DAMASCUS GRANGE HEARS W. H. H. DUFUR

PORTLAND MAN OUTLINES PLAN OF RAISING CHEAP MONEY FOR FARMERS.

DAMASCUS, Or., Sept. 6.—Damasus grange, Patrons of Husbandry, adopted resolutions yesterday unanimously endorsing rural credits and the system as proposed by W. H. H. Dufur, of Portland, in his address on the subject. Mr. Dufur talked to one of the largest gatherings of farmers ever assembled in this section of the state, and gave a comprehensive outline of rural credits and what such credits would mean to the farmers of the nation, by lowering the present "exorbitant rate" of interest he must pay on money used for development.

Mr. Dufur declared that the farmers of the United States can never hope for that degree of prosperity to which they are entitled while they must pay from 7 to 10 per cent for the use of money, but that a rural credit system, that will protect the country and put money into the hands of the farmer at from 3 to 4 per cent, will bring prosperity to the farmers of this nation and increase the cultivated area of this country to many times what it is at present.

Mr. Dufur's plan, as outlined in his address here today and approved by the State Grange of Oregon, is a system based on non-interest-bearing bonds issued by the state, to be authorized by a majority vote, to the federal government for whatever sum may be needed. The federal government, according to this plan, is to take these bonds at 2 per cent discount, and issue currency to the state land board. This puts the money to be loaned the farmers in the hands of the state land board, said Mr. Dufur.

"This or any other plan for rural credits will not come easy," declared Mr. Dufur, "and it will require the united efforts of all the farmers of this and other states to procure any rural credit system. The many measures that have been passed by congress are not, in my judgment, intended to establish rural credits in this country. They are all cumbersome and unworkable practically, and intended to defeat the establishment of any rural credit system. It will require the co-operation of all the farmers of this country to procure relief from the high rate of interest the farmers are paying, which of itself is ruinous.

"We cannot hope for the development of the uncultivated lands of Oregon as long as the farmer must pay from 7 to 10 per cent interest. So it is up to the grange and the farmers to unite and demand relief and they will get a rural credit system."

The resolutions endorsed the plan suggested and urged all other granges in the state to take similar action. The visitors were served with a dinner. Grange Master Dallas presided.

CHERRYVILLE HOTEL BURNED TO GROUND

SANDY, Ore., Sept. 2.—The Cherryville hotel and store building on the Mount Hood automobile road was destroyed by fire yesterday morning, causing a loss of about \$1500, on which there is an insurance of \$800. J. T. Friel was owner of the property. The fire started in the kitchen. Mrs. Friel discovered it but was unable to check the blaze. Neighbors saved a few articles. The building was a landmark on the road.

A line of automobiles is carrying supplies from Boring through here to the forest fire fighters.

Worth Their Weight in Gold. "I have used Chamberlain's Tablets and found them to be just as represented, a quick relief for headaches, dizzy spells and other symptoms denoting a torpid liver and a disordered condition of the digestive organs. They are worth their weight in gold." writes Miss Clara A. Drieger, Elba, N. Y. Obtainable everywhere. (Adv.)

STAFFORD.

Hop-picking is in full swing with some farms already finished. Rather a poor yield in general as the mould and heavy dew had appeared, although some were better than had been expected.

Mrs. Nemic has not as yet returned from Nebraska, where she went two weeks ago in response to a telegram telling her of the serious illness of her mother.

The members of the Ladies' Circle met in response to telephone calls on Friday at the home of Mrs. VanNorthwick and sewed all day for a member whose family has been having a case of smallpox. The four children having had it first then the husband and father, the latter having had it in the regular old-fashioned way, and is just able to be up at the present writing. They are living on the old Hayes place, now owned by Judge Hayes of Oregon City, and what the neighbors cannot understand is that the place has never been quarantined and the county health officer has never been to see them. Perhaps the doctors got so used to not reporting contagious diseases to Dr. Van Brakle that they forgot even now, but since strangers have frequently come to the door to try to purchase supplies and surely no one wants to run the risk of having smallpox as bad as Mr. Oldham has had it for the last three weeks, and we would respectfully suggest that the health officer at least attend to the faithful fumigation of the premises. A number of families have had a similar breaking out and no officer paid any attention to them, and the query has been propounded, "What do we say an officer for, if we get no protection?"

Mr. Gage is still improving slowly. He took a ride Saturday as far as Wilsonville, his son John driving the machine.

Fires are to be seen in the district every evening, and the atmosphere is smoky, but no fires near at hand.
