MAYOR MITCHEL FAILS TO BRING STRIKE TO END

EXECUTIVE HAS UNTIL THURSDAY TO WORK OUT PRACTICAL BASIS OF SETTLEMENT.

STRIKING CARMEN FIND READY SUPPORT FROM OTHER UNIONISTS

President of Railway Companies Says He Will Refuse to Confer Further With Strikers—Meeting Will be Held Today.

NEW YORK, Sept. 18.—Failure of negotiations being conducted by Mayor Mitchell to provide a basis of settlement of the traction strike in this city will result in a call Thursday for a sympathetic strike of approximately 700,000 workers, union leaders declared after a conference late today between representatives of several crafts.

The call will be issued, it was said, to all unions affiliated with the Central Federated Union of New York, the Central Labor Union of Brooklyn and the Federated Union of the Bronx, Westchester and Yonkers.

Theodore P. Shontz, president of the Interborough Rapid Transit Company and the New York Railways company, late today issued a statement in which he said the companies would refuse to confer further with the strikers.

Mayor Mitchell announced tonight that he had asked the citizens' committee of the Chamber of Commerce and representatives of the Merchants' Association to meet with him tomorrow to discuss the situation.

CANBY VOTES TO BUY M. J. LEE WATER SYSTEM

COUNCIL MEETS TO ADVERTISE FOR BIDS—\$6500 BONDS ARE AUTHORIZED.

Following the election Saturday, when the voters of Canby authorized a \$6500 bond issue to buy the M. J. Lee system, the Canby council met Monday night to advertise for bids for the bonds so that the town could take over the privately owned plant and begin to derive revenue therefrom without delay.

Eighteen thousand dollars in bonds sold earlier in this year brought a good premium.

The Canby voters authorized the bond issue, 108 to 99, after a campaign extending over about two weeks. At a special election several months ago the town sold \$18,000 worth of bonds to establish a city owned water distributing system. The town has been supplied by a plant owned by Mr. Lee, and the council was divided on the question of purchase. Some members claimed that the Lee plant would be practically worthless in putting in a modern municipal system, while others contended that it was not right to try to "freeze" out Mr. Lee, and risk competition.

With the Lee system, the city will secure several miles of mains, two lots, pumps and other property. The town will probably take over the plant as soon as the bonds can be sold.

FANCY POTATOES IN GOOD DEMAND AT \$1

GOOD STOCK IS HOLDING FIRM ALONG THE COAST—HOP TRADE MUCH MIXED.

PORTLAND, Ore., Sept. 25.—While there has been a rather sharp decline in the price of potatoes in California, the loss has been confined exclusively to the river growth.

For fancy Salinas, which are the best available in the San Francisco market, the price is holding firm with the demand excellent. There is considerable demand for fancy Oregonians there.

Buying of potatoes in this section is of excellent character with fancy sorted stock commanding \$1 and buyers generally offering this price freely for the best growths.

Some are not offering above 90c, but they are taking what is ordinarily called good shipping stock. Comparatively speaking, they are paying as high proportionate price for this class of stuff as those offering 81c the selected.

It has been a number of years since such excellent quality potatoes have been produced in Oregon, and that is saying considerable because of the excellent reputation of this state's growth.

PORTLAND, Ore., Sept. 25.—There seems to be much "hot air" in the prices reported paid for hops in the Willamette valley, for so far as known no sales can be confirmed above 95c a pound for best quality. Quite fair fair business has been reported during the last few days.

FRESH EGGS RISE TO 37 1-2 IN PORTLAND

MARKET IS FIRM AND HIGHER, BUT LOWER THAN ANY OTHER POINT ON THE COAST.

PORTLAND, Ore., Sept. 26.—The price of eggs advanced as high as 37 1/2c a dozen along the wholesale way during the day and there was a general forecast among the trade that a 40c market would be reached within a few days.

With a case count stock not available below 34c a dozen in the city trade, and extremely hard to secure at any price, the egg market situation here is at last reflecting some of the extreme strength shown elsewhere along the coast, as well as in the entire Pacific trade.

Egg prices at Portland are far the lowest in the entire country at this time; in fact, on the present basis of values here, fresh eggs can be shipped to various California points and hand-some profits secured.

Receipts of eggs along the street are very small, while demand is good. At 37 1/2c a dozen for fresh stock along the street retailers will practically be compelled to ask 45c, therefore an advance to 40c in the wholesale price can be easily accomplished if receipts continue small.

POTLAND, Ore., Sept. 26.—The excellent quality and quantity of the Oregon potato crop this season is apparent on all sides. Not only are the crops heavier than normal, but a greater percentage than usual of the output will grade fancy this year.

The excellence of the Oregon crop is attracting much attention from other sections and buying orders from the outside are more liberal. With short crops and poor quality shown in most sections of the country, the trade anticipates a very good season.

J. H. Pomeroy, who lives near Hillsdale, was in the city during the day with samples of some of the crops in that section. He has much stock that will average from 2 to 2 1/2 pounds to a potato. One sample of seven potatoes in a group weighed four pounds, the main potato in the lot weighing three pounds.

FOUR CHILDREN WIN TRIP TO STATE FAIR

Miss Annie Mullenhoff, of Damascus; Harry Casto, of Canby; Melvin Mitts, of Nesty, and Miss Evelyn Bohlander, of Beaver Creek, all from Clackamas county, who were represented in the project work of the juvenile department of the Clackamas County fair under the supervision of J. E. Calavan, county school superintendent, and Brenton Volder, county school supervisor, were awarded first place, and as a reward are to be the guests of the Oregon State fair, with all expenses paid, including car fare, and these students leave for the fair this morning to remain until the close of the fair.

Miss Mullenhoff was awarded first place in the baking project; Harold Casto for gardening; Melvin Mitts for corn growing; and Miss Bohlander for pig feeding. All of the exhibits of these students have been taken to the Oregon State fair, even the Poland China pig raised by Miss Mullenhoff, and is subject to register. At the age of six months, the time exhibiting at the Clackamas County fair, this pig tipped the scales at 273 pounds, and several of the swine breeders of Clackamas county have contemplated purchasing it at the State fair grounds. Miss Mullenhoff will dispose of "Rufus" before returning to Oregon City. She is 13 years of age, and since taking up this line of work during the past six months, she has been so encouraged that she, like the others, who were fortunate in winning out, are to enter the project work next year. The other students who are to be guests at the fair from this county range from 14 to 15 years.
