BOARD SANCTIONS PLAN OF MRS. WILCOX—SERVICE MUST BE SELF-SUPPORTING.

Students at the Oregon City high school, who in the past have brought lunches from home, will in the future have an opportunity to buy a warm lunch for 5 cents from Mrs. Wilcox, who Thursday night secured the consent of the school board to sell nickle luncheons in the building. The only provision made by the school board was that the plan must be self-supporting—the district will not spend money to aid her. The luncheons will be served with the co-operation of the domestic science department of the school. Similar nickle lunch services have been established at other schools throughout the state. Many tuition students who live at a distance from the school are expected to take advantage of the plan.

HUNT DECLINES ROAD JOB ANOTHER YEAR

PIONEER GARFIELD GOOD ROADS BUILDER WILL DEVOTE ALL HIS TIME TO FARM.

Gay T. Hunt, pioneer Garfield road builder, representative in the legislature and generally prominent east Clackamas citizen, will not be road supervisor during 1916 for the very good reason that, while offered the job, he does not want it. Mr. Hunt finds that his farm and other private interests made a strong demand for his time and that he could not be supervisor again without sacrificing either his personal interests or his job as road builder. It is through Mr. Hunt's tireless efforts that the Garfield district has its good roads. Ralph Lemon was elected supervisor at a district meeting held the other day, after Mr. Hunt had positively refused to accept the post another year. A 10-mill special tax was levied in the district. The Etacada Progress make the following summary of east Clackamas road district meetings: In district No. 10, Lower Garfield, Supervisor Charles Duncan was retained unanimously and a 7-mill tax voted. Albert Kitching was again elected to act as supervisor in the Currieville, district No. 4, which voted a 3-mill tax. The road builders of George, not contented to have their main Etacada road remain ungravelled, voted an 8 1/2 mill tax and insisted that Fred Linn retain the supervisorship. The Viola district voted 5 mills and will continue their work under the supervision of George Hively, the present supervisor. The Springwater road builders will have to continue to take their orders from Frank Millard as supervisors and with him in charge, gladly voted a 5 mill tax. The city of Etacada, with a vote of 26 to 6 declared themselves in favor of a 5 mill excess tax, for the building of a gravelled road on Third street and to help hard surface Broadway between Second and Third streets. In the Elwood district, No. 45, former supervisor Jesse Cox was succeeded by L. P. Elliott and a special tax of 6 1/2 mills voted. The Eagle Creek district, No. 42, retained Alec Baker as supervisor but voted down and proposed special road tax.

SUCCESSFUL TEACHERS TO GET CERTIFICATES

STATE SUPERINTENDENT J. A. CHURCHILL ANNOUNCES PLAN—REQUIREMENTS LISTED.

A plan for giving public recognition to those teachers of the state who have proved themselves to be progressive as well as successful in their work, has been announced by Superintendent of Public Instruction J. A. Churchill. To all teachers who meet the five requirements adopted by the state superintendent there will be given professional teacher's certificates which will certify that the holders have not only taught successfully during the preceding year, but that they are progressive and have shown a proper professional spirit toward their work. The certificate will be issued by the superintendent of public instruction upon the statement of the county superintendent that all of the requirements have been met and that the teacher deserves special recognition of his attainments. While the certificate will in itself not entitle the holder to teach, it will be of great assistance to school boards in helping them to select thoroughly progressive and up-to-date teachers, who have been especially successful in their work. The requirements which must be met for the professional teacher's certificates, are as follows: 1. Having taught successfully for at least eight months during the year 1915-16. 2. Having met all of the requirements of a teacher in a standard school and having complied strictly with the laws relating to fire dangers and fire drills. 3. Having sent promptly to the county superintendent all reports requested by him or required by law. 4. Having attended the annual teacher's institute or teacher's training school, and at least one local institute. 5. Having read during the year, under the supervision of the University of Oregon or the Oregon Agricultural college, at least two books on the teachers' reading circle list.

WETS PLAN ATTACK ON PROHIBITION LAW?

RUMOR IS OUT STEP WILL BE TAKEN SOON TO COMBAT NEW DRY MEASURE.

PORTLAND, Ore., Dec. 8.—It is rumored that saloon interests will seek the invalidation of the prohibition amendment. The rumor has been afloat for a number of days, but has become more persistent since 25 saloon men filed applications for 1916 liquor license renewals in Portland, and attorneys have appeared at the city hall seeking detailed information as to requirements of the model liquor ordinance. Saloon men who have filed applications for license renewals say that they filed with the expectation of maintaining a policy of "watchful waiting." If they know of any defined plan to combat the law they are keeping the facts strictly to themselves. Owners of the Oregon Importing company who made the first application for a 1916 liquor license renewal say that they are "going to take a chance on something happening," and wanted to be on the safe side in case the prohibition amendment does not become effective. Persistent rumors went the rounds yesterday when an attorney appeared at the license bureau in the city hall and stated that before December 25 a check for \$400 for the first six months' license fee for 1916 would be deposited with the city treasurer for a half year's license. This attorney wanted to know of License Clerk Pearce whether the check would be accepted by the city if placed in his hands. Treasurer Adams instructed his deputies to accept no checks for licenses.

Five were admitted to full citizenship Monday and the cases of five other applicants for second papers were held over until February when United States Immigration Inspector Hazzard will be in Oregon City again. The new constitutional amendment providing that only those of foreign birth who had second papers has brought out a large number of men holding only first papers who are now seeking final papers. Several years after the death of the grantee, a patent giving Wesley Joslin, deceased, and his wife, Elizabeth Joslin, title to 203 acres in sections 22 and 23, township 3 south, range 1 east, was filed for record in Clackamas county Friday. The original patent was dated in 1873 and signed by President Grant. It was discovered the patent had never been filed in this county when an abstract of the property was made recently. DEFATED CANDIDATE AT GLADSTONE SAYS VICTOR IS NOT A CITIZEN.

F. E. Goodman, who was defeated for councilman at the city election in Gladstone last Monday, promises to make it warm for Henry W. Strebig, who was a victor over Goodman. The Gladstone council at a meeting Wednesday night, directed the city recorder to issue a certificate of election to Mr. Strebig, along with Councilmen-elect C. W. Parrish and F. A. Burdon, and to Mayor Chambers Howell, Recorder John Sievers and Treasurer Thomas A. Burke, who were re-elected. Goodman questions the citizenship of Councilman-elect Strebig, and filed a protest with the council against the issuance of a certificate of election to Strebig, but the council ignored the protest and ordered a certificate issued on the face of the election returns. Mr. Goodman's only remedy is to go into court, and he has indicated that this is the course he will pursue. Mr. Strebig was not present at the council meeting.

Considerable mystery surrounds the explosion, the pressure in the boilers being only 65 pounds at the time. Twenty-eight workmen were in the building when the explosion occurred, but most of them were fortunately in an opposite end.
