GLORY OF ART STILL LIVES

Despite the War in All Its Bitterness the More Pleasing Impulses Continue to Reign Supreme.

One great human interest which feels the grip of the war in all its bitterness and no less in its inspiring glories, still keeps its place above the fierce shocks and bewildering changes of the time.

Painters still seek and now and again find the very soul of nature's varying moods. Sculptors still carve cold marble into the image of life and make it eloquent in its appeal to thought and feeling.

It is stated that the shining cross can be seen many miles away with the naked eye.

HOW GREAT WARS ARE WON

It is Very Rarely That Conflicts Are Victorious Because of Superior Valor, Says Writer.

The vulgar idea of war is that the victory is won by superior valor or other moral virtue, writes H. Sidebottom in the Atlantic. This, however, has very rarely been the case; almost all Western nations, at any rate, are equally brave, though the valor of some exceeds in obstinacy and endurance and of others in daring and elation.

Sometimes (to take the domain of tactics) it is a new weapon that wins victory on the battlefield, or at any rate contributes to the ease with which it is won; sometimes, as in the Roman and in Frederick's armies, it is superior discipline, greater physical fitness and practice in maneuver that win the victory.

More than a century ago Prussia was the only non-Roman Catholic power represented at the Vatican. Therefore, it was Prussia which obtained the concession for a cemetery to be used for the bodies of those not of the Roman faith, and the property still remains in the hands of the German government.

The minimum number of questions each man must answer is about 26, the maximum about 100. Once filled out, the questionnaire constitutes each man's complete record with the government.
