HOW TORPEDOPLANES MAY HOLD U-BOATS AT THEIR BASES

Zebruggen, the great Prussian submarine base, is shown in the accompanying map, with the depths of that section of the North Sea through which the U-boats must pass. It is proposed to send torpedoplanes to hover over Zebruggen and destroy the submarines as they pass through the shallow water. With aircraft hovering above ports like Zebruggen allies could detect and destroy many Prussian submarines starting out for commerce raids, and it is said comparatively few machines would be required for the task.

A very pretty and impressive marriage ceremony was performed in this city on Sunday afternoon at 2 o'clock at the home of Mr. and Mrs. G. J. Howell, Thirtieth and Jackson streets, when their only daughter, Miss Vera Ardath, became the wife of Mr. LeRoy Eaton, of Portland, son of Mr. and Mrs. L. O. Eaton, of Canemah. The marriage ceremony was performed by Rev. J. B. McComb, of Oregon City, retired Baptist minister, who united in marriage the grandparents of the bride, Mr. and Mrs. A. O. Aldredge, of this city, at Topeka, Kansas, 40 years ago; also the parents of the bride, Mr. and Mrs. G. J. Howell, 20 years ago in this city. As the bridal party entered the living room from the dining room, Lohengrin's Wedding March was rendered by Merle Howell, brother of the bride. Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

PRESIDENT WILL HAVE CHARGE OF EXPORTING

WASHINGTON, June 25.—President Wilson, by executive order today created an exports embargo council to administer the export embargo provisions of the espionage act.

By the administration of embargoes through this council the nation will be able to take many steps for the successful prosecution of the war and also to prevent supplies reaching Germany through neutrals.

The president's order vests in the secretary of commerce the executive administration of all instructions to be issued by the president under the act and establishes an exports council to be composed of the secretary of state, the secretary of agriculture, the secretary of commerce and the food administrator.

All matters of policy in connection with operation of the act will be decided by the council which will recommend to the president proclamations to be issued putting certain commodities under export control.

Coal and grain will be the first commodities to go under the act. Food exports will be left largely in the hands of the food administration which will consult the council where international questions are involved.

One of the first effects of the act's operation will be to give the government a firm control of the domestic food situation. Shipping, too, will be controlled to a large extent under the act. A plan for rationing the European neutral countries has been worked out and will be put into effect immediately. Secretary Redfield said today his department would have the act in operation within 48 hours.
