WHILE HIS OLD ASSOCIATES AT PRINCETON are gladdening their hearts by presenting diplomas to graduates and post-graduates, President Wilson has rigged up a little diploma mill all of his own, and at the present time it is running at full capacity.

The scheme of the president is ingenious to say the least. The usual procedure followed is simple. The congressman in one way or another professes his great love and admiration for the president.

THE ORGANIZATION and re-organization of associations with a view to inducing patronage for Oregon manufacturing industries can amount to little under the present mode of procedure of these societies, extensive in scope though their work may be.

The purpose is to inaugurate a state-wide campaign to make Oregon made goods second nature to the Oregon consumer, and to this end hot-air merchants will be distributed over the commonwealth to attend various conventions and meetings.

The key to success is legitimate publicity of Made-In-Oregon goods by the men who make them. Eastern manufacturers expend thousands upon thousands of dollars annually in Oregon to bring their goods to the every day attention of the purchasing public.

No great gift of business sagacity is necessary to solve the problem which is now perplexing the Oregon manufacturer. He need only follow in the well-beaten path of thousands of others to gain the goal.

ALTHOUGH THE REPUBLICAN PRESS of the country has heaped much criticism upon the present administration, it must be granted that the Wilson cabinet has done at least one thing commendable, the abolishment of the wine mess.

The indicator tells who is butting in by means of musical notes which can be heard when the receiver is taken from the hook. For instance, if Bill Jones' ring is a short and two longs, and Brown is talking with Smith on very important business and if Brown and Smith suddenly hear a high and two low musical notes, they will know that Jones is on the line and one can say "Now, Bill Smith, you hang up that receiver."

Howard, in his many years of practical experience, found some strange tactics resorted to by those who desired to listen in. He found a bachelor holding a pet pig to the transmitter when persons on the line were talking business on the line.

THE GOOD OLD-FASHIONED ENTERTAINMENT, guaranteed to drive away the blues any evening, that of "listening in" on the telephone line on rural party telephones is soon to be a thing of the past.

not the dollar spent—leads to prosperity and independence. The wisdom of saving money is admitted even by the most thoughtless spend-thrift, but it is so much easier to spend money than to deny one's self trifles, that they drift along the course of the least resistance.

physical health and the order against the wine mess is a great step in that direction.

The record made by the marines at Vera Cruz is a notable example of the change in the navy. A report was sent to Washington several weeks after the landing at the Mexican seaport that the drunken orgies which usually follow a victory were unknown and that only a very few men had been arrested for drunkenness.

The United States is not alone in this progressive reform. A few days after the anti-liquor order, a similar measure was issued by the head of the naval department of the Norwegian government.

ILLUSTRATING THE EXTREME to which popular movements can go, a measure prohibiting the government from employing non-union men in any capacity, will be voted upon at the next regular election in Australia.

History recites the experience of France where the great revolution was caused by a system whereby the clergy and certain other classes were exempt from taxation and from punishment under the criminal law.

THE SUGGESTION HAS COME FROM A. C. NEWELL, head of the department of schools and child welfare of the Oregon Civic League, that the state superintendent of public instruction be elected at a special election to take the schools out of politics.

The suggestion is typical of those men who spend their time in planning reforms but never come in actual touch with conditions as they are. Probably the most vital error which appears in his reasoning is the lack of proof that a special election would divorce the schools from politics.

Mr. Newell probably does not realize that a state election costs the state about \$100,000. Under the strain of constantly increasing taxes, property owners are demanding a lower levy, but it is just such impracticable schemes as this that holds the state tax rate at 5.1 mills.

Newell also advocates the consolidation of rural districts. This is in direct opposition of the plans now being worked out in this and other counties. Larger districts mean schools located at a greater distance from the homes of the pupils and therefore poorer attendance records.

Mr. Newell, we take it, is one of those unfortunate men who have had but little experience with actual school needs or with practical politics.

Beaver Creek Union Sunday School Celebrates the Fourth

Say, did Sister Hannah tell you of the picnic celebration that we had at Beaver Creek?—Happiest kind in all the nation.

It was held at Brother Pryce's—ideal place for picnic party. And the welcome that they gave us was most friendly, kind and hearty.

Oh, the races and the contests! Oh, the ice cream and the dinner! Men played ball against the ladies, but the boys' team was the winner.

Children wound the "Boy Scouts' Spiral," and the pledge that there was given unto "God and Home and Country," was recorded up in Heaven.

Grown-ups joining with the children, Praised the Flag in song and story; Orators on a block rostrum, Proudly standing by Old Glory.

Good it is for country people To have such a celebration; And these patriotic teachings Are a safe-guard to the nation.

Heart to Heart Talks

By CHARLES N. LURIE

SHOVED BY THE NEIGHBORS. "More of us would make good if our neighbor would quit shoving," says a Chicago newspaper paragrapher.

Imagine a world in which no neighbor shoved. (By shoving is meant, of course, competition in the great world race for advancement in which we are either consciously or unconsciously engaged.)

Except for their mistakes, a great many men would never even be heard of.

Mayor Should Hold Office For More Than Four Years, With Modified Recall

By Mayor MITCHEL of New York. In Address at Dinner of Cincinnati University Trustees

OUR NEW CHARTER WILL BE RADICAL. THE CHARTER WILL INCLUDE THE INITIATIVE, THE REFERENDUM AND THE RECALL. I BELIEVE THAT A MAYOR SHOULD HOLD OFFICE MORE THAN FOUR YEARS, YET I BELIEVE IN GIVING THE PEOPLE A MEANS OF CONSTANT CHECK UPON ALL OFFICIALS IN THE FORM OF A MODIFIED RECALL.

The new charter will enable us to vote without partisanship and without national interference. It will include a form of ballot by which, we believe, the popular will of the people may be expressed.

WITH SUCH A CHARTER IN OUR POSSESSION WE THEN BELIEVE THAT NEW YORK CITY CAN TAKE ITS PLACE AMONG THE PROGRESSIVE CITIES OF THE COUNTRY. WE DO NOT NEED THE ADVICE OF A RURAL LEGISLATURE, THOUGH THAT IS WHAT THEY WOULD THRUST UPON US. WE THINK THAT NEW YORK CITY UNDERSTANDS WHAT IS NEEDED BETTER THAN ANY ONE ELSE.

WELSH NOW CHAMPION CHAUTAUQUA IS OPENED BY HOMAN

AMERICAN LOSES TITLE BY DECISION IN 20 ROUNDS

RINGBIDE, LONDON, July 7.—Fredie Welsh tonight became the lightweight champion of the world on a decision awarded by Referee Corri at the end of the twentieth round of the fight between the British challenger and Willie Ritchie.

Ritchie lost his title as a result of trying for a knockout in the early rounds. The clever Welshman stacked up a lead on points during the early part of the fight, beating the American with his marvelous footwork.

Ritchie was unable to solve Welsh's defense until the fighting was more than half over. In the thirteen round he assumed the aggressive and from that time forward carried the fight to the challenger.
