

Robbers Overlook Valuables; Guns, Clothing Taken

ANOTHER DAY-LIGHT ROBBERY IS COMMITTED IN NORTH. ERN CLACKAMAS.

Overlooking valuable silverware, keys to mailboxes, gold chains and other jewelry, the person who broke into the home of Mr. and Mrs. A. J. Brown at Rubert station Tuesday afternoon, took only a pair of black trousers and two revolvers. The crime adds to the already long list of day-light robberies in the northern part of the county along the tracks of the Interurban.

Mr. and Mrs. Brown left their home at 12:20 o'clock Tuesday afternoon and returned about 5 o'clock that afternoon. They found their trunks opened, drawers pulled from the bureau and clothing scattered over the floor. Sheriff Wilson was notified and with Deputy Frost left soon after for Rubert station, but on trace of the robber or robbers was found.

Mr. Brown said that as he left the house he saw two suspicious looking men in the neighborhood and Mrs. Brown is of the opinion the crime can be traced to Italians employed by the Portland Gas & Coke company who are working near the place.

Sheriff Wilson is working on the theory that boys entered the house and that probably the same persons are responsible for his robbery as the other crimes of this nature in the same community during the last few months. Brown is a mailcarrier.

Winchester Bay is a new townsite near Gardiner.

PREMIER SALANDRA, ADVOCATE OF WAR, RETAINED IN CABINET

PREMIER SALANDRA

ROME, May 27.—News that the Salandra ministry was to be retained swept over Italy and united all factions in a great cry for war. The one call was for Salandra, the war advocate, and his ministers. The fact that King Victor Emmanuel had accepted Premier Salandra was taken as proof that he had come at last to favor intervention and had given his consent to mobilization. A demonstration such as Rome has not seen since the days of the revolution began. Contrary to former practices, there was no effort by the police or military to stop the popular enthusiasm and the crowds surged through the city acting very much as if war already had been declared and a great victory won.

CONTROL OF ALPS IS OBJECT OF THE ITALIAN CAMPAIGN

GUNS ON ALTISSIMO MOUNTAIN RULE IMPORTANT LINES OF COMMUNICATION.

HIGH POINTS DOMINATING 3 VALLEES ARE ALSO OCCUPIED

Advance of Austrians is Delayed by Broken Character of Region—Latins Bombard Foe From High Plateau.

ROME via Paris, May 28.—The official reports from the front show that Lieutenant General Cadorna, Italian chief of staff, is attempting to carry out a well-defined movement for the occupation of the important points in the Alps, along the Giudicarie chain of the Lessini mountains, the Sugana valley and the Carnic Alps.

This maneuver, if accomplished, would place the Italians in an advantageous position to meet the Austrians if they undertake any serious attack for the purpose of invading Italy. It would also permit the Italians to choose their own time and place for making an attempt to force the mountain passes and penetrate farther into Austria.

The occupation of Altitissimo mountain, which is 6790 feet high, is regarded as the most important achievement in carrying out this plan. This is the highest peak of the Baldo range, which extends for 25 miles on the eastern side of Lake Garda. Occupation of Altitissimo mountain means the domination of three important Austrian centers of communication with the Province of Trent.

The first is Ala, from which point starts the railway leading to Rovereto and Trento. The second is Mori, the starting point of the narrow-gauge railway to Riva. The third is Riva, which is seven miles distant to a direct line.

Altitissimo dominates the entire portion of Lake Garda in Austrian territory. Possession of this mountain, together with Montecorno, the Baffean mountains and the Settecolori Peak places the whole Rovereto district under the domination of Italian guns. Moreover, the Agrarina valley, through which runs the Adige river; the Valbona, Ronchi and Arsa valley are also entirely under control of the Italian positions.

From the high plateau, north of Schio, Italian artillery has bombarded Austrian positions from five to seven miles distant, inflicting severe losses on their opponents. In the Carnal district the Italians dominate the Dogna valley.

M. D. LATOURETTE ELECTED MEMBER OF WATER BOARD

IMPORTANT MATTERS RAILROAD BY COUNCIL AFTER LONG EXECUTIVE SESSION.

ORDINANCE CLOSING POOLHALLS ON SUNDAY READ FIRST TIME

Albright and Templeton Alone Take Open Stand for Poolhalls When Vote is Taken at Open Meeting Wednesday Night.

Two of the most important pieces of municipal legislation of the month, the election of M. D. Latourette, a member of the board of water commissioners and the passage of the ordinance closing the poolhalls on Sunday, slipped through the council at 11 o'clock Wednesday night in five minutes following an executive session that lasted an hour and 50 minutes.

After disposing of several more or less routine matters, the council at about 9 o'clock left the council chamber for one of the committee rooms of the city hall and discussed the naming of a water commissioner and the poolhall ordinance. At 10:50 they returned railroaded through the two matters and at 11 o'clock left the building. The water commissioner was named and the poolhall ordinance passed with practically no discussion.

The first intimation that there would be opposition to the poolhall ordinance was made when the ordinance was read by Recorder Loder and Councilman Templeton made a motion to lay it on the table. Albright seconded the motion, but it was defeated. It was at that point that suggestion was made that the council retire for deliberation behind closed doors.

The poolhall ordinance caused considerable discussion at the executive session. A vote showed that the council stood 5 to 4 for adopting the ordinance with it, it is said. Metzner, Albright, Long and Templeton voting against the measure. Later when the final vote was taken at the open meeting of the council, neither Metzner or Long voted, the latter being absent.

Opposition developed when the council returned from the executive session. Andrews moved that it be read first time. Templeton moved that it be laid on the table and the motion was seconded by Albright. Cox, Van Alken, Andrews, Meyer and Hackett voted for the adoption of the ordinance. Long was excused a few minutes before a vote was taken, Metzner did not vote and Albright and Templeton voted against the ordinance.

The election of Mr. Latourette, a member of the board of water commissioners was unanimous, although it is understood that the vote for Mr. Latourette at the executive session of the council was 5 to 4. Mr. Latourette is considered unusually well fit for the place owing to the fact that he is a member of the South Fork Water commission. He will step into his new office the first meeting next month, taking the place of J. E. Hedges. J. E. Hedges and J. E. Jack were nominated in the executive session.

An ordinance calling for the improvement of Main street was read the second time and passed with a unanimous vote. The recorder was instructed to advertise for bids.

After waiting all evening, T. L. Charman, representing the Main street property owners began to explain the proposition offered for the cluster lights on Main street. The council asked Mr. Charman and his committee to appear again Friday night and explain his offer. Mr. Templeton said that it should not take the council long to decide on such a proposition but Mayor Jones answered that, at least, the committee should be given a hearing.
