Nothing Unusual.

Several years ago a tourist fell over a rock from a height of about 300 feet, near Europa Point, Gibraltar. He was killed, of course. The lieutenant in charge of the guardroom, however, inserted in his guard report for the day that "nothing unusual had occurred."

For this he was "carpeted" before the town mayor, who asked for an explanation. "Well, sir," replied the young officer, a Scotsman, "if the poor man had not been killed it would have been a very extraordinary fact, but as the poor body was killed—why, sir, I thought it was an 'extraordinary or unusual.'" The plea was accepted.

Drucke Down and Out.

Royal Polo Enthusiast.

Alfonso of Spain may pick Team For Panama-Pacific Tournament.

King Alfonso of Spain is a real sportsman—not the sort that thinks he is giving any game a great boost by taking a ringside seat or by writing a letter for publication extolling its charms, but the Spanish monarch takes the greatest delight in active participation. Polo is his hobby, and so keen is he on the game that were it not for the opposition of his ministers he would try out for a place on the Spanish team to the big Panama-Pacific tournament. Cojita B. Brown, United States commissioner for the exposition, who has returned from abroad, says:

"Only a few weeks ago I saw King Alfonso dashing up and down the polo field in Madrid, playing with the basque team against one of his own army teams," said Brown, "and he told me afterward of his desire to bring a team to the United States which will humble every nation. The king is taking instruction from the British players and will choose his own team to defend the Spanish colors."

Cornell Starts Gridiron Practice.

Cornell has begun spring football practice with twenty-eight men on the field. On account of the fact that Coach Sharpe is busy with the basque ball team Captain Jack O'Hearn will have charge of the practice. There will be no attempt at scrimmaging, but a great deal of time will be spent in practicing the forward pass, handling punts and in general honing up exercises. Among the members of last year's team to report besides O'Hearn are Collier, Malloy, Philippi and Shellen.

OF LOCAL INTEREST

Some People We Know, and We Will Profit by Hearing About Them.

This is a purely local event. It took place in Oregon City. Not in some faraway place. You are asked to investigate it. Asked to believe a citizen's statement. To confirm a citizen's statement. Any article that is endorsed at home is more worthy of confidence. Than one you know nothing about, endorsed by unknown people. F. H. Busch, Jr., hardware merchant, Main St., Oregon City, Ore., says: "I had an acute attack of kidney and bladder trouble. I found no relief until I used Doan's Kidney Pills. After finishing two boxes, I was well. I have never needed a kidney medicine since. I am glad to confirm the endorsement I gave Doan's Kidney Pills after I first used them."

MARKETS FOR PRUNES IS MUCH EXCITED

The market for prune futures is very much excited. It is stated that a California interest has been spotting the Oregon sections with offers of \$46 a pound, orchard run, for the coming crop, and that some purchases were made at this figure.

This is the highest price known in the local market and reflects the fact that speculative interests believe that values are going still higher. On the other hand conservative interests are somewhat out of line with actual conditions and that the bidders will lose money in their speculations. It is noted that some of the same parties who are now making the extreme offers for prune futures, last heavy bids during recent years as a result of their activity.

Special crop indicate a dried prune output of 19,000,000 pounds in eastern and western Oregon this season compared with 20,000,000 pounds a year ago. California interests estimate the crop of that state at 90,000,000 to 100,000,000 pounds as compared with 110,000,000 pounds a year ago.

The fact that France has a very heavy prune crop in prospect this season is one reason why growers should not get too much excited regarding values, although all interests believe in extreme prices this season.

SWINE RUN LIBERAL AT PORTLAND YARDS

Receipts for the week at the Portland Union Stock Yards have been: Cattle 1053, calves 95, hogs 4188, sheep 5099.

Livestock liquidation last week was somewhat lighter than for the same period a week ago, in all lines except hogs, which showed a considerable increase. Cattle prices were steadier and further declines were not registered. Buyers gave \$7.50 to \$7.75 for best light bay fed steers, \$6.50 to \$6.75 for good cows and all other cattle prices were equally steady. The feature of the session was one load of fine grain fed steers Monday at 8c.

Notwithstanding a liberal run of swine, prices held steady throughout. The best grades of light boys sold at \$3.25 for tons. Outlet broader.

Mutton receipts were smaller and mostly from Willamette Valley points. Top on best grade valley yearlings \$5.90. Spring lambs sold Thursday at \$6.50, but showed further weakness at close of week's business. Ewes were the firmest class in the layout selling steady at \$4.00 to \$4.25.

FIRST FRUIT READY FOR 1915 EXHIBITION

The first fruit to represent the Willamette valley at the Panama-Pacific exposition in San Francisco in 1915, was received and prepared by Secretary O. E. Freytag of the publicity department of the Commercial club the first of the week.

The fruit, strawberries, was raised by J. W. Stafford, of Mount Pleasant on land which has been in constant cultivation for the last 43 years. One of the berries was over seven inches in circumference while the average of the lot is so large that it would require but 12 to make a pound.

The strawberries are of the New Oregon or Marshall variety and are well known in many sections of Clackamas county. The fruit was prepared in large glass jars and will be kept here until the time comes to send the all-Willamette display to San Francisco.

Every man with common sense misses a lot of alleged fun.

BERRY MARKET HAS RATHER WEAK TONE

The strawberry market shows a rather weak tone in the wholesale trade, with sales in the northern part of the state from \$1.10 to \$1.25 generally for fresh arrivals in pint packages.

The "fash" period for strawberry arrivals is expected to arrive either the latter part of the present week or rivals at this time are showing mixed quality owing to the rains, a large percent of the fruit being too ripe to hold over safely until the next day.

HOP EXPERTS TOUR WILLAMETTE VALLEY

After a trip by automobile through the Willamette valley which extended for six days, George and R. C. Dorcas, Portland hop interests have returned with rather good reports of the crops.

Messrs. Dorcas made a general examination of all the yards in the leading districts and reports the following summary:

McMinnville—Poorest in the state, Independence—Mostly good to fair. Silvertown—Good to fair. Aurora—Very good. Dallas—Very good. Forest Grove—Very good. Hillsboro—Banks—Very good. According to R. C. Dorcas, the best yard in the state at this time is that owned by Nathan Sohn, owner of the L. C. C. His yard is in the Fairfield district. Last year Mr. Sohn harvested 140 bales but this season he expects about 700. He has now 100 acres bearing while next year his acreage will total from 135 to 140 in bearing.

Last year the hop crop in Oregon was estimated from 151,000 to 152,000 bales. While it is not believed that this year's crop will run as great on the same acreage, the amount of new acreage is expected to bring the total at least up to former figures of production.
