German Salmon Bred in Thames.

Same good things come from Germany, and one of them is the German splmon, which is now being bred on a large scale in the Thames and has the advantage o being non-migratory. At least it is non-migratory in its hative waters, but it may change its habits here, says a London correspondent, as happened with the English and Amerlean brook trout which were planted in New Zenland. In English waters the brook front is never migratory, but in New Zeahand they rapidly developed into confirmed sen rovers, and have now become a fine and healthy race of sen trout, affording excellent sport and attaining unusual size,

Manchus Have Beans to Burn.

Bean-cake is cheaper than coal at Harbin, Manchuria and the Chinese there are now using it as fuel, says the Japan Chronicle, Coal costs 90 kopeks a pood and bean-cake only 75 kopeks. while it is contended the latter throws out more heat. As all the bean mills have large stocks on hand and are increasing them daily, there is a tendency for its use as fuel to spread.

A Handy Story.

Danghter-I'm ashaned of you, pa. I saw you kiss the parlor maid as you went out.

Pa-Don't be ridiculous, dear. I've missed two or three bottles of Scotch lately, and, as I suspected Nellie, I took the opportunity of smelling her breath, that's all.

LITTLE ONES AND OLD ONES.

James Edwards, 208 Harriet St., Montgomery, Ala., writes: "I sleep all night and cough but little. I feel like I Pay Postage on Jobs Sent in by Mail. a new man from using Foley's Honey and Tar. My whole family is using it now-the little ones and the old ones. It has cured our coughs and broken our colds." Foley's Honey and Tar clears stopped air passages, removes Money to Loan phiegm, heals raw inflamed membranes, soothes sore chest, makes breathing easy, and relieves those deep-seated, racking coughs.- Jones Drug. He had in mind, of course, the sweating and the poisoning of workers that for too long went to the making of cheap matches,

Yet the popular insistence on cheap The government does its part to warchancellor of the exchequer and coined an immortal enigram; and the superorliy of the matches they can normal- the Willamette meridian,ly be bought in this country over the limsy, lifeless, expendve sorts sold control has given the free-trader one arguments. The British match must now suffer control.

Such matches as there are will be to go round, for, faced with a famine in some districts and with loose matches at 30 for a penny in others, people have already begun to make that economy in consumption which, with no greater sacrifice than a little care, might easily save a half of the matches burned.

SACRIFICES OF ARMY DOCTOR

Home Practice and Other Advantages Relinguished to Serve Country During the War.

One-fifth of the total number of physicians in the United States will war continues for another year, observes Leslie's Weekly. All but a small percentage of them must enroll voluntarily. All but a small percentage of them have families to support and these and others are wholly dependent on the income of the head of the house for this support. The physician from 35 to 45 years of age, the age of greatest usefulness for military service, is at that critical period of his professional and fluancial development that two years of forced absence is liable to affect disastrously his whole career. The change menns, if there is no in-

dependent income, sacrificing of insurance, lapsing of the mortgage, withdrawing of children from school, a complete change of method of living, and great risk of returning after the war with a lucrative practice divided among the stay-at-homes. A law has recently been introduced in the senate by Senator Owen which provides an increased rank for medcal officers of the reserve corps, that will in some way meet the financial burden of the volunteer doctor and will furnish him a rank equal to the dignity of his civil position.
