

MARKET REPORT

PORTLAND, Or., Sept. 4.—There were liberal increases shown in offerings of peaches along the street during the day, and prices made quick response to this condition.

Sales of peaches were made from 65c to 90c a box generally during the morning trade, but few lots were sold above 85c.

Receipts of early Crawford's showed the best increase, but few of the arrivals showed favorable sizes, and for that reason did not generally bring extreme prices.

Every indication at present points to an increased offering of peaches on the local market during the present week, and this naturally gives the trade the idea that values will be shaded from day to day, although no extreme low prices are anticipated.

Trade in the local egg market is showing a steady to strong tone along the street. Arrivals are only of fair volume with demand showing some increases. Prices are practically unchanged.

In the market for country killed meats, the trend of the trade is holding steady at former prices. Receipts of calves are quite fair, but there is still a scarcity of hogs available here.

Quite fair supplies of prunes are arriving in lots in good condition. Market is rather slow but steady with sales from 55c to \$1 a lug, according to quality. Dried prune market is holding firm.

Prices in the cantaloupe market are somewhat mixed. One brand of California stock is selling at \$2.25@2.50 for standards, while Burrell Gems from the northwest are quoted at \$1.50@1.75 generally.

Slightly easier tone was shown during the day for tomatoes with a rather fair increase in offerings from the Dilard section, although offerings from The Dalles were not liberal. Sales at 65@75c box.

PORTLAND, Or., Sept. 5.—The week's opening market in the Portland Union Stock Yards was very active in all departments, and especially so in the cattle section. The stock offered consisted of 1400 cattle, 1000 hogs, and 1500 sheep.

The cattle department showed a considerable accumulation of strength during the day, raising the quotations 15 to 25 cents in the various classes. The great bulk of volume was in good, but unfinished steers, which sold between \$8 to \$9. Some excellent cows were offered and changed hands between \$7 to \$8. The calf market was up a good 25 cents and there still prevails a strong demand for good top steers.

The heavy run of feeders which prevailed during the past week has been halted and the week's opening found an offering of splendidly finished hogs, and the market has gone up in response to an \$18 top. The supply is still inadequate for the demand.

Conditions in the sheep houses continue steady with not enough supply in the lamb and wether departments to meet the demand. The stock department is transacting a considerable volume of business with the supply and demand about balanced.

This report is furnished by R. Petzold and Brady Mercantile Company.

MUCH OF THE WAR'S PROGRESS IS LAID TO AMERICAN GENIUS

WASHINGTON, Sept. 3.—The war is being prosecuted successfully so far as America's participation in it is concerned. You may have no hesitation about telling the American people that they need have no apprehension on that score.

This is the message of Secretary of Commerce Redfield to the American people on the progress of military operations under the American flag. In an interview today Mr. Redfield outlined what is being done under the auspices of the Stars and Stripes and told in language so convincing that it admitted of no shadow of doubt that American genius—Yankee ingenuity—is making rapid strides toward winning the war.

"The British, we understand, have perfected an airplane engine which surpasses anything yet devised by either entente or enemy engineers," Mr. Redfield told.

"Ah, but the Americans have... The narrative of Secretary Redfield was of surpassing interest. Airplanes are but typical of the carnival of mechanical progress which has been made, largely under government supervision. It was made plain by the secretary that any information divulged would be of value to the enemy; hence no details of Mr. Redfield's discourse can be divulged. Suffice it to say that the American government has perfected devices of fairy wonder. No American need read of the inventive genius of the enemy with any apprehension, according to Secretary Redfield. He may rest assured that whatever has been invented by Germany has been materially improved upon by Americans.

The catalogue of what has already been accomplished toward the winning of the war through the bringing to bear upon the problem the keenest scientific, mechanical and inventive genius would read like a tale out of the Arabian Nights. Those in Washington who know of the accomplishments in this line are straining at the leash to inform the American people of the miraculous work which has been done, but the mask of the censorship has been slipped over the face of achievement for the present and these revelations must wait until the American hand is played on the battlefields of France.

Meantime, says Secretary Redfield, American citizens may rest assured that democracy is in safe keeping.

THREE GERMAN SPIES GET JAIL SENTENCES AT BERGEN, NORWAY

CHRISTIANIA, Sept. 3.—Three German spies have been convicted at Bergen for supplying information to submarines regarding the sailing time of vessels which later were torpedoed. Captain Laven and Officer Schwartz, German citizens, and Thorsen, a Norwegian, all were given terms in the penitentiary. Laven was sentenced to five years, Schwartz to four, and Thorsen to ten years imprisonment.

Captain Laven admitted that he had worked under instructions from the German authorities. He said that German subjects were forced to obey such orders.

Norwegian newspapers in commenting on the trial, emphasized that the country must take note of the fact German subjects must obey orders from their own country.

VOLUNTEERS GATHER STATISTICS ON FOOD SUPPLY OF NATION

WASHINGTON, Sept. 3.—A volunteer army made up of 10,000 American housewives, 350,000 merchants and 35,000 farmers is today actively engaged in taking an inventory of the nation's food supplies. They are taking stock of the food they have on the pantry and preserve closets, on the shelves and under the counter, in warehouses and grain elevators and in barns and bins on the farm.

As soon as the returns are complete they will be forwarded to Washington for tabulation and the results will be announced later.

NO MORE OF WOODEN SHIPS ARE TO BE BUILT BY THE U. S.

WASHINGTON, Sept. 3.—There will be no additional wooden ships built by the United States. Those already contracted for will be completed. But no others are to be arranged for at this time.

This was officially admitted by the federal shipping board today. By this action the reorganized board has in effect, sustained General Goethals.

General Goethals refused to build wooden ships and as a result of the controversy with former Chairman Denman both were forced out of the Emergency Fleet corporation.

"No more contracts for wooden ships are contemplated at present. For the time being the wooden ship program is abandoned."

This was the only official word issued on the subject. But it was learned from an excellent source that the board is practically unanimous that wooden vessels are an unnecessary makeshift and would be of no use to this government.

Chairman Hurley of the commission after a complete investigation of the entire subject, has come to the conclusion, it is learned, that the proposed wooden ship is surpassed in every way for war service and for subsequent peace use by those constructed of steel.

Contracts have been prepared by the Emergency Fleet corporation for the construction of three government owned shipyards. These will be sent to the secretary of the board by Admiral Capps today for signature. At the same time contracts will be signed for the construction of 200 ships in the yards. These ships will be built of fabricated steel.

It is generally understood that Chairman Hurley has advocated the steel ship largely because of the value of these ships for foreign trade after the war. He believes that wooden ships would be of little value in the keen competition for world trade after peace is declared.
