LUXBURG'S CONDUCT IS DECRIED BY THE KAISER

BUENOS AIRES, Sept. 24.—An ultimatum sent by the Argentine government to Germany demanding repudiation of the actions of Count Luxburg, ex-charge d'affaires here, was followed closely by a note of disapproval from the Berlin foreign ministry.

Foreign Minister Pueyrredon gave out two notes that he had received from Dr. Luis B. Molina, the Argentine minister at Berlin. The first read: "I confirm my telegram of September 21 and am transmitting the exact text of the note from the German government in reply to your communication."

"This note was delivered personally to me by the imperial chancellor, who has just returned from Munich and who repeated the sentiments of the note in a most expressive and definite manner. There is no doubt, therefore, that the German empire condemns the conduct of Luxburg, whose opinions were purely personal, and it disapproves absolutely."

The second message received from the Argentine minister says: "I have to inform you of the untruth of the report sent out by the enemies of Germany that the Kaiser has sent Luxburg a message approving his conduct and has offered another diplomatic post to him. The government has denied the report by wireless."
