ENOR MOHENO is one of the chief advisers of Huerta, former dic tator of Mexico. He has been known as a man of good judgment sation turned to Bryan, secretary of state,

"Bryan was a great disappointment to us," he said. "You remember he came to Mexico some eight years ago. At that time he talked much about Pan-American friendship. He ate Mexican food; bought and wore a suit of Mexican clothes while he was with us; tasted-just a sip-of Mexican drinks. While in Mexico Mr. Bryan was a Mexican.

"But Mr. Bryan, as we see him now, has two sides. He is a Mexicanis one of us and we are a great people when he is with us. When he is in Washington we are merely a lot of Indians. The feeling toward Mr. Bryan in Mexico has changed in the past months. The Mexican people now call him-wait until I get the English words-a "clown in a country circus."

"President Wilson, as we see him, has been misinformed. Mr. Lind. whom he sent to us, has told him lies about us repeatedly and President Wil son, therefore, does not know the situation. But, as we see it, it is Mr. Bryan who controls rather than Mr. Wilson,"

of Agriculture in Virginia. Conditions in Spotsylvania county were investi- the precinct committees. gated with particular care and the results have proved surprising. In 1909 the county voted \$100,000 to improve 40 miles of roads. Two years after it has been formed is not the only sign which would indicate the success of the the completion of this work the railroad took away in 12 months from Fred-drys in Clackamas county. The enthusiasm, the willingness to undergo perericksburg, the county seat, 71,000 tons of agricultural and forest products sonal loss of time and money, the persistency, and the never-say-die spirit of hauled over the highways to that town. Before the improvement of the many of the dry workers cannot be equalled by the financial influence of the roads this total was only 49,000 tons annually; in other words the quantity liquor interests. One prominent Oregon City woman said Sunday that she of the county's produce had risen more than 45 per cent. Still more interest- would go out into the country districts to register voters and work up the In 1909 these amounted to 114,815 pounds, in 1911 to 273,028 pounds, an her daughter for several weeks and devote all her time in the rural districts. increase of practically 140 per cent in two years. In the same time ship | Such devotion to a cause is more likely to bear fruit than any of the tactics at range 5 east of Willametto meridian; ments of wheat had increased 59 per cent, tobacco 31 per cent, and lumber the disposal of the liquor interests. and other forest products 48 per cent.

produce was materially reduced. In other words the farmers not only produce more but produce more cheaply, for the cost of transportation to market prohibitionists. The words of George C. Brownell at Canby Sunday that 19, Outlook; \$1. is of course an important factor in the cost of production. From this point of view it is estimated that the \$100,000 spent in improving the roads in Spotsylvania county saved the farmers of that county \$41,000 a year.

In the past two years the traffic studies of the federal experts show that approximately an average of 65,000 tons of outgoing products were hauled over the improved roads in the county an average distance of 8 miles, or a total of 520,000 "ton-miles." Before the roads were improved it was estimated that the average cost of hauling was 20 cents a "ton-mile;" after the improvement this fell to 12 cents a "ton-mile," or a saving of 8 cents. A saving of 8 cents per mile on 520,000 "ton-miles" is \$41,000 a year. The county's investment of \$100,000 in other words returns a dividend of 40 per cent annually.

Because this saving, in cases of this character, does not take the form of eash put directly into the farmer's pocket there is a widespread tendency to believe that it is fictitious profit, while as a matter of fact, it is just as real a source of profit as the increase in the price of wheat.

crop, the outlook for a record crop of corn, and the increasing prospect of a great yield of cotton, give us the hope that we will have a taste of prosperity despite the best efforts of the Democrats.

pare for the big yield which is expected. New equipment, and new rails are being ordered and all the track is being brought into condition for the burden which will come with the big crop.

month show that nearly one-half of the balance of trade in the preceding year disappeared. Putting the case in another way, our export trade fell off \$250,000,000 during the last eight months of that year,

TOHERE WAS A TIME when it was necessary for legislation in favor of the working class and against capital. That necessity was met and its requirements accomplished. In doing this, however, the pendulum of legislative activity has swung back the opposite way so far that such legislation is now a hindrance to the legitimate investment of capital in good enterprises. This action is just such as is always experienced. A wrong arises, the people are aroused and spurred on by their enthusiasm they go to ex- national prohibition; also whether I tremes, thus causing another wrong to be perpetrated instead of correcting the would be in favor of the passage of a evil.

A few years ago the hue and cry that the American workman was down- I answer yes to all the questions, trodden and oppressed found a ready response in every heart, because such was the case. But times and conditions have changed until now the work- paigned the county for that issue. man in most instances has the best of it. Many enterprises are being forced out of existence simply because legislation that might well be termed freak of intoxicating liquors it should be unlegislation has been enacted that has made it impossible for employers to meet lawful to ship liquor into that terri-

The Man Who Drives The Plow

Is the most independent of all workers. He is his own manager. His acres are his kingdom. But to be independent means that he must take care of himself. It is his duty to himself and those depending on him to make his welfare secure. There is only one sure way of doing this and that is by keeping a bank account. Whenever you make a sale from the products of your farm, come and deposit the proceeds with us. Then you can pay all your bills with checks and need never worry about the safety of your money or the danger of paying a bill twice through lack of

The Bank of Oregon City OLDEST BANK IN CLACKAMAS COUNTY

the demands made upon them by the laws of the land. This conditions i ow beginning to be felt in a determined way to the employed as well as the employer for the reason that whenever conditions are not such that business can be conducted at a reasonable profit it will stop, and without an employer there cannot be an employee. So it is like killing the goose that lays the golden egg to legislate in such a manner that capital will not invest in enterprises. President William Sproule, of the Southern Pacific Co., in an interview to the press the other day said on this subject: "There are no hopes of a betterment of business conditions unless public opinion completely changes. My hope and belief is that the growth of this country backed by a sense of fair play, possessed by the American people whenever they are awake to the situation, will suffice to overcome the mistakes and interferences that hinder not only our business but nearly all kinds of business in this country. We need to open the factories and the mills and get the people back to work. We should stop the foolish theory that prosperous business is somehow pernicous and polished education. Recently he was interviewed and the conver- to the state. It is a childish fallacy that is dragging us into hard times,"-Amity Standard.

> TENTH THE OPENING of the Oregon-dry campaign in Clacks 416 mas county at Canby Sunday, what promises to be one of the warmest and cleanest fights waged here in years was begun. With in organization complete and compact in every regard, the drys present a determined front to the efforts of the liquor interests who are organizing to \$100. conduct a campaign along lines new for them.

The general campaign in Clackamas county is under the committee of twelve which represents the combined dry forces of the county. Both men and women, representing every section and under the skilled guidance of Grossmiller and Jacob Grossmiller, Jr., George C. Brownell, are on the committee and they are the leaders in their espective lines of endeavor. Under the general committee comes the pre-ridian; \$10. inct committees which will do the individual work of the campaign. These ommittees will be carefully picked by the chairman of the general committee with the advice of the leaders in the precinct in which they will work. FIGHAT AN IMPROVED ROAD will increase vastly the productive. Meetings will be held in every section which will be worked up by the precinct Riverside; \$10 ness of the area through which it runs has now been satisfactorily committees. The campaign will be largely personal in nature, the committee demonstrated by studies conducted by the United States Department of twelve relying to a great extent on a house to house canvas of

But the organization of the campaign as thoroughly and as completely as ing, however, is the increase shown in the quantity of the dairy products. anti-liquor feeling there. She said that she would leave housekeeping with

The greatest enemy of the dry workers is apathy. If the committee In addition to this increase in quantity the cost of hauling each ton of of twelve and the organization back of it can overcome the laziness of the voters, it is almost certain that the county will return a majority for the Methodist church, is acre in tract No. "all the wets were organized and would turn out to vote" are only too true.

> AM HILL, good roads expert of national if not international note, and Matthes, 160 acres in section 22, town president of the Pacific Highway association, was severely criticised by the convention of the Tri-State Good Roads association in Medford Monday. The 100 delegates accused the veteran good roads man of attempting to boss the highway association and to change the route of the road lalla; \$10. from the Willamette valley to eastern Oregon.

Because of the action of the voters of Clackamas and Marion counties in Peach Cove; \$10. turning down the good road bond issue, Sam Hill believes that it is almost mpossible for the present route of the Pacific highway to be made into a first class thoroughfare, and suggests that it be changed to go through the eastern ridian: \$10.

If such a suggestion as Mr. Hill has made were carried out, the Willamette valley would receive its just dues. The delegates from the Willamette valley at the Medford convention must surely realize that it is the fault of THERE IS TO BE at least a temporary and a partial release from the their own community that the suggestion was made by Mr. Hill and probgrip of hard times on the country. The harvesting of a great wheat It should not be the business of the convention to criticise Mr. Hill, but to \$10 work to regain some of the ground lost at recent bond elections.
