GREAT CHANCE FOR CITY

City Asked to Give Financial Support to Plant, which Means Prosperity to Everyone.

Through the efforts of B. G. Skulason, P. K. Enebo, Philip Streib and Isaac Gratton, Milwaukie stands favorable chances of having a ship yard that is if Milwaukie is alive to the opportunity. Mr. Gratton has executed an option for a long term lease to Mr. Skulason and Mr. Enebo, on the tract between the Gratton Hotel and the mill and on a part of the water front near the mouth of Johnson Creek, which location lends itself admirably to the shipbuilding industry. These gentlemen have formed a shipbuilding company and have offered to the residents of Milwaukie an opportunity to invest in the stock of the company. Due to the strike of the shipbuilders in Portland and the great Liberty Loan drive some delay has been occasioned in receiving subscriptions for stock but now with these two matters out of the way it is to be hoped that the residents of Milwaukie will bestir themselves and see to it that our city secures this great enterprise. It is of course readily apparent what the establishment of this industry will mean to Milwaukie. If established the company will employ several hundred men and will bring to our city a pay roll running up into the thousands of dollars. The company is capitalized at \$100,000, shares being \$100 each. Subscriptions are being accepted by Mr. Streib at the First State Bank for shares from one to any amount. When interviewed regarding the situation, Mr. Skulason stated, that several cities were endeavoring to persuade them to establish the ship building plant at their city, but that if the proper support is given the proposed industry by the local people, the plant would be established here without a doubt. He further stated that while it is of course a patriotic duty to build ships at the present time, yet the possibilities of profit are so great, that this character of an investment tops all others from standpoint of safety and sureness of profits. Unlimited contracts for the building of ships are available to any yard equipped to take care of the work. Liberty Bonds will be accepted in payment of subscriptions, in order to facilitate the investment of those people who have put their ready money into this form of security. It is a wonderful opportunity for Milwaukie, one likely never to occur again, and it behooves every resident of this city to do everything they can to bring forth the proper financial support for this shipbuilding plant which will not only return a handsome dividend to the investor, but will be the opening of a new era of prosperity in the city's future.

Milwaukie Boys Leave With Third Oregon

Several of the Milwaukie boys left with the Third Oregon on Friday for Camp Mills. L. I. Roy O'Dell, Rolfo Skulason, St. Clair De Vanl and Frank McCann, a former Milwaukie boy, were among the number and many friends went to Portland to see the boys off.
