

MICHAELIS SAYS SUBS WILL SOON CLOSE WAR

COPENHAGEN, July 26.—With the statement that Germany's wish is to conclude peace as combatants who have successfully accomplished their purpose, yet admitting the severity of the food situation, Dr. Georg Michaelis, the new imperial chancellor of Germany, yesterday made his first address before the reichstag.

Dr. Michaelis declared adherence to the submarine campaign as a means of hastening the end of the war, and looked lightly upon the entry of the United States into the war, asserting the German fleet and the submarines would master that situation.

Meager reports of Dr. Michaelis' address, received yesterday, were supplemented today with more complete versions.

"Although," said Chancellor Michaelis to the reichstag yesterday, "English statesmen knew, as shown by their bluebook, that Russian mobilization must lead to war with Germany, they addressed not a word of warning to Russia against military measures, while my predecessor, in instructions July 29, 1914, to the ambassador at Vienna, directed him to say that we would willingly fulfill our duty as an ally, but must refuse to permit ourselves to be involved in a world war through Austria-Hungary disregarding our counsels. The man who wishes to kindle a world war does not write like this, but a man who is laboring and has labored for peace to the utmost.

"The concentration of the Russian army compelled Germany to seize the sword.

"We look without serious concern upon the optimistic sentiment in the entente countries caused by America's intervention. It is easy to reckon how much tonnage is necessary to transport an army from America to Europe, how much tonnage is required to feed such an army. France and England are scarcely able to feed and supply their own armies without influencing the economic situation still further. After our previous success we shall be able to master this situation also through our fleet, particularly the submarines. That is our firm conviction and assurance. We and our allies, therefore, can look forward to any further development of military events with calm security.

"The burning question in our hearts, however, is how much longer the war is to last. With this, I come to a matter which stands in the center of all our interest and all our proceedings today. Germany did not desire the war in order to make violent conquests, and therefore will not continue the war a day longer merely for the sake of such conquests if it could obtain an honorable peace.

"The Germans," he said, "wish to conclude peace as combatants who have successfully accomplished their purpose and proved themselves invincible. A condition of peace was the inviolability of Germany's territory. No parley was possible with the enemy demanding the cession of German soil.

"We must by means of understanding and in a spirit of give and take guarantee conditions of the existence of German empire upon the continent and overseas," continued the chancellor.

Dr. Michaelis' words on this point required a careful reading and are capable of various interpretations other than the surface one. His German indicates a willingness to make peace only as victors. In his use of the words "understanding" and "give and take" (the German words *verständnis* and *ausgleich*), he revives the Bethmann ideas of readjustment of the frontiers and colonial possessions in bargaining rather than the restoration of the status quo. Peace, he said, must offer the foundation of a lasting reconciliation of nations. Loud cheers greeted this statement.

ONE WEAK SPOT

Many Oregon City People Have a Weak Part and Too Often It's the Back

Many people have a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Backache is often from weak kidneys.

In such a case a kidney medicine is needed. Doan's Kidney Pills are for weak kidneys.

For backache and urinary ills, Oregon City people recommend the remedy.

J. F. Montgomery, W. Oregon City, says: "I had been troubled for some time and my kidney and bladder annoyances and had dull ache in my back across my kidneys. I used one box of Doan's Kidney Pills, which I bought at Huntley Bros. Co.'s Drug Store, and the pains soon left me. The kidney and bladder troubles were relieved, too. (Statement given April 4, 1913).

On April 17, 1916, Mr. Montgomery said: "I am still strong for Doan's Kidney Pills and whenever I can I recommend them to my friends. They never fail to do me good when I have occasion to take a kidney medicine." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Montgomery has twice publicly recommended.

Four Great Business Men Work for the Red Cross

Four great business men, perhaps among the most important in the United States, are now giving all of their time to the work of the Red Cross. Henry P. Davidson, the most famous partner in J. P. Morgan & Company, the international bankers, is chairman of the war council of the organization, and manager of all its activities. Robert S. Lovett, chairman of the boards of the Harriman railroads, the greatest system in the country, is chairman now of the committee on co-ordination of the Red Cross. John D. Ryan, president of the Anaconda Copper Company, is now director general of military relief. Harvey D. Gibson, whose elevation recently to the presidency of the Liberty National Bank of New York City, one of the great financial institutions of the nation, attracted much attention, is the latest acquisition of the Red Cross. He has just been named general manager of the organization.

Elks' New Exalted Ruler

Fred W. Harper of Lynchburg, Va., was elected grand exalted ruler of the Elks at their Boston Grand Lodge.

Mr. Harper is a lawyer and is 43 years of age. He was born in Southport, N. C., but has been practicing law at Lynchburg for 20 years. He is the son-in-law and former law partner of the late United States Senator John W. Daniel of Virginia. He is a graduate of Trinity College, North Carolina, and received his degree of law at the University of Virginia.

He was initiated in the Lynchburg lodge in 1900 and became exalted ruler in 1902. In 1911 he was appointed a member on ritual and later became chairman. He served on the New Elks' National Home Commission and in 1910 was elected president of the State Association of Elks of the State of Virginia.

ALLIED LABOR PARTIES MEET

LONDON, July 24.—The Russian delegates elected by the Council of Workmen and Soldiers' Delegates to confer with the Labor parties of entente countries, have arrived in England. They will be the guests of the Labor party of England for a few days and then will proceed to Paris.

Around the House

Much food is ruined by being stored where flies or other insects or rats and mice can get at it. Much cereal food is ruined because it is not protected against weevils or other insects.

Skim milk is regarded by many persons as unfit for human use. As a matter of fact, it contains practically all of the constituents of whole milk except the fat taken off in the cream.

Tiled floors should be wiped over with skim milk once a week after they have been washed. It is a good plan to rub them over with lused oil about once in two months and then to polish them with a soft cloth.

Whenever a hat, dress or any other article of clothing is discarded rip off the trimmings, cleanse them if they need it and put away in a box for future use.

Wash milk bottles as soon as empty and do not use such containers for any other purpose. Use pure water and do not wipe with a dish towel. Scalding and air drying are better.

Stale rolls and biscuits may be freshened by immersing them quickly in boiling water and putting them into a hot oven to dry out. They may be served hot and will taste as fresh as when first baked.

Suggestions For Using Butter Economically

Use butter economically. Select fat that is cheapest for a given use. Extend the country's resources by using fats from all available sources.

In many homes butter is allowed to become soft, in which state more is used than necessary. Butter added to vegetables during cooking means waste, as butter loses its seasoning quality by cooking. If economy is to be practiced add the butter just before removing the dish from the stove. In the preparation of many dishes butter can be supplanted in whole or in part by cheaper fats with little if any change in the favor of the finished product. Even for table use some of the butter substitutes can be used where the dietary is not limited in variety of foods.

In salad dressings olive oil can be replaced by cottonseed oil, corn and peanut oil preparations. Since these are produced in this country they are cheaper than olive oil, which is largely produced abroad.

The trimmings from meat, usually kept at the market, unless the housekeeper especially requests them, may be used in soups or steamed puddings or rendered and used for deep fat frying.

Gritty Oil Shortens Life of Engine Bearings

Old oil will damage the gas engine far more than will hard work, according to W. H. Sanders, instructor in motors in the Kansas State Agricultural college. Oil that has become surcharged with the fine steel particles from the bearings should be drained off, and fresh oil should be placed in the oiling system at regular intervals. Oil becomes black and gritty in time, and before this stage is reached it should be replaced by fresh oil. The dirty oil may be filtered and used again, but the best method is to use fresh oil. New oil costs something, but is cheaper than new bearings.

In cleaning an engine before replacing the supply of oil it should be run until thoroughly warm. All the old oil should then be drained from the crank case. The same amount of clean kerosene should be placed in the oil reservoir and the engine run carefully for a short time until all of the crank shaft bearings are thoroughly cleaned.

The War Garden—Coffee Bean

THE COFFEE BEAN IS A DISTANT RELATIVE OF THE LIMA, BOSTON, STRING, BAKED AND OTHER BEANS' HOW FAR DISTANT NOBODY REALLY KNOWS, BUT IT MUST BE AT LEAST 250 MILES.

COFFEE WAS FIRST FOUND IN ABBYSSINIA ON THE SIDE OF A HILL BY A MOHAMMEDAN PRIEST WHO TOOK IT HOME AND PLANTED IT IN A COFFEE POT.

A TURKISH RULER OF THE 15TH CENTURY WAS INVITED TO A COFFEE CLOTH BY SEVERAL FRIENDS, AND AFTER DRINKING A CUPFUL, HE SAID THAT THE COFFEE WAS SULTAN, HE CLAIMED IT WAS BOOZE AND HE PROHIBITED ITS USE.

EVERYBODY SHOULD HAVE A COFFEE HOUSE IN HIS GARDEN.

BY THE NAME OF DEMI TASSE TOOK SOME SMALL COFFEE PLANTS TO BRAZIL AND STARTED THEM GROWING THERE. HE BUILT SEVERAL COFFEE HOUSES FROM THE BARK OF THE COFFEE PLANT.

THE COFFEE HUT IS ONE WHO IS CRAZY FOR COFFEE. THE COFFEE BUG IS ONE WHO GOES THROUGH THE HOUSE FOR COFFEE.

WHEAT ELEVATOR BURNED

ROCHESTER, N. Y., July 23.—Fire Sunday completely destroyed the plant of the Whitney Elevator & Warehouse company, where 100,000 bushels of wheat were stored. The loss is estimated at \$700,000.

LOSES SHEEP AGAIN

KLAMATH FALLS, Or., July 23.—A number of sheep belonging to Charles Grey, who owns a ranch half way between here and Ashland, have been poisoned. This is the second time Grey has had sheep killed in this way.

Names Fighting Machine for Georgia Girl

MISS AILEEN FIELDER

This picture is a little trick of the photographer, for the picture of Lieutenant Chisam sitting on his airplane Aileen was taken on the French front, many miles from the peaceful scene where Miss Aileen Fielder was photographed in her Georgia home. The lieutenant received his airplane training at Augusta, where he met Miss Fielder. Writing to a friend in Augusta, Lieutenant Chisam said: "This is my special machine which no one flies but myself, and she certainly gets along. She is doing wonderful work and there are plenty of little round patches on her wings to show where Hun bullets have landed uncomfortably close to the pilot."

COMMITTEE OF 3 WILL REPLACE H. C. HOOVER

WASHINGTON, July 21.—Virtually rewritten as it came from the house a month ago, the administration food control bill, modified, but still giving the president broad authority to regulate food, feeds and fuels; providing for a board of three food commissioners instead of a single individual and authorizing a minimum guaranteed

HERBERT C. HOOVER

price of \$2 a bushel for wheat, was passed late today by the senate.

Prohibition provisions, prohibiting further manufacture of distilled beverages and directing the president to buy all distilled beverages in bond, were left unchanged. The final vote on the bill was 81 to 6.

Those voting against the bill were: France, Penrose, Sherman, Sutherland, Republicans—4. Hardwick and Reed, Democrats—2. Total 6.

The bill limits government control virtually to the original subjects of the house measure—food, feeds and fuels.

In lieu of the house bill's broad provisions for licensing food dealers, the senate bill limits federal licensing to the following agencies, and these only which have products in interstate or foreign commerce:

Wheat elevators, cold storage and packing houses, farm implement factories, coal producers and dealers and wholesalers of designated necessities.

The house bill's provisions for federal requisitioning of necessities is limited by the senate redraft to foods, feeds and fuels and other supplies for military purposes only.

Government purchase and sale of foodstuffs to maintain reasonable prices also is limited by the senate bill to fuel, wheat, flour, meat, beans and potatoes.

The house provision for authority to requisition factories generally was curtailed by the senate to factories, pack-

KEEPERS OF THE LIGHTS ASK FOR INCREASED PAY

SAN FRANCISCO, July 24.—Coast lighthouse tenders, it became known today, have joined in a movement of employes of the United States light-house service to petition congress for an increase in pay. The salary of \$600 a year has remained stationary for the last 40 years. The men point out in their petition that many keepers in isolated stations have the burden of maintaining their children where they can attend school.

The hazardous and strenuous nature of their work is reviewed. They ask compensation equal to that of surfmen in the coast guard service.

Salem: State highway board opened half a million dollars of paving bids.

Nothing will make a person feel old quicker than disordered kidneys, for when they are not working properly the whole system is infected with poisons that cause aches and pains in all parts of the body. A. W. Morgan, Angola, Va., writes: "Oh, I suffered with pain in my back. I am 43 years old, but I felt like a man 90 years old. Since I took Foley Kidney Pills I feel like I did when I was 21." They tone up and strengthen the kidneys, and promptly relieve annoying bladder troubles. Jones Drug Co.

WILSON ACCEPTS RESIGNATION OF MAJOR GENERAL GOETHALS

Forces Chairman Denman to Also Leave Place on Federal Shipping Board.

WASHINGTON, July 24.—President Wilson today asked Chairman Denman of the shipping board, to resign, and accepted the resignation of Major General Goethals as general manager of the Emergency Fleet corporation.

Official announcement of the acceptance of the resignations of Goethals and Captain John B. White was made with publication of a letter from President Wilson to Chairman Denman, asking for his resignation and giving the president's opinion that the only way to end the row which has delayed the shipbuilding program was for both Goethals and Denman to be removed.

In asking for Mr. Denman's resignation, President Wilson suggested that he would be glad to "take the same disinterested and self-forgetting course that General Goethals has taken."

"When you have done as he has done," the president wrote Mr. Denman, "I am sure that you may count with the utmost confidence upon the ultimate verdict of the people of the country with regard to your magnanimous and unselfish view of public duty and upon winning in the retrospect the same admiration and confidence that I have learned to feel for you."

President Wilson's action came as a surprise. Officials generally had thought he would make a further effort to patch up differences and divide specifically between Chairman Denman and General Goethals' power conferred on him by the shipping act.

Chairman Denman received the president's request for his resignation at noon and tendered it immediately.

"I want to help the president in every way possible," he said, "and never have questioned the wisdom of his decisions."

Edward N. Hurley, a Chicago business man and former chairman of the Federal Trade commission, will become chairman of the shipping board. Washington L. Capps, chief constructor of the navy, will succeed General Goethals as general manager of the Emergency Fleet corporation. Bainbridge Colby, of New York, will become a member of the shipping board in place of Captain John B. White.

Mr. Hurley and Mr. Colby were nominated later by President Wilson as members of the board.

After his resignation had been accepted, Captain White said he had advised all the other members of the board to resign and give the president a free hand for reorganization. No official announcement was made of the intentions of the other members, but it was said there were prospects of some other resignations.

EQUIPMENT SHORT FOR FORCES AT CLACKAMAS

PORTLAND, Or., July 24.—Troops of the Oregon National Guard, 2500 strong, will mobilize today.

Every officer and soldier has received his preliminary instructions, which call for the assembly of all troops at their home armories promptly at 6 o'clock this morning.

The next step will be their concentration within a few days at Fort Stevens, near the mouth of the Columbia river, and at Camp Withycombe, Clackamas, Or.

The men of the Oregon Coast Artillery will proceed as soon as possible to Fort Stevens, where they will drill with the big guns. It is the general feeling that men in this branch eventually will see service in France in the handling of heavy field artillery.

The other troops mobilizing today will be sent to Camp Withycombe, to remain until they can be thoroughly outfitted and equipped. Fully 700 of the men have no uniforms, no equipment of any kind, and not even mess kits.

It was for this reason that the previous orders issued by the War Department that they should proceed to the cantonment at Palo Alto, Cal., were changed to provide for their staying at Camp Withycombe, where the Third Oregon Infantry has been in camp for some months, until they are really in readiness to leave.

The troops affected by today's mobilization include the 12 companies of the Oregon Coast Artillery, with the headquarters, band and sanitary troops attached; headquarters and Troops A, B, C, and D, First separate squadron, cavalry; headquarters and Companies A, B, and C, First separate battalion, Engineers; Field Hospital No. 1, and separate Batteries A and B, Field Artillery.

Of the Coast Artillery only the Eighth company and band are from All the Portland troops will assemble at the Portland Armory. They will be fed in restaurants during the mobilization period.

General White has overcome the lack of quarters by arranging that each Portland man in the various commands here shall take one of the men of his company from outside the city to his home at night.

Until the concentration at Camp Withycombe, the troops will be permitted to go home at night to sleep, as there are no quarters for them at the armory.

All National Guard troops are to be drafted into the Federal service August 5. This is a formality that must be complied with, so they can be ordered to service outside the United States.

TYPHOID AFFECTS FIFTEEN

SHEPHERD, Or., July 21.—Because one person drank impure well water 15 persons in or near Shepherd are now suffering with typhoid fever. Ex-Mayor Dodson is among the number. Nine others of the stricken 15 are members or relatives of the Dodson family. Several are so seriously ill that it is feared they may not recover.

RUSSIAN MAY HELP U. S.

COPENHAGEN, July 24.—Reports were current here today that Admiral Kollschaltel, commanding the Russian Black Sea fleet, will join the American fleet in European waters.

24 MEN IN JAIL WITH POLICE IN SYMPATHY

SEATTLE, July 21.—Seattle, following a day of rioting and street confusion and futile effort on the part of the traction company to operate its cars, tonight looks to the conference committee of business men and conservative labor leaders and representatives of the strikers to evolve a plan of mediation that will bring the disputants together.

Twenty-four men arrested in the streetcar riots today are held in jail on an open charge in default of \$500 bail each. Six persons sustained minor injuries.

When the first car left the barn this afternoon it was not molested until it reached Jackson street, near Second avenue, where it was surrounded by thousands of workmen who had just left the shipyards. Stones came from all directions and the windows were speedily wrecked.

The car managed to move a few blocks north and then encountered another crowd on Second avenue south.

Motorman Schlater was struck in the head with a brick and fell to the floor unconscious. He was taken to the city hospital.

A. O. Bibbans, the conductor, was struck many times by stones and bricks, but stuck to his post.

One hundred police charged the mob, and many rioters were beaten. Plate glass windows all along the route of the car were demolished.

Developments today came thick and fast and included a movement by Mayor Gill to prosecute all the policemen who refused to obey orders when detailed to strike duty.

Ten of the 16 policemen who struck were arrested today on warrants sworn to by the mayor, charging malfeasance in office, the complaint citing a statute passed by the legislature in 1909, making the offense punishable by a fine of \$250.

COOK WITH PEARL OIL

COOLNESS

There's nothing so cool as an oil stove for summer cooking. All the heat is concentrated on the cooking and not radiated about the kitchen.

Cooks everything any wood or coal range will cook, and cooks it better, because of the steady, evenly-distributed heat.

Use it all the year 'round—more convenient than a wood or coal stove, and more economical.

The long blue chimneys prevent all smoke and smell.

In 1, 2, 3 and 4 burner sizes, with or without ovens. Also cabinet models. Ask your dealer today.
