HIGH COST LIVING DEMANDS INCREASE OF TEN PER CENT

Backing up their petition to the school board for increases in salaries practically the entire corps of teachers of the city schools swooped down on the board meeting Friday night and indicated clearly, through their spokesmen, chief of whom was City Superintendent Tooze, that the high cost of living justified them in asking for an increase averaging 10 per cent over the present schedule. Mr. Tooze presented the petitions, signed by 35 teachers of the high school and grades, and made an argument in favor of the increase.

Director J. E. Hedges and Mr. Tooze engaged in a verbal tilt that added spice to the problem. Mr. Hedges told the teachers that he had already set the wheels in motion, at a previous meeting, for some salary increases, and said he had informed the superintendent that if a petition came in from the teachers for an increase he would vote against it and that he proposed to keep his word. He indicated that Mr. Tooze should have told the teachers of his position. Heated words passed and finally Chairman Eby poured oil on troubled waters and the petitioners were advised that their request would be given due consideration at a special meeting to be held for that purpose.

The petition of the grade teachers contemplates a schedule of \$49.50 a month for 12 months for the first year's service, a total of \$594 a year, as against the present schedule of \$60 a month for nine months. The petitioners ask for \$53.625 a month for 12 months for the second year's service, a total of \$643.50 a year, as against the present schedule of \$65 a month for nine months, and for a salary of \$57.57 a month for 12 months for the third year's service, a total of \$690.84 a year, as against the existing pay of \$70 a month for nine months. The principals in the grades and high school would receive \$1320 a year under the new schedule, an increase of \$120 per annum.

High school teachers are asking for \$690 a year, or \$57.50 a month for 12 months, for teachers without previous experience; \$750 a year, or \$62.50 a month for 12 months for teachers of one year's experience; \$810 a year, or \$67.50 a month for 12 months for teachers of two year's experience, and \$840 a year, or \$70 a month for 12 months, for teachers of three or more years' experience. The present schedule for high school teachers is \$70 for the first year and \$75 for the second year, \$75 being the maximum paid except in the case of department heads and special teachers, some of whom are paid from \$80 to \$125 a month for nine months.

There appears to be a disposition on the part of the school board to grant the teachers an increase in salary, subject to the financial limitations of the district, and the problem will be thoroughly and carefully considered before a definite decision is reached.

CITY COUNCIL IN SPECIAL MEETING REVIEWS BUDGET

The city council at the special meeting on Thursday night took up for consideration the financial budget for the new fiscal year of the city. No definite action was taken at the meeting as to the sums to be appropriated in the different departments of the city government, the budget list merely being taken from appropriations of 1917 with the view of discussing them whether they should be lowered or raised. Among the appropriations brought up was that of the health department several members of the council favoring its reduction, it was also the opinion of one or two that the amount set aside for the maintenance of the police department should be raised that the officers of the force were working on a salary too low considering the noticeable increase in living expenses.

It was ordered that the city engineer be instructed to put in electric lights on the city end of the suspension bridge. The ordinance regulating the new system under which supplies would be purchased, accounted for and paid was passed and approved by the mayor, and a petition from Frank Busch was received asking that he be allowed to construct a furniture factory at the corner of Twelfth and Water streets, the petition stating that the factory would be constructed of wood and two stories in height to be used for the manufacture of furniture. The petition was referred to the committee on streets with power to act.

S. collector of internal revenue, electrified two audiences with the formal opening of the Clackamas county campaign for the Liberty Bonds. CIRCUIT COURT DECIDES CITY OF OSWEGO CASE

Attorney Jos. E. Hedges, who appeared for the defendant city in the case of Julia Cooper versus the City of Oswego, today received the decision of the circuit court, handed down by Judge Bagley, who presided during the trial of the case here about two weeks ago. The case has attracted considerable attention for the reason that the decision would determine the right of a municipal corporation to spend money on a county road which, within the corporate limits, coincided with a street.

The City of Oswego acting under its powers conferred by the charter desired to spend money for improvements on Front street, which coincided with the county road passing through the city, and some contention having been raised as to the right of the city to do this the case was brought more in the nature of a test case to ascertain to a certainty the right of the town to do this.

The action was brought by Julia Cooper through her attorney W. M. Stone, of Portland, against the city and its officers, represented by Jos. E. Hedges of this city to restrain them from spending the sum of \$3800 in the improvement of Front street, which is identical with the county road in the limits of Oswego. The defense contended that the city had the right to spend the money under the provisions of the city charter which were broad enough to allow the city to enter into any contract they might wish to for the purpose of improving the city in any way, inasmuch as the charter was created by the people.

The court held in its decision that under the law the county court has jurisdiction of all county roads and unless authority was granted by the legislature to the people giving them the right to expend money on county roads the plaintiff must prevail. The court further held that under the statute of 1917 the county court is given exclusive right in the improvement of county roads and this law in effect prohibits the city from improving any county road. The city of Oswego had no jurisdiction over the road in controversy authorizing them to spend the sum of money on improvement without the express consent of the legal voters in the city, and this was not given. A permanent injunction was therefore issued restraining the city of Oswego and its officers from entering into a contract to improve Front street or the county road.
