ARMY" MARCH IN FREIGHTS

KELLEY'S TROOPERS DESERT CAUSE IN SOUTHERN STATE AND SEEK JOBS

Up from the Yoho county sand lots and away from the unwholesome place officers of California, members of Kelley's valorous "army," the organization which planned a march from Richmond, Cal., to Washington, D. C., are coming north on every freight. Tuesday night the Oregon City police picked up 27 men from north bound trains and lodged them in the city jail until morning when they were given their hot rolls and coffee and set on their way.

Despite the antics of the men while in California, as they were reported to the people of the northwest, the men placed in jail here were a tame lot. Not one offered resistance to the officers although two policemen conquered 14 at one time and lead them off to the little brick building behind the city hall.

Many and strange are the tales which the wandering adventurers relate. Stories of dressings with fire hose, of combats between police forces, or of stranded box cars filled with members of the "army," are but a few of the many they tell. The men all seem to be earnest in their desire for work and confident that either in the employment offices in Portland or some other northwest city they can secure jobs. The exact number which will pass through Oregon City is not known but it was rumored here that many were northbound.

APRIL 17 COMMERCIAL CLUB FORMAL OPENING

PROGRAM WILL INCLUDE MANY SPEECHES—UNANNOUNCED SPECIAL FEATURES

The formal opening of the new quarters of the Oregon City Commercial club on Eighth and Main streets will be held Friday evening, April 17. The affair will be in charge of the entertainment and reception committee of the club, composed of M. D. Latourrette, R. T. McBain, W. L. Mulvey, L. Adams and E. E. Brodie, and will probably be in the nature of a banquet for club members only. Tickets will be free to members who signify to the secretary their intention to be present.

While more than a month has elapsed since the commercial club occupied its new building, the board of governors, which met Wednesday afternoon, has been waiting until the furnishings were complete before deciding upon definite arrangements for the formal opening. The plans of the committee in charge of the affair embrace a few speeches, but very few, and a number of special features, the nature of which will be kept carefully guarded until the evening of the banquet.

AUTO CLUB FIXES DATE FOR BANQUET

MEMBERS WILL FEAST APRIL 15 AT CLACKAMAS TAVERN—PLAN ORDINANCES

The Clackamas County Automobile club will hold its annual banquet Wednesday, April 15, at Clackamas Tavern, which has been secured for the exclusive use of the club and its guests for that date. Cards will be issued to the members in a few days. The price of the banquet will be one round motor car wheel per plate and to each member will be extended the privilege of bringing as many guests as he cares to make reservations for. Two hundred dollars was guaranteed by the club for the improvement of the Pacific highway on the west side of the river between Oregon City and Oswego. The county court is co-operating with the club to place this road in good condition for the spring and summer travel.

O. D. Eby, R. C. Parker and M. E. Park were named as a committee to draft a traffic ordinance for Oregon City. It is proposed to frame an ordinance along the lines of the traffic ordinance in Portland, which compels drivers of motor cars to park their cars on the right hand side of the street in the direction they are going, to keep to the right in all cases and to come to a stop when approaching a railroad is laid. The main on Seventh street car that is taking on or discharging passengers.

E. L. Pope and H. G. Starkweather were appointed a special committee to confer with Southern Pacific officials relative to the widening of the crossing near the St. Agnes Baby Home at Parkplace.

ROBERT MILLER SPENDS SATURDAY HERE

Robert A. Miller, candidate for the Democratic nomination for governor, was in Oregon City, his former home town, Saturday, to attend to taxpaying on property which he owns in this county and to meet his many political friends.

Mr. Miller has lived in this county 10 years and for a part of that time was registrar of the federal land office when it was located in Oregon City.

GAS FRANCHISE PASSES COUNCIL

COMPANY WILL PROBABLY RUSH LINE TO OREGON CITY BECAUSE OF LIMIT

STREET OILING ORDINANCE IS UP

Plan to Add Several Acres to Cemetery Passes First Reading—C. T. Tooze Secures Permit From City.

After several weeks of postponed action the franchise of the Clackamas Gas company passed its second and final reading at the meeting of the council Friday evening.

The franchise provides that the gas company must have gas in the business section within seven months and that as soon as possible the residence section must be served. The measure gives the concern the power to lay mains on any street in the city.

It is probable that the Clackamas Gas company will rush its line from the Multnomah county line to Oregon City as soon as possible as the officials of the company are anxious to operate here as early in the summer as the line can be completed. Probably the next step for the gas company will be to survey the streets of the city and decide upon the location of the trunk lines and the tributaries.

A plan has been suggested that wherever possible the main be laid in the alleys. Mr. Bratton, representative of the gas company, requested that the city furnish the company with the location of all proposed street improvements so that the company could lay its mains without destroying expensive surfacing. The franchise provides that where the street is torn up, the company must replace the surface in the same condition as it was first. Various other features, such as a bond for the gas company, various time stipulations, and other requirements, are included in the measure.

Oregon City's streets will probably be oiled this summer. An ordinance, appropriating \$3000, or as much as may be necessary, passed its first reading at the meeting. This money will be used to oil the streets of the city during the summer.

At the suggestion of Councilman Metzger at the last meeting, an ordinance was read for the first time to plat an addition of several acres to Mountain View cemetery. A sum of \$200 appropriated for this work, was included in the ordinance.

In order to pay for the installation of the city scales which will be located at the corner of Fourth and Main streets, an ordinance authorizing the street committee to spend any sum up to \$500 was read for the first time. This will not only pay for the scales themselves but also the foundations.

A permit was issued to the Portland Railway, Light & Power company to haul an additional 12 cars of logs into Oregon City each day for a period not to exceed 40 days. Representatives of the Hawley Pulp & Paper company and the Crispin had at the meeting explained that in order to keep the mills running it would be necessary to bring more timber from the lower river to the mills.

The petition of Mrs. Chase, concerning that the curbing on High street, which is being improved, was referred to the street committee and the city attorney.

Following the recommendations of the street committee, the council moved to advertise for bids for the extension of the Seventh street sewer from John Q. Adams street to Taylor street. The report of the city engineer was read. A number of property owners on Seventh street presented a petition to the council requesting that the sewer be built.

The matter of establishing an arc light on the corner of Eleventh and Center streets was referred to the street committee.

The council granted the petition of C. T. Tooze that a permit be granted him to move a building on Sixteenth street. The council provided that Mr. Tooze must replace any fencing that he might be compelled to tear down and to leave the street in the same condition as before.

The council ordered an ordinance drawn which will establish the grade of E street in the Falls View addition. City Engineer Noble submitted plans and specifications for the improvement of the street but no action was taken at the meeting to have this work done.

GAS COMPANY WILL BEGIN WORK FRIDAY

ANNOUNCEMENT IS MADE BY OFFICIALS—LOCAL MEN ARE WANTED

Engineer G. P. Neetus and Superintendent McClogh of the Clackamas Gas company announced Tuesday that actual construction of the gas mains in Oregon City would begin Friday and that the firm would be serving customers here early in the summer.

The streets which will first receive the attention of the company are Seventh, High, Center and Madison streets. The city council has included these streets in those to be improved this spring and the gas concern plans to install their mains before the summer is laid. The main on Seventh street will be one of the trunk lines in the hill district. All pipes will be laid at a depth of two feet.

The gas company desires to employ local men as far as possible in the work and desires all who want jobs to come to the corner of Seventh and John Adams Thursday.

ATTACKS FOLLOWED BY COMMITMENT

GODFREY BOESE TAKEN TO ASYLUM AFTER TROUBLE NEAR HOME IN BORING

Godfrey Boese, of Boring, who was arrested in Portland Friday while alighting from an inbound Estacada car after several alleged attacks on neighbors and his family, was committed to the asylum and was taken there late Friday evening.

He had trouble with his family during Thursday evening and is said to have abused them until about 3:00 o'clock this morning when he went to the sleeping quarters of nearby wood cutters and attacked them with his fists. Returning to his home he then went toward Boring and awoke a neighbor named Selter. Selter claims that Boese was violent and attacked him with a stand lamp and that after a struggle Boese was placed on the ground. The insane man asked for a drink of water and Selter let him up when Boese hit Selter's young son over the head with a dipper.

From Selter's home, Boese went to the farm belonging to Lon Sutton and attacked the latter. Sutton escaped and went to Boring. Boese followed and caught the 6:15 car for Portland at Boring. Boese was arrested by railway detectives at Portland who were waiting for him. Deputy Sheriff Miles left Oregon City as soon as word was received in the sheriff's office here to secure the man.

Boese is about 47 years of age and besides his wife has a family of seven children. He is said to own considerable property in the Boring district. The physicians who examined him are of the opinion that the insanity is hereditary.

P. R. L. & P. SUES O. & C. FOR CLACKAMAS LAND

The Portland Railway, Light & Power company has commenced condemnation proceedings in the circuit court here against the Oregon & California railway company. The electric company alleges that the railway company is the owner of a certain tract of land on the Sandy river which is needed for certain development work and that all efforts to buy the land have failed. The plaintiff claims that the land is worth \$500.

For the first time in her life, Mrs. C. A. Moomaw saw her sister, Mrs. Casper Oleson Wednesday afternoon in Molalla. Mrs. Moomaw has lived in Molalla for some time and Mrs. Oleson is a resident of Astoria.

Mrs. Oleson says she remembers seeing her sister in long clothes three days after she was born, 29 years ago. At that time Mrs. Oleson was five years old. The mother died and the family had scattered to all parts of the country. The two sisters have had correspondence but have never had the opportunity of meeting until last Wednesday.

TWO RAILWAYS COVET NEW LINE TO SOUTH

SOUTHERN PACIFIC SEEKS TO COMPLETE "COAST" LINE TO SAN FRANCISCO

PORTLAND, Ore., April 1.—Now that the residents of Grants Pass have undertaken to finance construction of a railroad from that city southeasterly toward Crescent City, Cal., several rival railroad interests—chiefly the Southern Pacific and the Hill lines—are becoming active in the effort to secure control or possession of the property.

It is evident that the Southern Pacific wants and needs the road. It will form an important link in the Southern Pacific's proposed "all coast" line between Portland and San Francisco. Should the pending litigation intended to dissolve the Southern Pacific-Central Pacific merger prove successful, the Southern Pacific would be left without a direct line of its own into California. The Southern Pacific owns a half interest in the North-western Pacific, extending from San Francisco along the coast toward Crescent City. The Santa Fe owns the other half, but the Southern Pacific recently undertook to build a northern extension on its own resources. It is proposed to connect this extension with the line now being built from Grants Pass, thus making the Southern Pacific line complete.

MINISTER WATCHES BOOZE GO IN SEWER

G. W. Carleton, the first man to be arrested for violating the new liquor ordinance, was taken before the recorder's court Friday morning and received a sentence of 30 days in the city jail and a fine of \$25. The four men with whom Carleton was associated were taken before City Attorney Chris Schuebel and the law was thoroughly explained to them. No further action will be taken as the city attorney believes that hereafter they will respect the ordinance.

In the presence of Rev. T. W. Milliken, Chief Ed Shaw poured the contents of Carleton's valise into the sewer. Three half gallons of port wine, one quart of beer, three pint bottles of whiskey, and three half pint bottles of the same liquor were destroyed. Rev. Milliken said after the bottle had been emptied that "This is the first time I have ever seen so much go to one place and at one time."

ORDINANCE AIMED AT BOY SMOKERS DRAWN

An ordinance aimed at the practice of many school boys of smoking, was read for the first time at the council meeting Friday evening. The measure provides that any dealer who shall give or sell to any minor tobacco of any kind, shall, upon conviction, be punished by a fine not to exceed \$50 or a sentence not to exceed 25 days in the city jail or both, and that any minor who shall be caught with tobacco on his person shall be punished by a fine up to \$10 or imprisonment up to five days in jail.

FIRM SENT BOOZE TO DRY TOWNS CHARGED

SALEM, Ore., March 27.—Alleging that the Rice City Importing company, of Portland, has violated the liquor laws of the state by shipping liquor into "dry" territory without labeling it properly, Governor West today asked Attorney-General Crawford to bring suit to have the charter of the company revoked.

In an offhand opinion James Crawford, assistant attorney-general, said the company, if guilty, could be fined heavily, but he doubted if its license could be revoked. He said, however, that proceedings would be started at once.

TEACHER TRAINING SCHOOL IS PLANNED

The first arrangements were completed Saturday by County School Superintendent Calavan for the annual teacher's training school which will be held during the last three weeks of August. It is expected that about 150 teachers from all parts of the county will be present to receive instruction. Five teachers will probably be engaged to carry on the work.

About 100 teachers were present at the meeting last year but it is expected that the coming season will draw many more than the preceding season. The work will be divided into two departments and the best instructors possible will be engaged for each.

CHICKEN LAYS WITH HEAD OFF, HE SAYS

A stirring narrative relating the adventures of a chicken who laid an egg with its head gone and then cackled is being told by D. C. Robbins and is backed by the members of his family. "The first part of the week I chopped the head off a chicken and laid it on the kitchen table until my wife could dress it," said Robbins Thursday. "This happened about 11:30 o'clock in the morning. About 3 o'clock in the afternoon my wife and brother, who were in different parts of the house heard a noise in the kitchen, and then heard the cackle of a hen. They ran into the kitchen and found an egg beside the hen and saw the body move. The egg was perfect in shape."

The explanation which is offered is that Robbins did not cut the head of the chicken off completely and left the throat and brain unharmed so that the chicken did not die at once as first supposed. It is a well known fact that the brain of a chicken is situated at the base of the skull and that but a small part is located in the head proper.

New Lock Boxes Causes Trouble In New Postoffice

Frowning brows, mumbled words, and appeals for help are the most common things in the new Oregon City postoffice. So common have they become that Postmaster Randall is forced to keep a clerk in the lobby through the rush periods to help the worried patrons.

The trouble is the new lock boxes. Each of the 312 box owners was forced to learn the combination of his new box, and how to work the lock as well as such details as where the box was located and how to open it after the combination was worked. Many came with elaborate diagrams, problems drawn out by another member of the family or fellow-worker but despite many trials many were forced to ask for aid from the postoffice clerk. Others were shown the puzzling combination, only to forget it before the next trip to the office.

One clerk said that he must have shown every person in Oregon City how to work every box and some of them several times. "They keep us on the constant jump," he said, "about all we get to do is to show combinations for these boxes."
