that a radical change from the old haphazard methods was necessary before work of a permanent value could be accomplished. To use a term coined by a local candidate for political honors, the taxpayer needs to get some of that efficiency in road matters which will result in every taxpaying dollar in being a 100 cents dollar, and the appointment of a practical road man, such as Mr. Roots, to a position of recognized authority as roadmaster will take a long step toward that end.	ing women. I must say that this is re- liable information indeed, a chaoffeur having taken these peoples to the Belle hotel about a week prior to this time. # 2 Preparedness

If all of your earnings were invested in one building-say an office building-you would naturally want that building insured. That is preparedness. The fire might never happen but you could not afford to take the chance. Life is the same way in that we should be prepared as much as possible for emergencies. None of us know what tomorrow has in store for us, if we did life would be smooth sailing.

A growing bank account is good life insurance. If you can't afford to do without insurance how can you afford to do without a bank account? Start one today at this bank and be confident of the future.
