case, it has become apparent that a conference to consider the various aspects of the matter is desirable. The supreme court, in effect, has placed the method of disposition of the reof congress. Naturally, congress will se interested in knowing the desires of the people of Oregon; unit if these desires are expressed after a more or ices official deliberation, it is fair to believe that such expression will have weight at Washington.

Therefore, as the matter is of vital interest and importance to all Oregonians, it seems fitting for me to call a conference to discuss the various phases of the question, and, if possible, to evolve some definite plan of action. ### Profit-Sharing with Retail Buyers

On August 1, 1914, we made the announcement that if we could make and sell at retail 300,000 Ford cars between August 1, 1914, and August 1, 1915, we would share profits with the retail purchasers, to the extent of from \$40 to \$60 on each car. We have sold over 300,000 Ford cars in the time specified, and profit, sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars delivered during August, September and October, 1915.
