

Oregon City and Portland Markets

MARKET GOES OFF

UNION STOCK YARDS, Portland, March 25.—There has been a gradual, but nevertheless decided, decline in the top prices paid for hogs at the Portland Union Stock yards, since Monday. While yard officials report the market as steady with \$9.55 the ruling quotation, there is no denying the fact that it is easier. On Tuesday \$9.25 was the best price paid; on Wednesday \$9.20 and up to noon today \$9.10. This is a drop of 25 cents since the opening day and, in reality, is the market top to all appearances. There was little doing in the cattle division and nothing with sheep. Receipts were 50 cattle and 301 hogs, a total of 5 cars.

CATTLE STRONG, HOGS WEAK IN PORTLAND

COWS GO UP DIME AT UNION STOCK YARDS—HOG OFFERINGS POOR.

UNION STOCK YARDS, Portland, Ore., March 24.—Strength is being manifested in the livestock market at the Portland Union Stock yards for cattle, while hogs have weakened. Yesterday some prime grain fed steers sold at \$8.65, the highest price of the season and had fed went at \$8.35. All lines of cattle are higher, cows being up a dime.

The only weakness was in hogs which are a quarter lower with the top at \$9.10. The drop has been occasioned by poor quality offerings.

MARKET FIRST SLOW, THEN PRICES GO UP

CATTLE AND HOGS ARE HIGHER IN PORTLAND UNION STOCK YARDS.

UNION STOCK YARDS, Portland, Ore., March 27.—Cattle and hogs were higher at the Portland Union Stock yards today, as predicted Saturday they would be. Prime grain and pulp fed steers commanded \$8.75, a dime over last week's top while hogs went back to \$9.35, the high point attained a week ago today.

The market was slow in getting started and it was 11 o'clock before buyers got down to business. At the outset there was a fair demand for cattle and prices were lifted, but hogs were sadly neglected. Finally the tide turned, cattle were passed and attention given only to hogs. It was not a difficult thing, once the buyers got underway, to boost the price 25 cents over the top for the last two or three days of last week.

Receipts were 862 cattle, 25 calves, 2009 hogs and 192 sheep, a total of 54 cars.

PRICES AT PORTLAND UNION YARDS STEADY

PRIME CATTLE IN DEMAND AND BEEF OUTLOOK WAS NEVER BETTER THAN NOW.

UNION STOCK YARDS, Portland, Ore., March 29.—The livestock market at the Portland Union Stock yards held steady today. Best hogs continued to bring \$9.25. The run was fairly brisk during the early hours.

Prime cattle are in demand. The outlook in the beef trade was never better than it is now. Prices are the highest ever recorded at the yards and cattle raisers stand to make a splendid cleanup if they can take advantage of conditions now existing. The prediction is made that before long there will be a 9-cent market unless the weather should suddenly become hot, something not looked for. There appears to be a shortage of good beef cattle all over the country. Sheep conditions are unchanged. Shearing has begun and when completed it is expected receipts will be heavy.

SCIO RIVER LAPPING LEVEES TWO FEET FROM TOP AT COLUMBUS.

RAIN STOPS AND CREST MAY NOT REACH TOP OF THE WALL

Steady Caravan Moves Across Bridges With Household Goods to Points of Safety—Repetition of 1913 Disaster is Feared.

COLUMBUS, O., March 27.—Less than two feet of reinforced levees to night were holding the rising water of the Scioto river, preventing a flood which earlier in the day had threatened to equal that of 1913. Thousands of persons moved from their homes to high ground today.

Chances tonight favored a passing of the flood's crest without a breaking in the levees. Cessation of today's downpour in the upper Scioto valley and the coming of slightly colder weather quieted the anxiety of the 30,000 residents of lowlands in this city.

Normal business and school sessions were suspended in the district threatened while residents carried their household furnishings to second stories.

The Fourth regiment, Ohio National Guard tonight was held ready for mobilization if the water breaks the levees, and cuts and blankets were provided in the city hall, statehouse and school buildings, where refugees could spend the night.

Scores of families in the west side of the city, where the 1913 flood took more than 90 lives, moved out of their homes for higher ground today because of a continued rise in the Scioto river. The weather bureau issued a warning that the river would go to 20 feet. The levees were raised to 21 feet after the 1913 flood.

All day long a steady caravan of people carrying household goods, provisions and clothing streamed eastward over the bridges. Refugees this afternoon invaded the state capitol and prepared to spend the night.

DETROIT, Mich., March 27.—Saginaw, Genesee and Bay counties depleted by rain for 48 hours, are food centers to storm-swept Michigan tonight. Much suffering was reported. The loss may be more than \$1,000,000.

KIRKPATRICK'S BODY FOUND NEAR LINNTON

VICTIM OF CANOE ACCIDENT IN FEBRUARY IS WASHED DOWN WILLAMETTE.

The body of Charles Kirkpatrick, of Portland, 22-year-old bank clerk, who with Harry Gammie, paying teller in the Ladd & Tilton bank, was drowned in a canoe accident in the Willamette river of Rock Island five miles south of Oregon City Saturday, February 12, was found floating in the river off Postoffice bar about two miles below Linnton Tuesday.

The body was brought up the river to Portland by the harbor patrol launch and was taken to J. P. Finley & Sons undertaking parlors, and later will be sent to relatives in Los Angeles.

Kirkpatrick lost his life during the freshet of February. He and Gammie were with a party of the Portland Rowing club, canoeing down the Willamette from Salem. The canoe occupied by the two young men turned over when they were off Rock Island.

Help for Bronchial Trouble and Cough

"Foley's Honey and Tar Compound acts more like a food than a medicine."

Mr. Will G. Richmond, Inglewood, Calif., writes: "I wish to recommend Foley's Honey and Tar Compound as it has greatly benefited me for bronchial trouble and cough. It acts so well in harmony with nature that it is more like a food than a medicine."

"Foley's Honey and Tar Compound has a wonderfully quick way of soothing and healing the raw tickling surface of the throat and bronchial tubes. It eases the tightness over the chest, raises the phlegm easily, and helps the stubborn cough that is so exhausting and weakening."

"It is the best medicine you can buy, and better than anything you can make for coughs, colds, spasmodic croup, whooping cough, influenza and bronchitis. It is a most effective remedy for coughs, colds, and stuffy, weedy breathing. It contains no opiates, and is acceptable to the most sensitive stomach."

HIGH COURT PASSES ON DIVORCE ACTION

DECISION ASSERTS T. O. HAGUE NOT ENTITLED TO DECREE HE WON HERE.

SALEM, Ore., March 28.—Holding that T. O. Hague, the plaintiff, and not the defendant, Anna E. Hague, was guilty of desertion and that Hague was not entitled to a divorce, the supreme court today reversed the judgment of Circuit Judge Campbell, of Clackamas county, in favor of Hague. This decision invalidates Hague's marriage to Libetta Blasler in 1912.

Hague obtained a decree of divorce August 7, 1911, in Oregon City, and on October 1, 1914, this decree was expunged and Mrs. Hague was permitted to file an answer. A new trial was had and a decree granted Hague.

The supreme court upholds the action of the lower court in reopening the case in 1914 and scores Hague for not making inquiry so that notice of the action started in 1911 should have reached Mrs. Hague in New York.

"An examination of the depositions of the defendant and most of her children induces the belief that if the plaintiff had made an honest effort he could have ascertained his wife's residence so that the envelope might have been properly addressed," says Chief Justice Moore in the opinion today.

"It is fair to infer that since his previous efforts to secure a divorce had been rendered futile by her applications for an allowance of suit money, he evidently thought that he could succeed by neglecting to make the proper inquiries of her relatives and neighbors in New York as to her then residence."

In conclusion the court says: "A careful examination of the entire testimony convinces us that instead of the defendant deserting the plaintiff and refusing to live with him, he voluntarily abandoned her and the children when they were destitute and he was able to aid them, but neglected to do so, except in the matter of the partial education of some of the children and occasionally donating to them small sums of money."

Previous to his attempts in Clackamas county, Hague had made unsuccessful efforts to get a divorce in Klamath and Multnomah counties.

The first thing done by the committee today was to eliminate from the bill all reference to the executory contracts. Chairman Ferris led the fight against section 7 and said he had no desire whatever to take into the house a bill containing a provision which so invited attack. He said this section, if retained, might endanger the entire bill.

FORMER CONVICT ASKS STATE FOR LOST LEG

STRANGE PROVISION FOUND IN WILL OF MAN WHO LOST LIMB IN HARRY TRACY BATTLE.

SAN JOSE, Cal., March 29.—The stranger human document which has ever found its way into the court records of Santa Clara county is the will of Franklin Suard Ingram, filed for probate yesterday.

The petitioner is Mrs. Effie Flowers of Woodland, chief beneficiary under the will, and whose mother had befrinded Ingram.

Ingram lost his left leg in the hunt in Oregon for Harry Tracy, the bandit. Ingram laid down specific instruction for his executrix to follow relative to the lost leg.

An excerpt from the will, made March 17, 1912, in Sacramento, follows: "I direct that my body be buried in a cemetery near where I may happen to die, and that my lost member (left leg) now lying in the pottersfield of the Oregon state penitentiary at Salem, Oregon, having been amputated by the state doctor owing to a fracture of the knee joint, which was caused by a gunshot wound fired by the hand one David Merriam, a convict who with Harry Tracy, a convict, who had unrightfully become in possession of firearms for the purpose of making their escape, having procured said firearms through the lack of diligence of a lazy, incompetent retinue of appointed state official servants, be buried with it."

"I further direct that the state of Oregon be kindly requested to deliver to the executrix of my will my lost member, so that it can be buried with my body, and I also ask that the state bear the expenses thereof, for that is not asking too much, as it was the state's fault that the guns were gotten into the prison, and not mine, and I was under the state's protection, yet have not been amply rewarded for my serious loss, yet have received no compensation whatsoever, and my request is therefore just and reasonable."

At the time of the prison break, Ingram was serving a sentence for killing his brother. In the battle, he took the side of the guards.

On his release he came to California. Friends in Woodland gave him a start, and at his death he had about \$800 in a bank and a lot in Oakland.

Ingram cut off his relatives with \$1 each because of the family feud which resulted in his murdering his brother. He left sufficient money for the perpetual care of the grave of his mother in Salem, Oregon.

ALBANY STORES ARE OPEN AGAIN ON SUNDAY

ALBANY, Ore., March 28.—Compared to previous Sundays of the past few months, everything was wide open in Albany last Sunday, so to speak; for it was the first Sunday observed under an injunction granted by Judge Galloway against the enforcement of the Sunday closing law by Linn county authorities.

It was a regular celebration for those whose places of business come under the provisions of the law. All the big confectioneries as well as the smaller stores were open and running full tilt. And from reports, they all did a hand-office business in spite of the inclement weather.

The man who forgot to buy his Sunday cigar Saturday night was in his glory, for he pranced right downtown, and zip! there went another nickel. The lady of the house who forgot to order her Sunday dinner ice cream merely had to use the telephone.

NEW DIVISION OF GRANT LAND FUND IS FIGURED OUT

COUNTIES WILL GET 30 AND STATE 20 PER CENT OF MONEY FROM SALE.

TWO-FIFTHS TO RECLAMATION, REMAINDER TO U. S. TREASURY

House Committee Strikes Out Entire Section Relating to Executory Contracts—Early Voting Now Will Be Sought.

WASHINGTON, March 28.—As the Oregon & California land grant bill was finally agreed on by the house committee on public lands today, the land grant counties will get 30 per cent of the net receipts from the timber and land sales, the state of Oregon will get 20 per cent for its school fund, 40 per cent will go to the general reclamation fund and 10 per cent to the federal treasury.

John Lind and other holders of outstanding executory contracts are left out in the cold, the committee by a vote of seven to nine having decided to reject section 7 and other portions of the bill bearing on these contracts.

A new provision was added under which homesteaders taking cutover lands will be relieved of the payment of \$2.50 an acre, and need only comply with the requirements of the homestead law.

In all other particulars the bill agreed upon was the bill completed last night by the sub-committee.

Representative Ferris introduced in the house today the bill on which the committee has agreed, and as soon as printed this bill will be referred to the attorney general, secretary of the interior and secretary of agriculture for comment and suggestions. It is not expected they will now propose material changes of policy, but the committee before reporting the bill to the house wants it have the approval of the three departments.

It was the general opinion of the committee that the bill is privileged in character, but if the speaker holds otherwise a special rule will be asked to expedite its consideration in the house.

The first thing done by the committee today was to eliminate from the bill all reference to the executory contracts. Chairman Ferris led the fight against section 7 and said he had no desire whatever to take into the house a bill containing a provision which so invited attack. He said this section, if retained, might endanger the entire bill.

TRY BOLD DAYLIGHT BANK ROBBERY; FAIL

SEATTLE, Wash., March 29.—Two near auto-bandits made a bold attempt to rob the King County State bank, in the heart of the University district here shortly after noon today. They escaped through a crowd of bewildered students after Assistant Cashier Nordquist failed to hold up his hands.

An automobile carrying three men stopped in front of the bank. One of the men, about 40 years of age, walked into the bank. He drew a gun on Assistant Cashier Nordquist, who ducked beneath the counter and pressed an alarm button.

"Come up or I'll shoot!" ordered the bandit. Nordquist kept under the counter. The bandit heard the alarm bell ringing in a hardware store next door. A crowd of students began to gather outside the window and the lone robber ran out, jumped into the auto, and, placing a gun against the driver's head, ordered him to "get out of here."

A posse of motorcycle policemen is in pursuit of the would-be robbers.

A Distinctive Reason. What is the chief reason for the superiority of Royal Baking Powder? There are several good reasons, but there is one which distinguishes Royal from other baking powders. This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders. There is no alum nor phosphate in Royal Baking Powder. ROYAL BAKING POWDER CO New York

AMERICANS LOST ON CHANNEL STEAMER. NUMBER OF VICTIMS OF TORPEDOED SHIP ESTIMATED AT FIFTY BY FRENCH. PARIS, March 25.—The ministry of marine, in an official statement issued tonight, declared that the channel steamer Sussex, which was sunk yesterday, was torpedoed, and estimated the number of victims at about 50. Scarcely a doubt exists that some American lives have been lost in the disaster to the steamer Sussex. The American ambassador, William G. Sharp, sent Naval Lieutenant Bernard L. Smith by automobile to Bourne today to investigate the cause of the disaster and assist any Americans who may need help. NEW YORK, March 28.—Statements indicating that he believed he was possessed of a dual personality, the wicked one of which impelled him to murder John E. Peck, of Grand Rapids, his wealthy father-in-law, and Mrs. Peck, were made by Dr. Arthur Warren Waite to District Attorney Edward Swann and a detective tonight. Dr. Waite, still in bed at Bellevue hospital, where he is under arrest charged with the murder of Mr. Peck, when asked by Mr. Swann if he wished to make any statement, passed one hand over his eyes and answered vaguely: "Oh, it's all over. He did it. This little bad man whom I haven't been able to get rid of until now—he did it all, Clara (Mrs. Waite) knows how I have tried to get rid of him. I don't know who he was—he told me he came from Egypt." Roy W. Schindler, a detective who visited Dr. Waite just before Mr. Swann arrived, declared the young dentist told him about the dual personality, asserting that he sometimes was so obsessed by the "bad man" that he would run around in the park to throw off the inclination to evil. According to Schindler, Dr. Waite told him he administered live bacilli of various diseases to Mrs. Peck, but they did not act as quickly as he expected. He also said, the detective averred, that he fed germs to Mr. Peck, but when the results appeared to be "unsatisfactory" he gave arsenic to his father-in-law. Both Mr. Peck and Mrs. Peck died at Dr. Waite's apartments here, Mrs. Peck January 30 and her husband March 13. Autopsies on the body of Mr. Peck disclosed quantities of arsenic. Mrs. Peck's body was cremated. Sign of Good Digestion. When you see a cheerful and happy old lady you may know that she has good digestion. SANDY FARMER SUED FOR DIVORCE HERE. WIFE ALLEGES SHE WAS FORCED TO WORK ON FARM LIKE MAN—SHE WANTS CHILDREN. Mrs. Minnie Maroney filed a suit for divorce in the Clackamas county circuit court Tuesday against George C. Maroney, a well-to-do farmer of the Sandy district, making the general charge of cruel and inhuman treatment. They were married May 28, 1895, at Burlington, Wash., and have four children. Mrs. Maroney declares in her complaint, which is the longest which has been filed in the local court for many months, that her husband has forced her to clear land, help with harvesting the crops and to do other manual work on the farm. She says that she has been compelled to go without decent clothing, and that she has been called upon to make sacrifices of every kind during their 21 years of married life. In 1900 she declares, her husband opened a logging camp at Kelo, Wash., and she was forced to cook for 15 men and do most of the work around the camp. In 1902 they went to another camp near Pleasant Home and there, she declares, she cooked for 25 men. Eleven years ago the family moved to the Sandy district where they have lived since. She asks for one-half interest in their property, consisting of valuable timber and farm land in the eastern part of the county. One tract of land alone, according to the complaint, is valued at \$10,000. She further asks for \$25 alimony, the custody of the children, \$500 attorney's fees and \$150 suit money.
