**AUSTRIAN BORDER** IS BEST GUARDED

Frontier Bristles With Powerful Modern Fortifications.

ITALY CONTROLS PASSES.

Military Experts Watch With Interest First Steps Italian Army is Taking In Effort to invade Austria, a Task Which They Regard se Hard as Crossing Rhine.

Military experts are watching keenly the first steps of Italy to effect an invasion of Austria. No situation in the war has been fraught with greater in-

It is generally conceded by the experts that the double chain of border fortifications between Austria and Italy are stronger on the Austrian than the Italian eide. Military men believe that Italy's task in breaking into Austria is even hurder than that of crossing the Rhine

The fortification system of Austria Hungary along the Italian frontier was Prominent men, who are fiddlers planned with a view to frustrate from all parts of the country attended Italy's attempt to invade the Trentino. the object of her national desires, and to guard against a possible offensive movement of great magnitude along Owing to the inadequate railroad fa- shown D. A. Thomas, one of the the Villach-Tarvis route through the tary circles that Austrian fortifications are more modern and strategically better located than the Italian fortifica- Charleston and, the promoters say,

Austria Controls Highlands. Austria practically has control of the highlands and the mountainous territory along the entire Italian frontier Italy has possession of the lowland ter-

The fortifications on the Italian line are so located that they control the passes and all possible lines of invasion which lead from Tyrol and Carinthis into Italy and also protect the left flank of the army, concentrated on the Venetian plains. But the terrain of Italy's northern border offers a favorable opportunity for Austro-Hungarian troops to attack the flank and the rear of the Italian offensive movement to-

ward Tyrol and Carinthia. To counteract this all passes between the Isongo and the Stiffser-Joch are been completed at Poste-di-Legno.

Several groups of fortifications guard the territory between the Adige valley Oregon spent on her exhibit and Calvary mountain and block all approaches into the Astico, Brenta and concentration point for an offensive movement against southern Tyrol.

Casemates Hewn In Rock.

The fortress of Agordo, towering on d'Ampezzo and the Fiera di Primiero to the military concentration points in the Cordevole valley, at Reliune Felfre. It consists of long range batteries and casemates hewn into the rock.

valley, important road concentration, is protected by modern batteries situated on top of a rock 100 meters high, surrounded by a concrete rampart. There are no per manent fortifications east of the Tag Hamento.

The nature of the Italian fortifica tions is partly a blockade defense, with defensive character-like Rocca d'Anso, Val Leogra and Agordo-and partly a protection for specified concentration points for offensive preparations, such Ennett, aged 70, a prominent resident as Arslero, Asiago, Primolano, Fastro here and Civil war veteran, is dead of and Lamon.
