The vacuum feed system has as its function drawing of fuel from a certain level to a higher level without need of applying pressure. Applied to a motorcar, with a gasoline tank suspended on the rear of a car, the carburetor must naturally be at a considerably higher level. The fuel is raised by means of the vacuum tank. Fundamentally the vacuum tank is a cylinder connected at the top through a pipe with the intake manifold and through another pipe to the gasoline tank. When the motor is turned over the down stroke of the pistons creates a suction in the intake manifold. This suction is conducted to the vacuum tank through the connecting pipe and from thence through the pipe to the gasoline tank, thus drawing fuel, by suction, into the well of the vacuum tank, where the level is controlled by a float. Mrs. Angus Matheson, of Fowell River, B. C., will arrive in Oregon City Saturday, and will be the guest of her mother, Mrs. J. R. Williams and daughters, Misses Margaret and Eleanor Williams. The children had planned and carried out the affair and Miss Wirt was hidden to the schoolroom. The surprise was complete, and the teacher enjoyed it immensely. She took an active part in the evening's amusements, which consisted of games and music. She was presented with a little gift in remembrance of the event. Refreshments were served during the evening, and these too provided by the children. The marriage of Miss Laura Kohler, youngest daughter of Professor A. Kohler, of West Linn, and William A. REV. W. B. STEWART TO COME HERE

M'MINNVILLE PASTOR TAKES CHURCH IN OREGON CITY Oregon City has fallen heir to another Scotch preacher. Some nine years ago Rev. J. R. Landsborough came from Canada to the Presbyterian church. This first sample proved so acceptable that the Baptist church called Dr. Milliken, another Canadian Scotchman, five years ago. Then the Congregationalists followed by importing still another Canadian Scotchman, Rev. MacCallum. The Methodist church, by way of variety, called the Rev. Mr. Gilbert, a Canadian, but of English descent. And now the Baptist church, not satisfied with one Scotchman, calls another to take the place of Mr. Ware as its country missionary—the Rev. W. B. Stewart of McMinville.

NEW AUTO REGULATIONS ARE PRESENTED HERE

The muffler on my car is becoming filled with exhaust products of the motor. How should I clean it before it gets bad enough to cause trouble? The best way to clean the muffler is to disassemble it and clean the parts separately. If this is not done the result will not be satisfactory. Slow-moving vehicles must keep as far to right of road as practicable, to permit swiftly-moving vehicles reasonably free passage to the left. Before starting, driver must first see there is room to turn or back into road, and must give visible and audible signals to warn on-coming vehicles of his intent. Ambulances and physicians' autos are exempted from speed limits only when answering emergency calls. Lights must be dimmed, or so directed that rays shall strike the ground not to exceed 75 feet in front of vehicle. No metal block, stud, clear or bead permitted to project more than a quarter-inch from tire. No glass, bottles, nails, tacks, hoops, wire or cans permitted to be thrown on highways. No person, other than a law officer, permitted to climb into an auto or monkey with the cranks or levers without the owner's or driver's permission. No person under 15 years of age permitted to drive a car unless parent, guardian or owner are in the car. BURGLARY CHARGED AGAINST BROTHERS Ed and Harold Uticher are in jail here today on complaint of Isaac N. Cook, who charges that they burglarized his premises March 18. Constable Jack Frost arrested the men Saturday, one at Mulino and the other at Clarkes. They assert that they were several miles away from the Cook place at the time the burglary is supposed to have been committed. Salem-Oregon Packing Co. will surpass 200-carload output of 1916.
