There are paths for the stroller, winding up the side hill. And an appetite for breakfast, we augmented with will.

With our gaunt stomachs aching for O back to the Camp we cry, a bee-line for the grill.

These pathways pressed by many dear feet—some have gone Naught remains but a memory sweet Our circle is broken—Fathers gone to that land,

He is camping with Jesus on that bright golden strand, And when we have entered those beautiful gates,

And been waited 'er the eternal seas, will we ever look back To the dear lonely camp 'Neath the shade of those beautiful trees.

PORTLAND MARKETS SHOW STIFF RISE

PORTLAND, Ore., Aug. 12.—A rather stiff advance has been forced in the price of meat products in the local market. Hog products are principally affected, the advance for the day amounting to about 1c a pound in most lines.

The advance in pork products is due principally to the sharp rise in the price of hogs all over the country, and further advances may be expected unless the present movement of swine on foot subsides.

The provision market is a very firm affair these days," says Fred Danielson, head of the local house of Frye. The trouble in Europe is having a direct effect upon the price of swine products in the east, which in turn is affecting the market in the Pacific northwest, and in fact throughout the country."
