Making a Silk Dress.

Times have changed a good deal since the days of the Garden of Eden, when a single fig leaf was supposed to have been the wardrobe of the mother of men, Mrs. Eve. Nowadays, Japanese scientists have figured, it requires 288 pounds of mulberry leaves to make a single dress for the modern woman. Eighteen months also do their part in making the dress, they having laid the eighteen packages of eggs from which were hatched the 6,400 worms that ate the 288 pounds of mulberry leaves. There worms produced about 5.9 pounds of cocoons, from which were reeled ten skeins of raw silk or 1.9 pounds of silk.—New York Times.

Languages of the World.

A very precise computation has been made by Adelung, representing the number of languages in the world at 3,424—957 Asiatic, 187 European, 276 African and 1,624 American. This number is far too small. It is impossible as yet to reckon the number exactly until we are sure that each unknown tribe of savage man has been brought within the knowledge of the world, but it is not an overstatement to estimate the languages of the world at more than 5,000.—New York Sun.

OF LOCAL INTEREST

Some People We Know, and We Will Profit by Hearing About Them.

This is a purely local event. It took place in Oregon City. Not in some faraway place. You are asked to investigate it. Asked to believe a citizen's word; To confirm a citizen's statement. Any article that is endorsed at home is more worthy of confidence. Than one you know nothing about. Endorsed by unknown people. F. H. Busch, Jr., hardware merchant, Main St., Oregon City, Ore., says: "I had an acute attack of kidney trouble. I found no relief in finishing two boxes, I was well. I have never needed a kidney medicine since. I am glad to confirm the endorsement I gave Doan's Kidney Pills after I first used them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Busch had. Foster-Milburn Co., Props., Buffalo, N. Y. (Adv.)

## A COMPARISON

You wouldn't drink from a rusty tin cup with a clean glass at hand! Well then, why pay as much, or nearly as much, for a pump with a metal valve seat

AS FOR A

### Myers Pump with the PATENTED GLASS VALVE SEAT?

Metal Valve seats may corrode or rust. GLASS VALVE SEATS CANNOT. Metal Valve Seats harden the check leathers quickly. GLASS VALVE SEATS DO NOT. The patent Myers Glass Valve seat is well protected and is as lasting as any metal seat and far superior.

around the a dozen, some of Portland creameries are reported to be securing from 1c to 2c a dozen above this. While these interest deliver their supplies, which means a cost of nearly 5c a dozen, this does not make up for the difference in price charged for the same grade of eggs as compared with front street.

In some quarters it is believed that the egg market is being manipulated by interests who have been very heavy speculators in little brown eggs from China. These Mongolian supplies are said to be showing heavy stocks here and speculative interests are ready to begin taking profits. The Chinese egg is generally of very small size, is a deep brown and has a reddish tint that none can be deceived if they examine their purchases.

## OREGON BERRIES COME IN MARKET

What it is believed will be the last California strawberries to be received in Oregon this season came in Saturday, the total shipment of Florin Dairies amounting to approximately 494 crates of 20 pints each. In addition to these there were fair receipts of Oregon, but nothing like what had been expected.

Wholesalers received assurance Saturday that early Monday bus loads of crates of Oregon berries will be on hand and more will come in during the latter forenoon. Prices will probably be a little less than has been asked this week, although it is necessary that buyers remember that each crate contains 24 full pint baskets against the 20 pints in a Florin crate. The added four baskets will make a slight difference in price. It is expected they will open Monday at \$1.15 to \$2 a crate.

The season for the California berries has been a most profitable one. At first the berries arrived in noticeable condition, but after a few days unproved and those received Saturday morning were splendid.
