

EITEL AND CREW INTERNED UNTIL THE END OF WAR

RELIEF EXPECTED BY CAPTAIN THRIERICHENS FAILS TO COME IN TIME.

OFFICERS AND CREW DOWNCAST AS PLAN FOR DASH IS DROPPED

Regards for Lives of Crew Alone Keeps Commander from Challenging Superior Force at Harbor's Mouth.

NEWPORT NEWS, Va., April 7.—Commander Max Thierichens of the German auxiliary cruiser Prinz Eitel Friedrich, asked the United States government, through port authorities here tonight, to intern his ship and crew.

Up to the last moment the German skipper kept up the appearance of being ready for a dash to the sea, and when the time for decision finally came he explained that failure of "expected relief" to arrive had made it necessary to intern rather than "deliver crew and ship to fruitless and certain destruction by British and French warships waiting off the Virginia Capes."

Tomorrow the commerce raider will make her last cruise of the war. She will be taken to the Norfolk navy-yard, across Hampton Roads from the shipyard here, where she has been laid since limping into port on March 10 after the remarkable commerce-destraining voyage from the Orient, during which she sent the American ship William P. Frye to the bottom.

MRS. ETHEL MACKENZIE SEEKS CITIZENSHIP

SAN FRANCISCO, Cal., April 6.—Mrs. Ethel C. Mackenzie, of San Francisco, the champion of American women who, like herself, have been declared expatriated by marriage with foreign husbands, began today her fight for citizenship in the United States supreme court.

In the decision which will be rendered in her case hinges the fate of some of America's foremost suffragettes and leaders of the new feminist movement. The decision in its ultimate effect, attorneys declare, will be as far-reaching and historic as the famous Dred Scott case, which every schoolboy knows was one of the causes of the Civil war.

PINCHOT EXPELLED WASHINGTON, April 5.—Clifford Pinchot, according to advices to the state department, reached Antwerp, Belgium, but was not permitted to proceed further in his work as member of the American relief commission in Belgium, although detailed as a special diplomatic agent of the American government.

EXHAUSTION WILL END WAR, HE BELIEVES

DR. DAVID STARR JORDAN ANNOUNCES RESULT OF LONG STUDY.

SAN FRANCISCO, Cal., April 6.—Complete exhaustion of all belligerent powers will end the war and bring about the downfall of militarism within five months. This was the prediction today of Dr. David Starr Jordan, chancellor of Stanford university, in an address before the Social Progress congress in the civic auditorium here today.

Dr. Jordan believes that the net result of the conflict will be the neutralization of Constantinople and the Dardanelles, an effort to restore Belgium and guarantee its neutrality, the giving of autonomy to Armenia, Alsace-Lorraine and Finland and the neutralization of trade channels so that all use of warships on the high seas will be forbidden by international law.

These tremendous events will not occur at once, according to Dr. Jordan. In fact, the neutralization of trade channels is still a long way off, in his opinion, but he hopes that they will be made neutral "ultimately."

DEMOCRATS URGED TO TAKE UP DRY CAUSE

SECRETARY BRYAN WRITES LETTER TO NATIONAL COMMITTEEMAN IN IOWA.

WASHINGTON, April 7.—Secretary Bryan made public today a letter he had written to L. W. Kennington, Democratic national committeeman from Iowa, expressing the hope that the Democrats of Iowa would take a stand for prohibition and vote against officials who could be controlled by the liquor interests.

In a statement given out with the letter, Mr. Bryan said he hoped to see the Democratic party take the prohibition side wherever the question was raised, and that if the liquor interests insisted on making an issue in the selection of a national committeeman, the people opposed to the liquor traffic could not afford to ignore it.

"I do not know to what extent the liquor question will be an issue in the campaign next year," he added. "At the present time it does not seem probable that it will find a place in the platform of either the Democratic or Republican party, but there is no reason why the national committeemen should not represent the sentiment of the party on this subject as on other subjects."

Mr. Kennington had written Mr. Bryan that his name was being used in behalf of a candidate for the national committee.

\$7000 TAKEN FROM STAGE IN HOLD-UP

BAKER, Or., April 5.—William Halder, alias "Sourdoough Bill," was arrested tonight by Marshal Ed Hanson at Huntington on information from Sheriff Anderson at the Rainbow mine.

BAKER, Or., April 5.—Facing the guns of two masked men, Ralph Moorehouse, driver of the Rainbow Durkee stage, was forced to deliver a gold bullion brick, representing the weekly cleanup at the Rainbow mine valued at about \$7000, to the robbers at 9:30 o'clock today.

The holdup occurred near the Summit mine, about midway between Rainbow and Rye Valley. The stage was bound for Durkee.

According to a report made by Moorehouse to Superintendent Lee, of the Rainbow mine, the robbers mounted horses, after the robbery, and rode at top speed in the direction of Pedro mountain.

REPUBLICAN VICTORY IS SWEEPING IN EAST

WILLIAM HALE THOMPSON IS ELECTED MAYOR WITH 130,000 PLURALITY.

CHICAGO, April 6.—William Hale Thompson was elected mayor of Chicago today by an estimated plurality of 130,000. Returns from 1500 precincts out of 1566 indicated that he had carried the entire Republican city ticket to victory.

Women voted for the first time at a majority election in Chicago and incomplete returns showed that the relative percentages of men and women votes received by Thompson and Robert Switzer, defeated Democrat, were approximately the same.

EMBARGO RIGHT IS NOT ADMITTED BY UNITED STATES

ADMINISTRATION SENDS NOTES TO BOTH LONDON AND PARIS.

SUBMISSION WOULD NOT BE NEUTRAL ACT, SAYS WASHINGTON

Reparation for Losses Already Sustained is Expected—Order-in-Council Described as Violation of Law.

WASHINGTON, April 5.—The United States government today made public its note to Great Britain announcing that it could not "admit" either the right of the allies or their assertions for justification in placing an embargo on all commercial intercourse between Germany and neutral countries.

"To admit it," says the communication, "would be to assume an attitude of unneutrality toward the present enemies of Great Britain, which would be obviously inconsistent with the solemn obligations of this government in the present circumstances, and for Great Britain to make such a claim would be for her to abandon and set at naught the principles for which she has consistently and earnestly contended in other times and circumstances."

The note reviews at length the legal phases of a blockade of belligerent territory and virtual blockade of neutral coasts.

In conclusion the United States asserts its expectation that Great Britain "after having considered" the possibilities of "serious interruption of American trade under the Order-in-Council," will take steps to avoid them and in the event that they should unhappily occur, which under the rules of international law constitutes a violation of neutral rights.

ROAD FROM CHICAGO TO THE SEA IS PLAN

CHATTANOOGA, Tenn., Apr. 2.—The Dixie Highway convention, which is to complete the plans for a magnificent roadway between Chicago and Miami, Fla., opened here today. Reports from all sections of the south through which the Dixie Highway will pass indicate there is a widespread interest, and cooperation seems assured to put the road through to completion.

The big session comes tomorrow, when the governors of Illinois, Indiana, Kentucky, Tennessee, Georgia and Alabama will gather, or send their personal representatives. Business bodies all along the route have sent their representatives to the convention.

The governors will make the final decision as to the route to be selected for the new highway. There are two routes proposed, and the final decision will be the signal for the immediate work on the highway. The proposed highway will not mean the construction of a new roadway, but will mean improvement all along the line to put the continuous roadway in first class shape.

It remains now for the electors of Portland to ratify this action at the regular city election in June.

RATES ON IRON CHANGED WASHINGTON, April 6.—Equalization of freight rates on corrugated galvanized sheet iron from Middletown, Ohio, to Los Angeles and Portland was ordered today by the Interstate Commerce commission. The commission held that the rate of 95 cents per 100 pounds was reasonable, but discriminatory, as it was 85 per cent higher than the rate for plain iron.

RAILROADS SHOW REVENUES WASHINGTON, April 2.—The 92 principal railroads in the country earned a net operating revenue of \$22,802,331 during February, according to a report given out by the interstate commerce commission today. MAJOR LANGHORNE'S RECALL FROM BERLIN DUE TO FALSE MESSAGES

MAJOR LANGHORNE

The real reason why Major Langhorne was recalled from his post as military attaché at Berlin, officials at the Washington war department acknowledge, is that persons in Germany tried to mislead the allies by sending out wireless dispatches in Major Langhorne's name. The major himself was sending all his dispatches to Washington in code, and he informed the war department that they might regard as false all dispatches received over his name which came in plain language. In addition, those perpetrating the attempted fraud made gross blunders in addressing the false dispatches.

The Black Box

(Continued from Page 6.)

"Laura shook her head doubtfully. 'Not so fast,' she advised. 'French is a good sort in his way, but he's prejudiced just now against the boss. I'm not sure that this evidence would go far by itself.'"

"It's evidence enough for us to go to Craig, though! What we have got to do is to get a confession out of him, somehow!"

Laura studied her companion, for a moment, curiously.

"Taking some interest in Mr. Quest, kid, ain't you?"

Lenora looked up. Then her head suddenly sank into her hands. She knew quite well that her secret had escaped her. Laura patted her shoulder.

"That's all right, child," she said soothingly. "Well see him through this, somehow or other."

"Laura," exclaimed Lenora, "we will save Mr. Quest and we will get hold of Craig! I have a plan! Listen!"

\$46,516 IS SENT TO SCHOOL DISTRICTS

County School Superintendent Calavan Wednesday sent out \$46,516, the spring apportionment, for every school district in the county.

The spring apportionment is only \$4 per capita owing to the fact that taxes are slow in coming in. This deficiency will be made up in the October apportionment.

Oregon City district, with over 1600 children of school age, drew \$6408 which exceeds by far the sum received by any other district in the county. The apportionment of the larger districts follows: Milwaukie, \$1656; Canby, \$1528; Oswego, \$1506; Park place, \$1124; West Linn, \$1232; Estacada, \$844; Molalla, \$796; Willamette, \$864; Oak Grove, \$832; and Gladstone, \$1228.

Splendid for Rheumatism. "I think Chamberlain's Liniment is just splendid for rheumatism," writes Mrs. Dunburgh, Eldridge, N. Y. "It has been used by myself and other members of my family time and time again during the past six years and has always given the best of satisfaction."

The quick relief from pain which Chamberlain's Liniment affords is alone worth many times the cost. Obtainable everywhere. (Adv.)

MILWAUKIE WATER INJUNCTION ARGUED

The injunction suit of the Milwaukie Water company against the city of Milwaukie was argued before Circuit Judge Campbell Monday and was taken under advisement by the court.

Judge Campbell decided that the temporary injunction granted by County Judge Anderson could no longer prevent the laying of pipe from the Bull Run mains of the city of Portland to the Clackamas county town.

The city has signed a contract with Portland for a supply of Bull Run water and is preparing to install a system of mains, but the Milwaukie Water company, a private corporation, has attempted to halt the work, this injunction suit being the second. The company based its claim on its franchise with the city which, it is alleged, gives the company the right to sell water for several years to come.

TAX RECORDS SHOW THAT PORTLAND RAILWAY LIGHT & POWER CO. OWNS SIXTH OF THIS COUNTY

The Portland Railway Light & Power company owns one-sixth of the property in Clackamas county subject to taxation, basing the estimate on figures secured in the offices of County Assessor Jack and Treasurer Dunn. The Portland Railway Light & Power company paid one-half of taxes in the county amounting to over \$28,000, just in time to escape the interest charge. The total tax of the company will be about \$137,000. This concern is the largest taxpayer in the county, although its taxes this year are several thousand dollars under the total amount collected by the county a year ago.

The total amount of taxes to be collected in Clackamas county this year are about \$781,000 or slightly less six times the total tax of the Portland Railway Light & Power company. The property of the electric company represents a wide range of holdings, including power sites, rights of way, town lots, rolling stock, dams, generating plants and even one hotel.

The state railway commission has been endeavoring to ascertain the value of real estate holdings of the electric company in this part of Clackamas county. Improvements of every nature are excluded in these estimates but every tract of land in the county is taken into consideration. Three local real estate men, who are considered authorities on the values of Clackamas county land, were consulted. F. H. Madison placed the total value of properties of the company in this part of the county, excluding improvements of every nature, at \$23,000; A. C. Howland, at \$11,490, and J. P. Clark at \$78,330. The estimates are considered low by Assessor Jack who has given the figures brief study. The estimates made by the railway commission are based on the Coldwell map and cannot be easily compared with the assessments but it is evident that in several places the assessment, which represents 57 per cent of the real value of the property, is not much under the estimates of the railway commission. The value of power holding are not taken into consideration in the commission's estimate.

ROBERTSON SUCCEEDS MURRAY AS CHIEF OF BRITISH ARMY STAFF

Major General Sir W.R. Robertson

LONDON, April 5.—Major General Sir William Robertson, now serving as quartermaster general on the staff of Field Marshal Sir John French, with temporary rank of lieutenant general, has been promoted to be the chief of the imperial general staff to succeed Major General Sir Archibald Murray. No explanation is given why General Murray is to be succeeded by General Robertson. Twice in the present war General Murray has been mentioned in reports. In September General French spoke of him as having been one of those who had "worked day and night unceasingly with the utmost skill, self-sacrifice and devotion."

CATTLE SITUATION STEADY IN PORTLAND

The receipts for the week at the Portland Union Stock Yards have been: Cattle, 2007, calves, 14; hogs, 1863; sheep, 2599.

Cattle situation remains steady after Monday's large run at slightly reduced quotations. One of the largest events of late was the Shorthorn sale Tuesday, one hundred splendid bred animals being disposed of from the leading breeders of the west.

Good hogs found a ready market at advanced prices this week. Tops jumped from \$7.40, last week's price, to \$7.55 the first part of this week. Market at close of week, \$7.40.

Lambs spring the market a quarter this week, ewes and wethers duplicating. Several nice loads of Easter milk lambs brought \$12.50. Lambs are quoted at \$9.25; ewes at \$7.00 and wethers at \$8. Demand good.

STATE HOP MARKET SHOWS QUIET TONE

PORTLAND, Or., April 5.—The extreme stagnation in the hop trade throughout the world is causing much apprehension among dealers, as well as growers generally. The continued rapid spread of prohibition is having its effect upon the situation, and the outlook for the future is far from bright, so far as values are concerned.

With the prohibition territory increasing, in addition to the general stagnation in business generally, brewing interests are naturally not inclined to stock up with hops. Most of them have already purchased their requirements for the immediate future, and for that reason are at present out of the market.

In the face of these bearish facts, there has been a heavy increase in the Oregon and Washington acreage during the last two years. The major portion of this acreage will come into full bearing the coming season, and this is causing fore forecasts on the part of the trade that values will drop to an unusually low record. There is at this time evidently no desire on the part of consuming interests to contract hops at this time for future delivery. Everyone is waiting to see what will happen.

The Plantagenets. A flowering English shrub, the broom plant, is called in French "plantagenet." From it the kingly family of Plantagenet took its name. It is said to have been first used as a badge by them because the Count of Anjou had himself scoured with its branches. The name was taken by Henry II, king of England, in 1154, he being the son of Geoffrey of Anjou, who wore in his helm a spray of the broom when he started for the Holy Land. The best known of the Plantagenets was Richard I, king of England, called "the Lion Heart."

Very Queer. "My husband has been out late every evening this week, attending important club meetings." "Yes, so has mine. They belong to the same club, you know." "Why, how queer! My husband says he hasn't seen your husband in six months!"—Cleveland Leader.

Taking Care of the Children. No parent would consciously be careless of the children. Joe A. Rozmarin, Clarkson, Neb., uses Foley's Honey and Tar for his two children for croup, coughs and colds. He says, "We are never without Foley's Honey and Tar in the house." A distressing cough, sleepless nights, and raw, inflamed throat lead to a run-down condition in which the child is not able to resist contagious or infectious diseases. Foley's Honey and Tar is truly healing and prompt in action. Jones Drug Co. (Adv.)

ITALIAN SHIP SUNK BY GERMAN TORPEDO

GENOA, Italy, via Paris, April 5.—A German submarine has sunk the Italian steamer Luigi Parodi, which left Baltimore January 22 with a cargo of coal for Genoa, according to word received here today. The report has caused a profound impression here, and there are many expressions of resentment.

Great excitement prevails and the authorities have taken strong measures to protect the Germany colony and German ships from reprisals. Nothing is known as to the fate of the crew of the Luigi Parodi, which was made up entirely of Genoese.

BAKER PUPILS FACE SENTENCE FOR PRANK

BAKER, Or., April 1.—Several high school students face probable severe punishment, as the result of deprecations committed last night, when they entered the high school, turned the building topsy turvy, and destroyed reports, smeared printer's ink on doors, desks and pianos and did other damage.

The escapade followed trouble at the Y. M. C. A. in which the same boys were involved, when billiard tables, pianos and other furniture were damaged. The school and Y. M. C. A. authorities promise expulsion at once, while the city authorities, to break up the practice, will also inflict a penalty.

U. S. SOLDIER SHOT IN RIOTS AT COLON

COLON, April 2.—Corporal Langdon, of the United States Coast Artillery, was shot and killed and three other American soldiers were wounded, one of them seriously, in a riot here today. The soldiers were engaged in patrol duty in the tenderloin district. The shooting, which resulted in a general fight, was the outgrowth of an argument between a soldier, who is alleged to have been drinking, and a Panama policeman.

Many shots were fired by the Panama police, the civilians and soldiers all being unarmed. Brigadier-General Clarence R. Edwards, commander of the American forces in the canal zone, who is here to meet Major-General Leonard Wood, commander of the department of the east, tomorrow, immediately took charge and ordered all soldiers from the street.

The operations off Smyrna were begun on March 5 under the direction of the commander in chief, East Indies, Vice Admiral Sir Richard H. Peirse, who arrived with a squadron of battleships and cruisers. A methodical bombardment of Port Yenikale was carried out during the afternoon for two hours in favorable conditions of weather. Thirty-two hits were secured, inflicting considerable damage on the fort, and there were two heavy explosions, apparently of magazines. The Euryalus, which flew the flag of the vice admiral, shot with remarkable accuracy from her after 9.2 inch guns. Fire was not returned. The bombardment at closer range then began, the weather at conditions being good. The reduction of the Smyrna defenses is considered a necessary incident in the main operations.
