Many persons complain about feeling old before they should. Like a weak link in a chain, a weak organ enfeebles the whole body. Overworked, weak or disordered kidneys lower vitality. A. W. FACTS THAT THE BUYING PUBLIC SHOULD KNOW ABOUT—ESPECIALLY THE ECONOMICALLY INCLINED!

The J. C. Penny Co., with its immensely large purchasing power of 175 stores, has opened a new cash store in Oregon City. In opening this new branch here, The J. C. Penny Co. gives the buying public saving possibilities not found or to be had in other stores.

First we buy our merchandise direct from the largest makers and manufacturers, passing by all "middlemen's profits," placing our contracts far in advance of season to insure the most wanted merchandise for our patrons at competition's prices.

More logical facts. Stop a moment and let us reason together. The store or stores which buy goods passing through two or three concerns before it reaches the retailer is wrong merchandising, for each of these transactions must carry a profit which has to be added to the cost of the goods before they reach the retailer. This is high-priced buying—hence high prices.

Again—When you are paying your cash to a credit store, you are not paying your cash to a cash store. Nor are you getting anything like a cash price for your money at a credit store. The credit stores sell on time at time prices. Every time you leave your cash at a credit store you are paying somebody else's old debts. If a credit store succeeds at all, it is with the cash you leave there. Remember the old debts are still there. Why pay higher prices?

Our method is one price to all. A store where a child can as safely shop as an adult, with exactly the same courtesy. We do not quote you one price and whisper another price to your neighbor. Your money has the same value every day in the year—100 per cent value—not fifty less one day and seventy-five cents another day. No matter what your station in life, there is no juggling of prices at this store.

The J. C. Penny Co. do not believe in fake "special sales," "bankrupt stocks," "trading stamps," "coupons," "giving discounts," employing "collectors" who pull the door bells off. Honest people well know that goods must be marked up before they can be marked down. This store's cash method is the best in America and will prove the best friend your pocketbook ever had. By a careful examination of prices elsewhere, you will appreciate our values the more you compare, as the difference in price will be your profit. It is only by fair comparison that make us keen economically.

Our cash method and purchasing power means much to every one who really and truly likes to save money.

STORE METHODS BACKED BY BUSINESS PRINCIPLE.

By virtue and wisdom, our standing in the mercantile world today is without parallel. Our economical efficiency in service rendered to all classes in every vicinity where we have stores, is not only visible to the most critical, but felt by all who patronize our stores, because backed by sterling values.

As humble servants of the shopping public, we continue to offer the greatest value giving of any cash stores in America. The frugal shopper learns very quickly where to find the best merchandise values coupled with the lowest price. Visit this new store, you will not be disappointed nor dissatisfied.
