

E. W. Bartlett of Estacada Criticizes T. W. Sullivan Who Asks Him for Proofs

When E. W. Bartlett, speaking before the members of the Estacada Commercial club and the visiting members of the Oregon City Commercial club Tuesday night, made the statement that he had been appointed head of the Red Cross campaign and had failed to receive any additional encouragement or supplies, he precipitated a tempest which has brewed since that time.

In a letter to E. M. Standish, representing the Estacada Commercial club, H. T. McBain has outlined the situation from the side of Campaign Manager T. W. Sullivan and others connected with the Red Cross campaign in this county.

The letter in full follows:

"At our meeting last night we understood Mr. Bartlett to make the statement that no report had been made to Oregon City on Red Cross drive because they had received no information or request from Oregon City to that end.

This morning on investigation I find that on June 11 notice was sent by County Manager, T. W. Sullivan, to the school clerk of your district asking that the district organize at once, explaining the purpose and giving all necessary information. This same

letter was published in weekly "Courier" and "Enterprise," with request that all county papers copy, so that no school clerk could "lay down" on the matter.

As no response came Miss Mary Cronin, of Portland, a Red Cross nurse was sent out to Estacada by request of County Manager, T. W. Sullivan, window cards were sent from headquarters here to Postmaster Heyman of your city, and Attorney Devore on his visit here early in the campaign week was handed duplicates of all campaign matter by Mr. Sullivan, who was unable to make a personal visit to Estacada, and Mr. Devore was requested to give the matter his every attention.

Information came back here through a missionary sent out to your city that Estacada would not work with Oregon City and intended to report to Portland. Mr. Sullivan immediately wrote to Portland headquarters reporting this and asked that reports of returns be sent to the county manager here.

Someone has evidently not reported facts to your club and we wish you would investigate, for we know you do not wish any wrong impressions to get out, even though we do not both see matters from the same angle at all times.

Yours very truly,
H. T. McBain.

UNITED STATES' LEADERSHIP THREATENED

In Great Britain an act to enfranchise the women of Great Britain has passed the third reading in the House of Commons by a large majority. Being a government measure its passage by both houses is practically assured. The women of Great Britain will soon enjoy the full franchise. In Canada five provinces have granted full citizenship to women. Bills to enfranchise women, as a reward for war work, have been introduced in the Prussian, Italian and French parliaments. The Russian provisional government is pledged to woman suffrage and the men and women of Petrograd have just voted on equal terms in the first municipal elections held since the revolution. The Roumanian political parties are also pledged to enfranchising their women. The United States may be forced to relinquish her leadership in affairs of democracy to countries supposed to be more backward, unless she passes the Federal amendment at an early date.

DANIELS CAN'T HATCH 'EM

The submarine chasers which we were to build in flocks and for which Congress so promptly appropriated the money still exist only in the egg. Under the lax methods of the Navy Department, where low figures outweigh ability to fulfill a contract, orders were given to shoestring bidders who took a gambler's chance of being able to submit their contracts to shippers. But there are no shippers available for such work and the men who received the contracts have done not a stroke of work. Meantime the toll of the submarine is rising again, and the vaunted aid which Uncle Sam was to render in sweeping this scourge from the sea is paralyzed. The only practical suggestion which Mr. Daniels has thus far made to remedy the difficulty into which he brought himself is that the Navy Department should make advances to the inexperienced bidders to enable them to begin work.

Many persons complain about feeling old before they should. Like a weak link in a chain, a weak organ enfeebls the whole body. Overworked, weak or disordered kidneys lower vitality. A. W. PLAN IMPEACHMENT OF CHICAGO MAYOR WHO FIXED SCHOOL BOARD

CHICAGO, JUNE 25.—A meeting of the judiciary committee of the city council to consider impeachment proceedings against Mayor Thompson, asked in a resolution referred to the committee at yesterday's council meeting, was called for Monday by Chairman Otto Kernor today.

The city hall and the Tribune building were practically under martial law today. Scores of policemen were guarding the school board offices in both places to prevent forcible ousting of Mayor Thompson's appointees, the latest of whom were repudiated by the city council.

Thompson faces two proceedings that may cost him his job—impeachment by the council, or malfeasance in office charges threatened by State's Attorney Hoyne.

The mayor had not returned to the city hall today since his hurried exit late yesterday, just after a book hurled at him by an unidentified alderman missed his head by inches. The book throwing was the climax of a riot which resulted when the Thompson faction in the council attempted to force an adjournment.

The present trouble is the result of a fractional war in the school board which had its inception last week when the mayor gained control of the board through the council's confirmation of his nine appointments. His majority's first official act was the ousting of Jacob M. Loeb as president of the board. Loeb had previously broken with the mayor over control of the board and both had indulged in bitter personalities through the press, accusing each other of trying to wreck the school system. When Loeb was deposed, Lewis E. Larson, secretary, and Angus R. Shannon, counsel, were also thrown out.

HOME TELEPHONE IS GRANTED RECEIVER ASKED BY SAM HILL

Oswald West, ex-Governor of Oregon, was appointed on Saturday receiver of the Home Telephone & Telegraph company by Federal Judge Wolverton.

The appointment followed the granting of an application, filed in the Federal court yesterday morning by Ralph Moody as attorney for Samuel Hill, ex-president and director of the company and one of its heaviest creditors, that it be placed under a receiver to protect its interests.

Mr. West took a leading part in engineering the proposed interchange of service measure which was voted down by the people at the recent election.

The purpose of this measure was to force the Pacific Telephone & Telegraph company to interchange service with the Home company, thus giving the latter the benefit of the big investment and equipment of the Pacific company.

Mr. Hill's application for a receiver was friendly and taken with the full approval of officers of the Home company. It was based on an unpaid promissory note for \$50,000 advanced by Mr. Hill to the company on August 10, 1914, on which neither interest nor principal has been met.

In his complaint Mr. Hill alleged the company is unable to pay the note and that it is indebted in large sums to other persons whom it is unable to pay. To save the company from being injured by efforts of its creditors to collect from it, which he alleged would result in the closing of the plant, he asked the appointment of a receiver.
