FAMOUS TURKISH CITY NOW IN BRITISH HANDS

The picture shows a view of Baghdad, the chief Turkish city in Mesopotamia, now occupied by the British, and the loss of which is a grave blow to the Turks. This famous city has been the base for all the Turkish operations in Persia, and up to within a few days the Turks occupied about thirty thousand square miles of Persian territory, but with the Russians pressing them closely from Kirmanshah, as well as from the direction of Erzerum, indications point to a speedy junction of the British and Russian forces, which would soon compel the Turkish evacuation of Persian territory. —N. New York's Great Bridges.

The five giant spans of steel, which like gargantuan fingers, clutch the two sides of East river, binding New York and Brooklyn together, cost America's metropolis half as much as the Panama canal cost the federal government. Three of them, says the National Geographic Magazine, are suspended from cables the wires of which, if placed end to end, would more than twice girdle the earth. If placed side by side these five great structures would provide a roadway as wide as the Washington monument is high, and if placed end to end they would make a great bridge over six miles long.

Across the Brooklyn bridge alone 125,000 surface cars travel every twenty-four hours, with other vehicular traffic in proportion.

When Hawaii Was a Republic.

Hawaii was proclaimed a republic July 4, 1894. More than a year before Queen Liliuokalani had been deposed by a committee of public safety because of her attempts, it was claimed, to secure more absolute power. A provisional government was set up, which lasted until the islands were proclaimed a republic. Sanford B. Dole, former head of the provisional government, became president. Unsuccessful attempts had been made to conclude a treaty of annexation with the United States. The islands were finally annexed July 7, 1898, as a war measure, the United States being then at war with Spain. They were organized a territory June 14, 1900. Ex-President Dole was appointed governor by President McKinley.

Rank Foolishness.

You occasionally see it stated that colds do not result from cold weather. That is rank foolishness. Were it true colds would be as prevalent in mid-summer as in mid-winter. The microbes that causes colds flourishes in damp cold weather. To get rid of a cold take Chamberlain's Cough Remedy. It is effectual and is highly recommended by people who have used it for many years as occasion required, and know its real value. Obtainable everywhere.
