STAFFORD

Tuesday, March 2, was a great day for Stafford school.

Five of the surrounding schools met at 1 p. m. on that day at the school house and all went down before the Stafford spellers in the try-out for the championship. Sabra Nuussbaum, in the fifth grade and Bertha Moser in the eighth came out with flying colors. The encouragement of correct spelling is a move in the right direction, as country pupils who finish their education at the eighth grade, as a majority do, are not able after a year or two to spell simple words correctly, or to read aloud understandingly, that is in eight cases out of ten.

The school house was full of scholars and interested parents, and Superintendent Calvan pronounced the words to the eighth grade, and Supervisor Vedder to the fifth. Everything that serves to keep up the interest of a school, even class colors, are a help and an inspiration to the scholars.

CLACKAMAS

Having served as correspondent for the Enterprise for about twenty-five years, circumstances compel me to relinquish the position to another who "loves the work." As we recall the first "batch" of items sent in, it is interesting to note the changes in the life of the paper, in the history of Oregon City, and the progress of events in the country around about. To sum it up your correspondent has lived to vote, and to know that in the near future Oregon City will have pure drinking water to offer her visitors, and no saloons. With confidence and loyalty we write the parting word, and yield our pen to our able and worthy successor, the new correspondent from Clackamas.

In this vicinity farmers are busy beginning spring work in field and garden. A number are making a specialty of raising early products for the public market.

**Was Used As Shop Since 1864**

A two-story frame building standing on the corner of Main and Fifth streets, that has been used continuously for a meat market since 1864 according to records found the first of this week, was vacated Wednesday night by H. W. Strebig, who is moving his shop to a new location on the corner of Sixth and Main streets.

While preparing to move, Mr. Strebig found a cash book bearing the date 1864 and filled out by Charles Al-

bright Sr. From the control of Mr. Albright Sr. the market went to his son who after several years run the business under the name of Albright & Logus. Strebig gained control in 1907. The building is the property of the Logus estate.

The building is one of the oldest in the city and has been in its time one of the best buildings here. It will date 1864 and filled out by Charles Al-

**OREGON HOP MARKET HAS GREAT STRENGTH**

PORTLAND, Ore., Mar. 9.—(Local) strength is showing in the additional hop market situation, but trade is rather dull. While 15c is being freely offered for the best spot hops remaining in the Willamette valley, growers are not disposed to let go of small remaining supplies at this price.

Domestic demand is somewhat better and it is now stated that practically all the inquiries coming for both spots and contracts are for home interests.

Interest in 1915 contracts is greater with offers ruling generally at 13 to 12½c, with an occasional offer for something extra select as high as 14c a pound. Growers have much finer ideas regarding the future of the hop market since the recent uplift in values and dealers report little offering in the contract trade.

While foreign interests are still keen in the hop market, the lack of transportation to Europe is holding back any sales that might possibly be made in that direction. As soon as the embargo against shipments is removed it is quite possible that further liberal business will be available.

**CANBY BOY SCOUTS ENTERTAIN PARENTS**

The Canby patrol of Boy Scouts, numbering 12 members, entertained their parents at Canby Tuesday night. The scouts went through their various drills and exercises which were witnessed by about a hundred persons. Another patrol will probably be formed in the near future. Vincent St. John is the scout master.

"A number of farmers," says the Brownsville Times, "have indorsed the Times' suggestion that Brownsville adopt the Albany idea and hold a sales day. The farmers seem to like the idea."

**WINTER DOUBLES WORK**

In summer the work of eliminating poisons and acids from the blood is helped by perspiration. In cold weather, with little out door work or exercise to cause sweating, the kidneys have to do double work. Foley Kidney Pills help overworked weak and diseased kidneys to filter and cast out of the blood the waste matter that causes pains in sides or back, rheumatism, lumbago, stiffness of joints, sore muscles and other ills resulting from improper elimination.
