

GEO. C. BROWNELL DECLARES CANDIDACY FOR SPEAKER IN HOUSE OF REPRESENTATIVES

George C. Brownell, representative-elect from this county, Wednesday announced his candidacy for speaker of the house at the next session of the state legislature. His statement follows:

"I have made up my mind to become a candidate for speaker of the house of representatives this coming session. Not because I am hungry for this honor and distinction, as a matter of fact. My reason, above all things, is because I want to see certain issues that are now before the people of this state, carried into effect this coming session.

"In the first place I am a Republican and unless the legislature keeps its pledges in certain paramount issues, we have no future as a party in this state, and two years from now we will elect a Democratic governor and a Democratic U. S. senator. We now have two members from a Republican state, supporting a tariff for revenue only policy, which is destructive of the material interests of this state.

"Not less than 30 days nor more than 60 days after the regular biennial election in November, 1916, and biennially thereafter, the county clerk shall compare the poll books of all general and primary elections, and any other elections held throughout the county during the previous two years, with the register of electors, and if it appears that any one is on said register who does not appear on said poll books to have voted at, at least one said election during such period, the county clerk shall remove the said card from the register of electors.

"I am satisfied that an effort is being made by certain banking interests in Portland and other interests in other parts of this state to organize this legislature with a direct balance of over-riding the people's wishes and expressed will at the ballot box, as well as to over-ride the pledges of the leaders of the party in this state, as well as those made upon the stump and in the newspapers two years ago and repeated in this last campaign, to-wit: economy, reduced taxation, and abolishment of commissions.

"As I view it, there is no present intention in certain quarters to observe the mandate of the people as to tax limitation.

"The candidates for speaker already in the field, while they are excellent gentlemen in every way, come from counties demanding increased appropriations, normal schools, etc., the state to guarantee interest on irrigation bonds, and will by the very nature of their association, environment and locality, be compelled to join for increased appropriations, thereby overthrewing the tax limitation amendment to the constitution of this state.

"I am in favor of fair and just appropriations to support our schools and institutions, but I am opposed to increasing the tax burdens a single dollar, and favor a reduction where it can be made without destroying the efficiency of any school or institution. The people are demanding and will hold the Republican party of this state to a strict account, unless we stand for economy and a lower tax rate.

"The time has come when we have got to cut our clothes according to the cloth. We are a state of wonderful resources and yet today, we have practically no manufacturing industries. What we need are factories, industries and payrolls and good roads.

"I base my candidacy for speaker upon these issues, hereby pledging myself to the people of this state that if the power is placed in my hands to organize the house of representatives, that it will be so organized that this program will be forced through and all legislation that is antagonistic to these issues will never go through or be passed. That I will stand for what is fair and just, but under no circumstances will I permit, if elected speaker, the house of representatives to be organized in such a way as to thwart the expressed will of the people of this state and nullify the pledges that were made by the candidates asking for the support of the people two years ago and during the present campaign.

"My election is immaterial, what is important is the passage of laws that will carry out the people's will as represented by the issues referred to.

"There will certainly be a fine time in Salem this winter if there is any organized effort to pass legislation antagonistic to the above issues.

"I fully realize that it will be very hard for me to be elected upon a program of this character, knowing that practically every office-holder and chair-warmer now on the payroll in this state will be against me. I am also conscious of the fact that if this program went through, several of the office holding boarding houses in Salem would have to go out of business, but I also know that whether I am elected or not, that representatives who stand faithful to this program at the coming session and work in sincerity and in good faith to carry out the people's will and reduce our tax rate, are the gentlemen who will be in the saddle two years from now, and the individuals who oppose this program and stand for an organization of the house, favoring increased appropriations, laws to permit the issuing of bonds for irrigation purposes, the interest to be secured and guaranteed by the state, and adhering to the maintenance of the tax-eating commissions now in existence, will be out of politics and out of business, in a political sense, two years from now."

REGISTRATION BOOKS BEING CHECKED OVER

VOTERS WHO DID NOT CAST BALLOT NOVEMBER 7 WILL BE NOTIFIED BY CLERK.

Registration books at the office of County Clerk Harrington are open under the new permanent registration law, but practically no voters are registering now that interest in national and state politics is a thing of the past.

The registration records and the poll books of the recent election will be compared to ascertain the names of those voters in the county who did not vote. The clerk will send a notice to those voters, notifying them that his name will be taken off the registration books unless he returns the card and requests that his name be kept on the books.

The section of the law which explains this feature follows:

"Not less than 30 days nor more than 60 days after the regular biennial election in November, 1916, and biennially thereafter, the county clerk shall compare the poll books of all general and primary elections, and any other elections held throughout the county during the previous two years, with the register of electors, and if it appears that any one is on said register who does not appear on said poll books to have voted at, at least one said election during such period, the county clerk shall remove the said card from the register of electors.

"Said cards so removed shall be returned for a period of one year and then may be destroyed. Any person whose card is so removed from the register of electors shall be notified by the county clerk by sending a notice to his postoffice address as appearing on said card within five days from the time that his registration is so removed. The said notice may be on a postal card and may be substantially in the following form (Then follow the form of postal card with the notification and a space where the elector may state that he still resides in the precinct mentioned and that he requests that his name remain on the register.)

"If said card is returned within ten days, signed by the elector, the county clerk shall file his registration card in its proper place in the register of electors, otherwise he shall permanently cancel said registration."

POLITICS BEGIN TO STIR IN GLADSTONE

EIGHT NAMES ARE ON BALLOT AT CITY ELECTION ON DECEMBER 4.

Politics in Gladstone is taking on life anew, for the annual city election will be held next Monday, December 4. Eight names will adorn the ballot, and four councilmen, a recorder and a treasurer will be elected.

Recorder John N. Sievers and Treasurer T. A. Burke are candidates for re-election and are unopposed. W. E. Hempstead, Frank T. Barlow, C. C. Lee, Edward Kent and H. E. Cross are candidates for the three two-year terms on the council and Brenton Vedder is not opposed in his race for the one-year term.

OUR FEARFUL FIRE LOSSES.

Most of Them Are Caused by Untidiness and Carelessness. The fire loss in the United States is about \$250,000 a day, or an aggregate of \$750,000,000 a year. Careful observation from detailed statistics compiled on the subject shows that most of this loss would be prevented by the observation of reasonable precautions, particularly in the direction of more tidiness. Sixty-five per cent of all fires take place in homes, and cases show that 60 per cent of all fires are due to carelessness, ignorance or both.

The 65 per cent occurring in homes, it is readily shown, would never occur if persons had taken reasonable care in respect to tidiness. Rubbish is the chief cause, and rubbish does not necessarily mean the accumulation of paper and things of that character in and around buildings, but the unnecessary accumulation of old furniture, magazines, carpets, supplies of all kinds in cellars and attics which accumulate dust and lie there for years.

What applies to the home in respect to rubbish is true to a marked degree in many business premises. Just a little thought and the expenditure of a little labor along these lines generally would greatly reduce the fire loss. The absence of fire extinguishers in the average home or business premises is a serious omission. Careless handling of matches, careless use of oil, the accumulation of oily rags and waste material and a host of small matters like these are the causes of a great many fires and a great deal of loss.—Lumber Trade Journal.

CONFISCATION OF LIQUOR THREATENED IN DOUGLAS

ROSEBURG, Ore., Nov. 27.—In the event Governor Withycombe issues a proclamation placing in effect the "bone-dry" amendment and thereby lifts the penalty provided for liquor violators under the present prohibition law, District Attorney Neuner said today he would confiscate every shipment of liquor received in Douglas county between the time the proclamation is issued and the date on which the legislature passes a law making the amendment enforceable.

"I believe I will be justified in taking this action," said the district attorney, "for the reason that the dry amendment prohibits the importation of liquor into Oregon for beverage purposes. Whether I would be able to secure an order authorizing the destruction of the liquor confiscated would probably depend on the subsequent showing made by me before the court."

First Stamps of Nippon. It was in March, 1871, that postage stamps were for the first time issued in Japan, following the system of western countries. The stamps were of four denominations of mon. These stamps, however, disappeared shortly after their issue, to be replaced in 1872 by another series in the denomination of sen. These denominations are still in use today, but at the present time there is a far wider variety, the value being from one-quarter of a cent to \$5. The first stamps were extremely crude in appearance, were without gum and were printed by the ancient method of wood engraving. Today electric machines turn out the stamps, in enormous quantities.—Japan Society Bulletin.

Animals Under Water. The ability of a beaver to remain under water for a long time is not really so much a problem as it looks. When the lake or pond is frozen over a beaver will come to the under surface of the ice and expel his breath so that it will form a wide, flat bubble. The air, coming in contact with the ice and water, is purified, and the beaver breathes it again. This operation he can repeat several times. The otter and muskrat do the same thing.
