## Macksburg

MACKSBURG, Ore., Jan. 3.—The wild bells rang out to us wild as sky as ever tempted the poet Tennyson's as the 1917 was passing into eternity's grasp—1917—A year of the most stupendous history world has ever known.

These beautiful beings—the optimists are describing in the New Years the white wings of Peace's Messenger and are predicting that the fair, white pages now opening to our view are to record a cessation of all the world's wars forever.

Christmas was a day of genuine though great rejoicing in our vicinity. Many homes were gladdened by the return of children from distant schools, and a few by boys in khaki, home from the training camps on furlough. The weather made attendance upon the services in far away churches impossible though it accentuated the pleasures within doors making brighter the Christmas trees that lit up almost every home.

Mr. and Mrs. Jno. Hepler, with their family, spent Christmas at the home of their eldest daughter, Mrs. Will Roth.

Mrs. Fred Roberts, with her children, visited a near relative.

Mrs. J. Gibson's home was made glad by the presence of a married daughter, who lives beyond the mountains.

Ed Gibson, lately came home for a fortnight's visit after an absence of two years.

Miss Agnes Kister is at home from the Mt. Angel college for the holiday vacation.

Miss Rachel Miller, who for some time has been staying in Woodburn, is spending the holidays at home.

A little son was born in the Christmas week to Mr. and Mrs. Roy Yoder.

The Molalla river and its numerous branches, owing to the action of the warm weather on the snow covering of adjacent mountains, added to the unusual rainfall, has risen to a height hitherto unknown, even to our earliest settlers.

The promptness of the ranchers in repairing bridges and in restoring submerged roads, surely deserve unparagoned praise, especially as most of the work is done in drenching rain.

Mr. and Mrs. Alvin Hamilton, whose marriage has been announced in a recent issue of this paper, are building a new home near Hubbard. The work is progressing as rapidly as the weather will permit.

The Mothers' club is to meet for an all-day session in the present week at the home of its secretary, Mrs. G. M. Baldwin.

The Little Girls' Sewing Circle held its last meeting of the year on Saturday, Dec. 29, at Mrs. Baldwin's home.

Mrs. Earl Evans, who was taken seriously ill while working in the rain on his mother's new cottage, is well enough, now, to resume work in all the intervals of favorable weather.

The spring like temperature has an influence upon vegetation which is shown by the continued reign of fall flowers. Not a few roses are still in bloom.

## George

GEORGE, Ore., Jan. 3.—Rosa and Afford Jameson, of Portland, visited their parents, Mr. and Mrs. A. M. Jameson of George, Saturday night and Sunday.

Mrs. P. Rath is visiting a few days with relatives and friends at Kelso.

## Old Folks Saved From Suffering

Mrs. Mary A. Dean, Taunton, Mass., in her 87th year, says: "I thought I was beyond the reach of medicine, but Foley Kidney Pills have proven most beneficial in my case."

Mr. Sam A. Hoover, High Point, N. C., writes: "My kidney trouble was worse at night and I had to get up from five to seven times. Now I do not have to get up at night, and consider myself in a truly normal condition, which I attribute to Foley Kidney Pills, as I have taken nothing else."

Mrs. M. A. Bridges, Robinson, Mass., says: "I suffered from kidney ailments for two years. I commenced taking Foley Kidney Pills ten months ago, and though I am 61 years of age, I feel like a 16-year-old girl."

Foley Kidney Pills are tonic, strengthening and up-building, and restore normal action to the kidneys and to a disordered and painful bladder. They act quickly and contain no dangerous or harmful drugs.

The following interesting letter has been received from Private Aldea W. Kelly, and will be of interest to his many friends. He finds the Y. M. C. A. a boon to the soldiers. He is with the aviators "Somewhere in Europe."

Monday, Nov. 26.

Dear Mother:—I do not know much about censorship, so do not know if you will be able to read all of this. We have been on the water eleven days. We arrive Wednesday or Thursday. This has been a cruiser, also a freighter. We are fixed pretty comfortable. The baths are salt, and it is hard to get clean, but it is better than nothing.

The food is not so good, but I am glad that I have anything to eat. I have been on look out, and 99 is on one day and 98 the next. We are on from 6 a. m. to 6 p. m., one hour on, two off. We are on the top deck, looking out for submarines, torpedoes, etc. It makes one feel sorry for the English when you see the little fellows waiting on table, some of them don't look over eight or nine years old.

We just received a package from the Army Transfer Girls' fund. It contained a package of Bull Durham, a can of Tuxedo, and a box of matches. I gave mine to one of my friends. We have had little bad weather, so far.

I have been feeling fine the whole trip. I have had all my money changed to English money.

Tuesday, December 6.—After landing—We have not been able to go to town yet. We are not on a pleasure trip, so should not be disappointed. We saw it from a hill top the other day, it is quite large, and must be very old. We saw a church eight hundred years old.

I do not know what we would do without the Y. M. C. A. I have just had a cup of cocoa, a piece of cake, (a sort of bread with raisins). They are saving of everything, water, light, etc. The Y. M. C. A. gave a fine entertainment the other night. It sure was great. They were all professional actors.

You can buy food here only at certain hours. The people at home do not realize how much they could save. They are going to have an entertainment at 6:30 tonight by the N. Y. club.

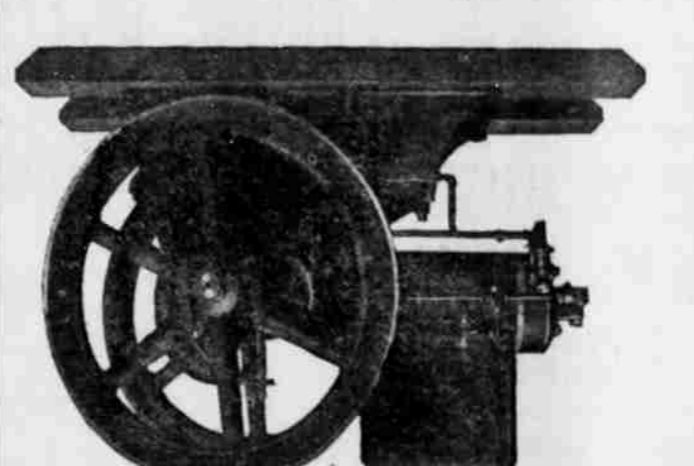

Your son,  
ALDEN W. KELLEY.

Gardner—Three sawmills being constructed on Umpqua river to operate soon.

## The Stover Gasoline Engine

**Is Ready for Work**

THE STOVER ENGINE is an ideal farm power. More than that it is a practical farm power. The Stover Engine is simple and strong. It has few parts. Take the cut of the Stover shown here and compare it with the picture of any other engine on the market. Compare the engines themselves if you can. Note the difference. Notice that the Stover is stronger and better in every detail. Now, why don't you get next to the fact that you are cheating yourself by not owning one of these engines? Everyday you are doing lots of work that could be better and more cheaply done by a Stover Engine. Get the idea that an owner of a gasoline engine has to be an engineer out of your head. He doesn't—that is, if his engine is a Stover. A few minutes instruction will make you able to operate your Stover as an old hand. That's why we say that the Stover is an ideal farm power. It is made right. It is giving satisfaction to 3500 users right here at home in Oregon, Washington and Idaho. We sell them in sizes ranging from one to sixty horse power.

**WE ASK ONLY THE OPPORTUNITY TO SHOW YOU WHAT THE STOVER WILL DO FOR YOU**
