## Macksburg

MACKSBURG, Ore., Oct. 25.—Whether due to the influence of our food commissioner or not, certain it is that these sunny days are witnessing an amount of food preservation hitherto unknown to us. Not only are apples, pears and prunes turned out of the dryers as formerly, our attention has been directed to grapes and raisins of a quality that may well admonish California to look well to her laurels if she wishes to hold her championship in this crop. Besides fruit, corn, beans, squashes and even potatoes come from the dryer ready for shipment to home or to foreign ports.

The old fashioned spectacle of orchard grounds covered with decaying fruit for lack of a near-by market is no more; the cider-press and the drying house take it all.

Potatoes that formerly could only be sent with profit, to adjacent states, are now prepared to go round the world, and to keep indefinitely, instead of sprouting themselves into an inedible state before the winter's end. Squashes, like pears, seem to acquire an added sweetness in the dryer, the evaporation of moisture leaving their native sugar more in evidence than when in their fresh condition.

String beans which, formerly, could only be kept for winter by canning, are found to be fully as good when dried, thus eliminating the cost of cans as well as the danger of breakage by frost, which is always lying in wait for glass. Besides this space on the store-room shelves is gained by drying the food and putting in sacks, a consideration that may well be taken into account in these days of increased conservation of food, when the store-rooms are individually growing too small. In short, few are the households in our community that would not gladden Mr. Hoover's soul could he step into them one of these autumn days.

A special missionary service is to be held in the Bethel chapel on the evening of Tuesday, October 23. The meeting is to be addressed by a missionary lately returned from the Orient.

Mrs. Frank Hilton, with her four youngest children, drove down from her mountain ranch for a visit to her relatives in our vicinity early in the last week.

Bessie, the youngest daughter of Mr. and Mrs. John Hepler, is very ill with pneumonia. Mrs. Hepler has cut short her visit in Iowa and is hastening home on the little one's account.

Many members of the Lutheran congregation will go on the evening of Tuesday, October 23, the 400th anniversary of Dr. Martin Luther's nailing the 95 theses to the door of the Wittenberg church.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & Co., Toledo, Ohio. Sold by all Druggists, etc.

THE KID HALLOWE'EN.

Halloween used to be an occasion with little doing except for the romantic girls who went down cellar backwards, looking in a mirror to see their future husbands. Of late years it has grown into a very frisky kid frolic, sometimes resulting in real mischief.

The very tingling spirit of October seems to get into the kid bones at this kinky season. The more a man shows annoyance, the more they pester him. If the youngsters simply ring doorbells and rattle tacks, it is better to be calmly oblivious. But if you show it bothers you, or above all if you get out and pursue the fleeing imps, one can see your finish. That is just what they want and there will be no rest for the wicked. People with young hearts do not mind a few tricks. When it comes to ripping blinds off buildings or lugging of gates, the humor of the joke is not fully apparent.

In some places these kid pranks have gone so far that the citizens have gotten up public celebrations to interest the boys and divert their attention. At Fort Worth, Texas, the Fall Festival association holds parades and pageants with 4000 school children. At Allentown, Pa., where a similar celebration is held, the young folks rig up as ghosts and hobgoblins and Charlie Chaplins, and there is a general carnival without mischief.

Most communities haven't the energy for anything so elaborate. The parents in any neighborhood where the kids get too high, can avert much disturbance by giving them a Halloween party. The boy with his eye on the ice cream is not going to carry off many gates.

Many gangs of boys start in celebrating Halloween in the early fall as soon as it is too dark to play football after supper and keep it up for a couple of months. Sometimes it comes to the point where one of those celebrated interviews in the woodshed becomes in order.

A THOROUGH TEST.

One to Convince the Most Skeptical Oregon City Reader.

The test of time is the test that counts.

Doan's Kidney Pills have made their reputation by effective action.

The following case is typical. Oregon City residents should be convinced.

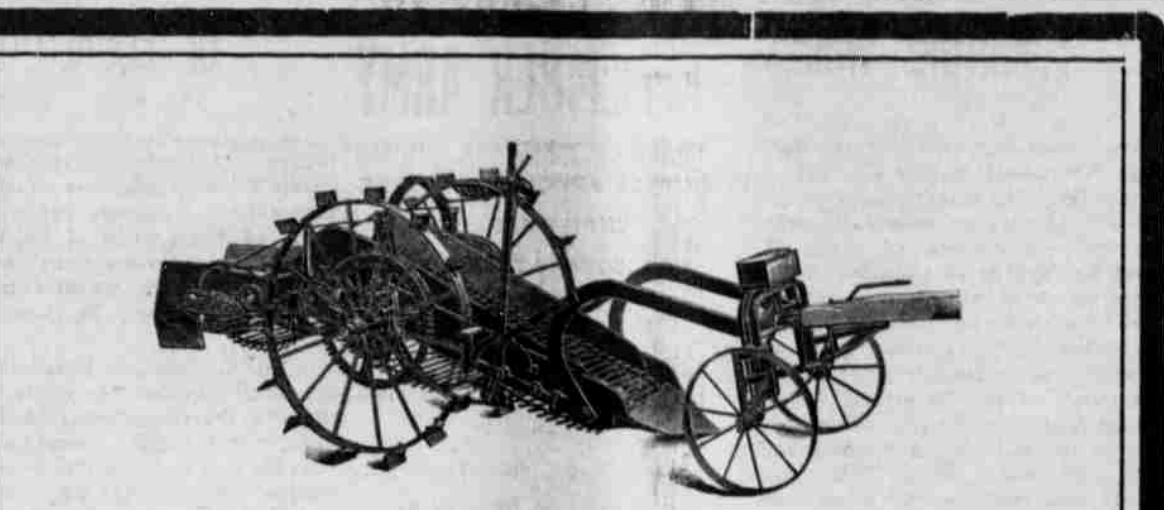

The testimony is confirmed—the proof complete.

Testimony like this cannot be ignored.

Thomas Trembath, 310 Sixth St., Oregon City, says: "I have bought Doan's Kidney Pills at Huntley Bros. Co.'s Drug Store and they have my endorsement. I used them when my back and kidneys bothered me and they certainly made the soreness and lameness in my back disappear in short order." (Statement given April 4, 1914.)

On April 17, 1916, Mr. Trembath said: "Doan's Kidney Pills can't be equalled for backache and other signs of kidney trouble. Whenever my back pains or my kidneys are out of order, a few doses of Doan's Kidney Pills fix me up all right."

Price 60 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Trembath has twice publicly recommended. Foster-Milburn Co., Manufacturers, Buffalo, N. Y.—Adv.
