You Can't Get Blood Out of a Turnip

Neither can you get your moneys worth out of a binder that hasn't had it hammered and built into it at the factory. A good way to find out about a binder is to look it over carefully and see if it measures up to your idea of what the machine should be. Another good way is to ask those who have used the machines. If we didn't have the fullest confidence in our machine we wouldn't advise you to do this but as it is we will be mighty well pleased if you will ask every person you know who owns a Champion Binder, how he likes it.

THE CHAMPION BINDER like all Champion Machines is built upon the "quality first" policy and then it, also has some very important advantages, for instance it's positive force feed elevator which insures a continuous flow of grain to the picker arms. The Relief Rake which prevents bunching at the inner end of the platform. The Champion also has many other good strong features which we will gladly show you if you will call on us.

AN OREGON CITY CITIZEN COMES TO THE FRONT

Tells His Friends and Neighbors Of His Experience. Every Oregon City resident should read what a neighbor says. His testimony can be relied upon. Here are his own words: Joseph McDermott, Washington St., Oregon City, says: "I was almost flat on my back with kidney and bladder trouble. I was so lame and stiff that I could hardly hobble around and it was all I could do to get up in the morning. My kidneys were irregular in action and the secretions were scanty. I used several boxes of Doan's Kidney Pills and I soon got well." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McDermott had.
