STAFFORD

Mr. and Mrs. Gage, accompanied by their son, John, who drove the car, returned to Stafford on Thursday, June 10, after a month's stay at Nestucca and other parts of Tillamook county. They found the road over the mountains better than expected. They were stalled in a mud hole only twice, then just beyond Sherwood, coming down a hill found a very bad four or five rods, three cars going one way, and four the other, all stuck in the mud. Ladies and children all out by the side of the road, and one said, "How are we ever to get up that awful hill and we've all got our best shoes on, and no rubbers?"

With all the stops and set-backs the trip was made in ten and one-half hours, a distance of 87 miles by the speedometer. Arriving at home we found some changes, school had closed with a very successful basket social, first Albert, then Will Ellegesen, cousins, had got married, had a charivari, and settled down. Grace and Otto Pompernie were the happy parents of a baby boy, and Mr. Barstow and Mrs. Anna Metcher Schulpus had died and were buried in the family lots in Stafford cemetery, both having died in Portland. You Can't Get Blood Out of a Turnip

Neither can you get your moneys worth out of a binder that hasn't had it hammered and built into it at the factory. A good way to find out about a binder is to look it over carefully and see if it measures up to your idea of what the machine should be. Another good way is to ask those who have used the machines. If we didn't have the fullest confidence in our machine we wouldn't advise you to do this but as it is we will be mighty well pleased if you will ask every person you know who owns a Champion Binder, how he likes it.

THE CHAMPION BINDER
