How Catarrh is Contracted. Mothers are sometimes so thoughtless as to neglect the colds which their children contract.

The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden.

Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted.

A little forsythia, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.

Mercer Explains New Pension Law

(By Col. W. G. D. Mercer.)

EUGENE, Ore., Sept. 28.—I have lately received so many inquiries by mail with no stamp enclosed for return reply, by phone and otherwise, relative to the provisions of "An act (H. R. 11767), to amend an act entitled, An act to increase the pensions of widows, minor children, etc., of deceased soldiers and sailors of the late Civil war," etc., which said act was passed by congress and approved September 8, 1915, that I feel justified in replying to these numerous inquiries through the medium of the newspaper.

Briefly stated, this act of congress raises the marriage restrictions from June 27, 1890, to June 27, 1905, 15 years. It restores to remarried widows their former pensionable status regardless of other marriages. Widows who have been or may be divorced without fault on their part are also entitled to a pension.

All such widows under the age of 70 are entitled to \$42 per month, and all over 70 are entitled to \$20 per month. All widows who
