FIRE IN METHODIST CHURCH AT CANBY IS DISCOVERED IN TIME

BLAZE IS PUT OUT WITH CHEMICAL WHILE MANY PERSONS ARE YET IN BUILDING.

While many persons were yet in the Canby Methodist church Sunday night, a fire was discovered in the basement, but put out with the aid of the city chemical apparatus in time to save the structure. The damage probably will not exceed \$100, and is fully covered in insurance.

A hole was cut in a partition in the basement for a stove pipe, and the fire started when the pipe, in contact with the dry wood, became overheated.

The church, which was completed only a few years ago, is of frame construction, and if the fire had secured any headway, it would have been almost impossible to save the structure.
