MRS. GAGE DESCRIBES JOURNEY TO TILLAMOOK

STAFFORD, July 6.—(Special.)—On Tuesday of last week, June 27th, accompanied by my daughter, Mrs. G. Holton, and Walter Gage, of St. Helens, left Stafford for Nestucca Bay, coming across the mountains on the scenic railway from Portland to Tillamook City, 45 round trip, with privilege of staying until Sept. 30th.

At Tillamook City a motor stage met us and took us to Cloverdale, 23 miles south for \$1.50. The road, through the mountains is truly a wonderful work of engineering, but to my mind the scenic element is quite conspicuous by its absence. We go through, I think, by count, 15 tunnels of long and short duration, with tall hills on both sides, but sometimes the hills slope away to a farm house and outbuildings.

At Castor Creek we ran onto a siding and waited for a long train of huge logs to pass, going towards Portland. The train lost time going to the summit. Before we got to Wedeberg, a little station in the woods, and for about ten miles, we passed through a stretch of fine forest, standing straight and majestic, where the hand of man has not yet despoiled its beauty, but mills are springing up here and there and time will undoubtedly lay the mighty monarchs down and future generations will see the beauties of the bare hills.

At Cochran we begin to go down hill and gain time with a Wheeler, formerly called Nehalem, with a number of small houses, a station, mill and shanty lunch counter.

Soon we passed Nehalem Falls, at that time a succession of little falls about three feet high, but saw fish jumping in the deeper pools which looked wonderfully tempting to our boy companion.

We ran into a rain storm lasting about nine miles, after which we crossed two iron bridges and the country extended out wider, showing comfortable farm houses and outbuildings and other crops small as yet, needing sunshine, and nice looking cattle.

At Manhattan Beach we got our first sight of the ocean and turned south, passed Lake Lytle, a small sheet of water of perhaps two acres, which has not been improved as yet. We passed Rockaway and was surprised to find it quite a little village with cottages to rent and in sight of old ocean.

At Bar View, where the life saving station is situated, and where the tidal wave carried off everything but the station, which was situated on the upper side of the track. They are building up again fast all new and unpainted as yet with the exception of a few buildings, shining with new paint. We continued on south and arrived at Tillamook City on time, 2:30 p. m. It has rained every day but not hard, until Monday, July 3, when the sky began to clear up, the sun came out and began to prepare for the great national jubilee which is to be held at Cloverdale, four miles away.

The boy, Walter, is an enthusiastic fisherman and hunter and keeps the table supplied with fish, clams, etc. The Della, from Portland, passes within sight and lands at the dock about a mile below where a store is situated, where one can buy everything from peanuts to muskmelons.

Numberless automobiles came over the mountains from Sheridan all summer. Vegetation is slow here also, and hay harvest is two weeks late. All up and down the country stock look fine and the best cheese and butter in the world is made here and finds a ready market in Portland.

MRS. M. A. GAGE.

Her Left Side Hurt. No family remedy enjoys a better reputation among intelligent women than Foley Kidney Pills.

Mrs. Laura Beall, Plattsburg, Miss., writes: "Last April I got in bad health; my left side hurt all the time. The doctor's medicine didn't seem to do me any good. I had symptoms of Bright's disease. I took two bottles of Foley Kidney Pills and feel all right now."

They quickly relieve backache, rheumatism, aches and pains in a natural way—by driving the poison out of the system. Contain no habit-forming drugs. Jones Drug Co. (Adv.)

CRISIS ENDED BY NOTE.

WASHINGTON, July 5.—Early resumption of friendly diplomatic conversations with the de facto government of Mexico to the end that peace and order may be restored in Northern Mexico and along the border is expected here to be the next step of the United States in its relations with its Southern neighbor.

The crisis precipitated by Villa's raid on Columbus, N. M., and culminating in the fight at Carrizal, Mex., between American and Mexican troops appeared tonight to have been dissipated by an American cablenote from General Carranza, presented during the day by his ambassador designate, Eliodoro Arredondo.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ON GUARD SERVICE ALONG THE BORDER

GUARDING THE BORDER

Redoubled efforts are being made to watch the Texas-Mexico border, after most of the long line has been under strict guard ever since the raid on Columbus, New Mexico, by Villistas. The man in the picture is helping to guard one of the bridges over the Rio Grande.

AUTOMOBILES CAUGHT IN RIVER ROAD MUD

We're unto the motorist who tried to go to Portland over the river road Sunday. Mud, the product of a supervisor's plow and the heavy rains of last week, was bub deep on the Hollow hill and near the Charles W. Risley place. Several automobiles that attempted to swim through the ooze Sunday were stuck.

These two particular stretches of road had a fairly hard base until the road supervisors became busy with their plows. Until the sun of Monday dried out the road, it was almost impossible to get over them with a load of wagon or automobile.

No signs were posted warning the motorist that there was danger ahead and that it would be best to take another route. Instead, the car was tured into the trap.

GUARDSMEN FACE PROTRACTED JOB ALONG BORDER

LONG STAY ON MEXICAN FRONTIER IS FORECASTED AT WASHINGTON.

GENERAL PERSHING MAY BE PUT AT HEAD OF ONE DEPARTMENT

Border Commands Are Divided Among Three Generals—Drawing in of American Troops Is Now About Completed.

WASHINGTON, July 7.—While the diplomatic aspects of the Mexican difficulty showed no change tonight, War Department measures for a new distribution of the border patrol clearly indicated that months of active service along the frontier await the thousands of National Guardsmen gathering in the South from all parts of the country. Only the appointment of a general officer to supreme command is lacking now to complete adequate administrative machinery, not only for border operations, but for a campaign of any desired proportions in Mexico, should general hostilities come.

Under the new plan the 1800-mile frontier will be divided, so that the Southern and Western military departments will take care of the eastern and western extremities of the line, respectively. Major-General Frederick Funston, relieved from responsibility for the entire border at his own recommendation, will continue in command of the Southern department, while Major-General J. Franklin Bell, commanding the Western department, will transfer his headquarters from San Francisco to Douglas, Ariz., to be in direct touch with his share of the border work.

The mid-section of the border line, embracing territory between El Paso and a point near Douglas and reaching northward to the Colorado state line, will be known hereafter as the Department of New Mexico. Under its jurisdiction will fall the expedition into Mexico, based at Columbus, N. M., and the post of Department Commander has been ordered to John J. Pershing, now commanding the expeditionary force.

A message went to General Pershing today asking if he desired to assume the duties of department chief, in addition to those which now fall to him as commander in the field. The expedition is believed to have about completed the movement begun 10 days or more ago when General Pershing, for strategic reasons, ordered the lines drawn in closer to the border. The War Department has no definite information as to the exact whereabouts of the various camps, but it is thought that the most advanced patrols now are within 150 miles of the border.

No reply had been received from General Pershing at a late hour tonight.

WILLIAM P. BUSHNELL PASSED ON

Mr. William P. Bushnell, a resident of Oak Grove, passed on June 29th.

Mr. Bushnell was born November 18th, 1829 in Cincinnati, Ohio.

He was the son of Dr. Andrew Bushnell of that city and a cousin of the late Governor Asa Bushnell of Ohio. Mr. Bushnell attended Oberlin College, and at President Lincoln's second call for volunteers, he left college and enlisted in the Second Regiment of Ohio Cavalry as corporal, serving to the end of the war in St. Louis, after which he resided in St. Louis and became an active member of Hanson Post G. A. R. He came to Oregon in 1908 and has since resided in Oak Grove. Mr. Bushnell was married to Clara Skeel in St. Louis forty-eight years ago, who together with one son, Herbert Bushnell, of Portland, Ore., survive him. Mr. Bushnell was connected with the Portland office of the Portland Railway, Light & Power Co. and was attentive to his duties up to a few days before he passed on. He was held in the highest esteem by the officials and employees of the company.

His gentle, loving disposition endeared him to all his friends and acquaintances and the many will mourn his absence. A true friend, a loyal American and a loving husband and father has gone to a higher call to reap the reward of fruitful service and a useful life.

His Backache Gone.

More men have kidney trouble than are aware of it. Just how serious a backache, sore muscles, aching joints, rheumatism, swollen ankles, and blurring vision may be is sometimes realized only when a man attempts to take out life insurance and is refused on account of kidney trouble. Joseph G. Wolf, 724 So. Jackson St., Green Bay, Wis., writes: "Foley Kidney Pills relieved me of a severe backache that had bothered me for several months." Any symptom of kidney trouble deserves attention. Jones Drug Co. (Adv.)
