THE COST OF CLOTHES.

Once more bobs up the question of the cost of a woman's clothes. Some man has proposed a list of what a woman should buy per year which adds to \$110.

Three or four pairs of shoes, \$30; three or four hats, \$25; two pairs of hose, \$10; one corset, \$5; one year's underwear, \$25; one year's hairpins, buttons, etc., \$5; spring suit, \$30; two summer dresses, \$10; one sport skirt, \$10; three or four shirt waists, \$20; winter suits, \$35; three pairs of gloves \$10; one party dress, \$30; furs, \$30; miscellaneous, \$10.

Some items are probably averaged over several years. Furs, for instance, if good, probably cost a good deal more than the above allowance, but they are seldom renewed oftener than once in four years or five.

Take the gentleman's list and pencil and paper. What do you guess off-hand you spend a year for clothes? What do you actually spend? Is it a sensible arrangement?
