25c PER MONTH IS THE AVERAGE COST OF OPERATING A MITCHELL WATER SYSTEM

BANISH THE BUCKET BRIGADE! The Water Bucket Must Go. It is a back breaker, a back number and a useless consumer of energy Think how many miles of steps your wife is obliged to take each day because she does not have the advantages of water under pressure. Is it any wonder that she is dog tired each night. The useless waste of energy in lifting a heavy water bucket each time a little water is needed, the endless trips to the well or spring, these are the things that make for physical breakdowns. Think of the chance of your water becoming contaminated and the health of your family destroyed.

Think of the danger of fire, a fire that a steady stream of water will quickly kill but when this is not at hand will greedily consume your home, your property and possibly a life. These things can't be thought of in the terms of dollars but the fact is that IN' MORE WAYS

YOU'LL GET YOUR MONEY'S MITCHELL WATER SYSTEM WORTH OUT OF A

Water when you want. Where you want

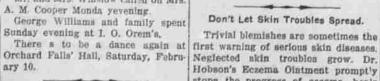

THAN ONE

It will make your property more valuable. It will make your family more happy and contented through the enfoyment of the bath, the haundry, the many other conveniences that are dependent upon a supply of running water in the home. The Mitchell System makes Ulings more convenient in the bafnyard and it affords absolute protection against fire by supplying a depend-able supply of water under any pressure up to 125 pounds. It will help preserve the health of your folks, because nothing of foreign nature can ket hild the water after it has been pumped into the Mitchell Water System. If your water source is pure, your water will remain pure until it flows from the bas. The Mitchell Water System furnishes cool water in summer and is proof against freezing in winter. In short, it makes life worth living, and if you will look at the matter from every angle you will come to the conclusion that you simply cannot afford to do without water under pressure in the home.
